Background/Discussion:

Oregon Department of Education MEMORANDUM NO# 004-211-12: Suspension of Division 22 Assurances for 2011-2012

As part of the state's mandate relief efforts, the Oregon Department of Education is conducting a comprehensive review and revision of the Division 22 standards during the 2011-2012 school year. The revisions will eliminate outdated or redundant rules and revise and reorganize the remaining rules to clearly define a "standard school district."

To allow time for school districts to thoroughly review the proposed changes to Division 22 standards and provide feedback, ODE will suspend submission of the Division 22 Assurances Form during the 2011-2012 school years. During this transition year, school districts must continue to comply with the current Division 22 standards but will not be required to submit the assurance from to ODE.

Sheridan School District is in compliance with OAR 581-022-1520 (1)(c).
