Re: Fees School Year 2022-2023
Date: January 18, 2022

Introduction

Each year at this time the District sets the school fees for the upcoming school year. It is important to have the fees set at this time in order for the District to determine one of their revenue sources as well as for Kindergarten enrollment in February.

Situation

There are two primary fee sources; Student and Facility. Each year with student fees, we are going to offer a discount if paid prior to July 1st. Based upon my discussion with the staff, it is important we know our enrollment as early as possible. This allows us to hire new staff sooner and develop bus routes. When analyzing student fees, the following was taken into consideration:

1. Student fees will not increase this year.
2. The District has invested in technology in previous years and is continuing to provide more services in this area.
3. Milk fees – Will not increase. The district has raised the fees in prior years, in order to bring the District to a break-even point.
4. An incentive to pay prior to July 1st
5. At the prior year's Board of Education meeting, it was discussed to have an overall \$20 fee increase rather than breaking out fees for clubs and athletics. Last year, we increase fees to cover said costs.

Requirements

- All fees must be paid in full at time of registration.
- Fees paid prior to July 1st receive a discount.
- Parents who are unable to pay fees due to hardship have the affordance of completing a "Fee Waiver Request" form.

Each year building fees are evaluated and determined, this is the fifth year the administration is bringing a recommendation to the Board of Education. The schedule of building rental fees is part of the facility handbook.

Included in this memo is a schedule with an itemized fee structure for both student and facility fees.

Recommendation

The administration is recommending that the Board of Education approve the fees for school year 2022-2023 as presented.
