

Addendum to ARTEC Charter School charter

In accordance with S 1088a, the ARTEC Charter School's charter is amended by its chartering entity, Minidoka School District, to authorize ARTEC Charter School to become a Regional Professional Technical Charter School.

ARTEC Charter School will operate in association with at least two other Region IV school districts as a regional professional technical charter school. The ARTEC Regional Professional Technical Charter School will retain the title ARTEC Charter School. ARTEC Charter School will operate in association with the Region IV school districts which are members in good standing of ARTE Inc., the ARTEC Charter School nonprofit corporation.

As a regional professional technical charter school operating under S 1088a, ARTEC Charter School will require that all of its professional technical programs meet "high end" criteria as certified by the Division of Professional Technical Education and that a senior project be required as a part of the professional technical program completion. The senior project must meet criteria established by the Division of Professional Technical Education and by ARTEC Charter School as well as home high school senior project criteria.

ARTEC Charter School is authorized to provide supplemental professional technical instruction with integrated academic programs constituting up to a ½ day program for students from home private or public high schools and to provide grade 7-12 instruction to part time or full time ARTEC Charter School students. Instruction may be delivered as live classroom or via distance education through microwave, online, or other distance delivery systems.
