MINICO HIGH SCHOOL

#YOU MATTER

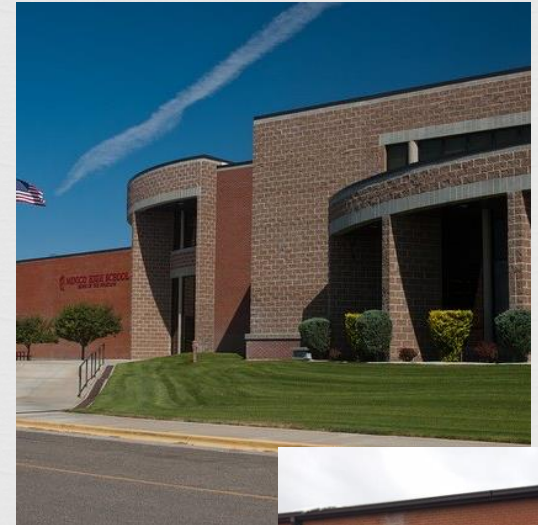

Positive Things Happening at Minico High School

- ☞ Spartan 60 – Time set aside weekly for students to get additional academic help.
- ☞ Integrated Math Curriculum (Higher academic marks and passing rates)
- ☞ Expansion of AG Program and growth in CTE numbers (Machine Operators and Industrial Tech Class)

Current Limitations: Safety

- Up to 21 exterior access points (Safety Concern)
- Interior doors have clear single-pane glass windows and require locking from outside.
- English building, shop and multi-purpose gym are isolated and have multiple access points and no check-in for the buildings.
- Parking lot is in need of updating and resurfacing.

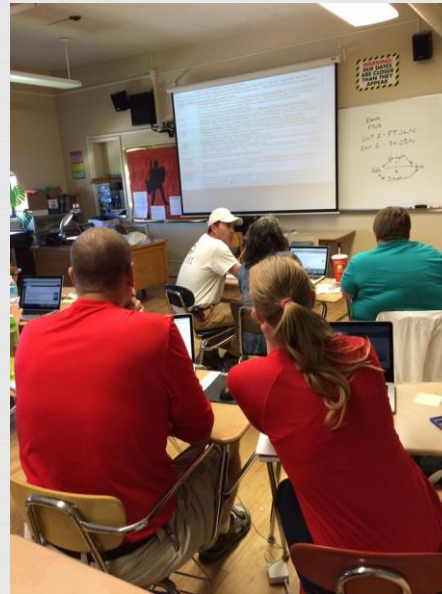

Current Limitations: Facilities

- Gym barely meets minimum safety requirements and frequently exceed maximum capacity for fire safety.
- Main Gym floor has water damage and is not big enough to play two volleyball games.
- Football field visitors bleachers and press box. (Mr. Brown has designed a new press box).
- Parking Lot

Current Limitations: Classroom

- Classroom space is not conducive to 21st century learning and limits flexibility in classroom arrangement and cannot support increased technology usage.
- Math hall does not have air conditioning and bathrooms are equipped with old appliances (not conducive to learning in a hot classroom).
