Re: INSTALLATION OF NEW ENVIRONMENTAL 'VAPE' SENSORS

Thank you for the opportunity to provide a quote for the above-referenced project! **Infiniti Communications Technologies, Inc. (ICT)** proposes to furnish all labor, equipment, and material to perform the required scope of work, as detailed below:

- ❖ Install all required Cat 6/plenum-rated data cabling, originating from the IT Closet, and routed to eight (8) new HALO sensor locations, at four (4) different sets of rest rooms
- ❖ Furnish and install one (1) new HALO 'vape' sensor in the Boys rest room at four (4) separate locations
- ❖ Furnish and install one (1) new HALO 'vape' sensor in the Girls rest room at four (4) separate locations
- ❖ Terminate each end of the proposed Cat 6 cabling installed
- ❖ Test each new Cat 6 network drop installed, post-termination, with an industry-recognized Cat 6 cable tester to ensure cable integrity and cable performance
- ❖ Each device will be equipped with a 3-year license
- ❖ Program and configure devices to integrate with the Westhoff ISD network\*
- ❖ \*Adding these devices onto the Westhoff ISD LAN (Local Area Network) will require coordination between ICT personnel and Region 3 ESC IT personnel, to ensure a seamless integration
- ❖ Verify proper functionality of all devices, following installation

**TOTAL INSTALLED PRICE:**

**\$17,880.00**

**Note – Submitted pricing is based on the following conditions, clarifications, considerations, and exclusions:**

- 1.) ICT personnel performing the required work and having access to all required work areas during normal business hrs. (Mon-Fri; 7:30-5:30)
- 2.) *It is assumed there is an adequate quantity of spare patch panel ports and/or switch ports in the IT Closet to support the proposed devices*
- 3.) Pricing is good for 20 days from the date of the proposal
- 4.) Applicable tax is not included in submitted pricing

Respectfully submitted,
