

Board Report for July 13, 2015

MAINTENANCE:

Waxing will be done by the 13th at the Middle School. In the process I am installing new compressor on the Ag Shop compressor. Been with the TASB inspector on the asbestos. Janet has been mowing and putting in ceiling tile in and also fixing lights. Really working hard. Trying to get caught up.

TRANSPORTATION:

A/C on BB-1 is fixed. Getting bus 54 worked on. I've got more vehicles inspected. Hope to work on BB-2 soon. Trying to get all the vehicles fixed and ready.

Chad Ely
