

STUDENTS

Personal Electronic Communication Devices	524.5	Adopted:	Three Years

I. PURPOSE

The objective of this policy is to support the school district’s focus on learning in alignment with the district’s mission to ignite students’ passion for learning, cultivate a strong foundation of knowledge, and foster a sense of community within our schools. Possession and use of personal electronic communication devices must be regulated to ensure that such devices do not disrupt or interfere with the education process or school operations, impair the safety, welfare, and privacy of students and staff, or are used as part of an act of academic dishonesty.

II. GENERAL STATEMENT OF POLICY

To minimize the impact of personal electronic communication devices on student behavior, mental health, and academic attainment and to support school environments in which students can engage fully with their classmates, their teachers, and instruction, the school board has determined the use of personal electronic communication devices by students during school hours should be limited.

III. DEFINITIONS

- A. “Bell-to-Bell” means from when the first bell rings at the start of the school day to begin instructional time until the dismissal bell rings at the end of the academic school day. “Bell-to bell” includes lunch and time in between class periods.
- B. “Cell Phone” means a personal device capable of making calls, transmitting pictures or video, or sending or receiving messages through electronic means. The definition of cell phone includes a non-smart phone that is limited to making phone calls or text messages and a smartphone that encompasses the above features.
- C. “Cyberbullying” means bullying using technology or other electronic communication, including but not limited to a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device.
- D. “Instructional Time” means any structured or unstructured learning experiences that occur from when the first bell rings at the start of the school day until the dismissal bell rings at the end of the academic school day.

- E. “Personal Electronic Communication Device” means any personal device capable of connecting wirelessly to a cell phone, the internet, a cellular or Wi-Fi network, or directly connects to another similar device. Personal electronic communication devices may include cell phones, wearable devices such as smart watches, personal headphones, earbuds or pods, laptops, tablets, virtual reality devices, and other personal electronic communication devices with the above mentioned characteristics.
- F. “Stored” means a cell phone or personal electronic communication device not being carried on the student’s person, including not in the student’s pocket. Storage options may include, but are not limited to, in the student’s backpack, in the student’s locker, in a locked pouch, or in a designated place in the classroom, as determined by school administration.

IV. PERSONAL ELECTRONIC COMMUNICATION DEVICE USE AND STORAGE

A. Personal Electronic Communication Device Use

- 1. All students (preK-12) are prohibited from using personal electronic communication devices on school premises from bell-to-bell, which includes but is not limited to instructional time, lunch periods, recess, school-sponsored programs, events or activities, or any other time during the designated school day.
- 2. All personal electronic communication devices shall be kept in designated areas and turned off.

B. Off-Campus School-Sponsored Activities

School administration may establish guidelines for personal electronic communication device possession and use during off-campus school-sponsored activities, such as extracurricular activities, outdoor and service trips, and school field trips. These guidelines will be provided at pre-activity meetings, activity-specific permission slips, and by other means as appropriate in the circumstances.

V. LIMITATIONS ON USE OF AND STORAGE OF PERSONAL ELECTRONIC COMMUNICATION DEVICES

A. Limitations on Use of Personal Electronic Communication Devices

- 1. Personal electronic communication devices may not be used in any manner that causes or results in disruption of the educational environment or school-sponsored extracurricular activities or events or impairs or interferes with school district operations.
- 2. Devices, including but not limited to personal electronic communication devices, with audio, video, or photo-taking capabilities shall not be used at any time in locker rooms, bathrooms, or other locations where the presence of such devices poses an unreasonable risk to the safety, welfare, or privacy of others. Confiscation and search of such devices will occur if found in these areas.

3. Students may not use a device to record, transmit, or post audio, videos, or photos of a person or persons on school grounds or on a school bus without the express permission of school staff in addition to the express consent of the individual or individuals that are the subjects of the recording.
4. Personal electronic communication devices may not be used to engage in bullying, cyberbullying, harassment, discrimination, or other activity prohibited under federal or state law or under school district policy.
5. Personal electronic communication devices shall not be used during a lockdown drill, a fire drill, or a similar safety drill.

VI. EXCEPTIONS

- A. Nothing in this policy prohibits a student from using a personal electronic communication device for a purpose documented in the student's individualized education program, a plan developed under section 504 of the Rehabilitation Act of 1973, or a health care plan in force regarding the student.
- B. A student may use a personal electronic communication device to monitor or address a health concern or medical condition upon permission granted by school administration.
- C. Students may use a personal electronic communication device when the use is necessary to respond to or report an emergency. For purposes of this policy, "emergency" means an actual or imminent threat to the health or safety of students and/or school personnel, which may result in death, bodily injury, or substantial property damage.
- D. A student may use a personal electronic communication device during a time when such use would otherwise be prohibited if the building principal or designee grants permission for specific curricular purposes for specific courses.
- E. A personal electronic communication device may be stored in student vehicles parked on school district property provided that the device is not removed from the vehicle while on school district property.
- F. Students who need to make a call may request permission to use a telephone in the building office.

VII. SCHOOL DISTRICT RESPONSIBILITY

- A. The school district is not responsible for, nor is it required to investigate, any lost, stolen, or damaged personal electronic communication devices brought onto school grounds or the bus or school-sponsored activities or events.
- B. The school board directs the superintendent and school district administration to establish additional rules and procedures regarding student possession and use of personal electronic communication devices in schools as the superintendent and school district administration find appropriate. These rules shall be consistent with this policy and other applicable school district policies. These rules and procedures should seek to minimize the impact of personal electronic communication devices on student behavior, mental

health, and academic attainment. These rules and procedures may be designed for specific school buildings, grade levels, or pursuant to similar criteria.
