Re: Appraisal District litigation

In an effort to keep you and your board informed on all pending litigation between taxpayers and the appraisal district, we have prepared a list of the owners, the properties, the values involved, whether the taxes are paid and the status of the suit. This information will be updated as the litigation progresses and will be forwarded to you at least twice annually.

If a situation arises where the appraisal district must spend a significant amount of money defending the litigation, you will be notified. I hope this information will be useful to you. If there is other information that you feel would be helpful, please let me know.

Sincerely,

Michael Cedars
Chief Appraiser
