Accountability

Performance-
Based
Compensation

- ▷ TAP is an educator-led, comprehensive school model focused on attracting, developing, motivating and retaining high-quality educators.

TAP Elements of Success

- ▷ Multiple Career Paths
 - Mentor & Master Teachers
- ▷ Ongoing Applied Professional Growth
 - Cluster meetings
 - School-wide strategies

Example Strategies

Teaching Math Using The Concrete Representational Abstract Model

WHAT IS THE CRA MODEL?
The CRA Model is an instructional approach for teaching math. It consists of three phases:

1. Concrete
2. Representational
3. Abstract

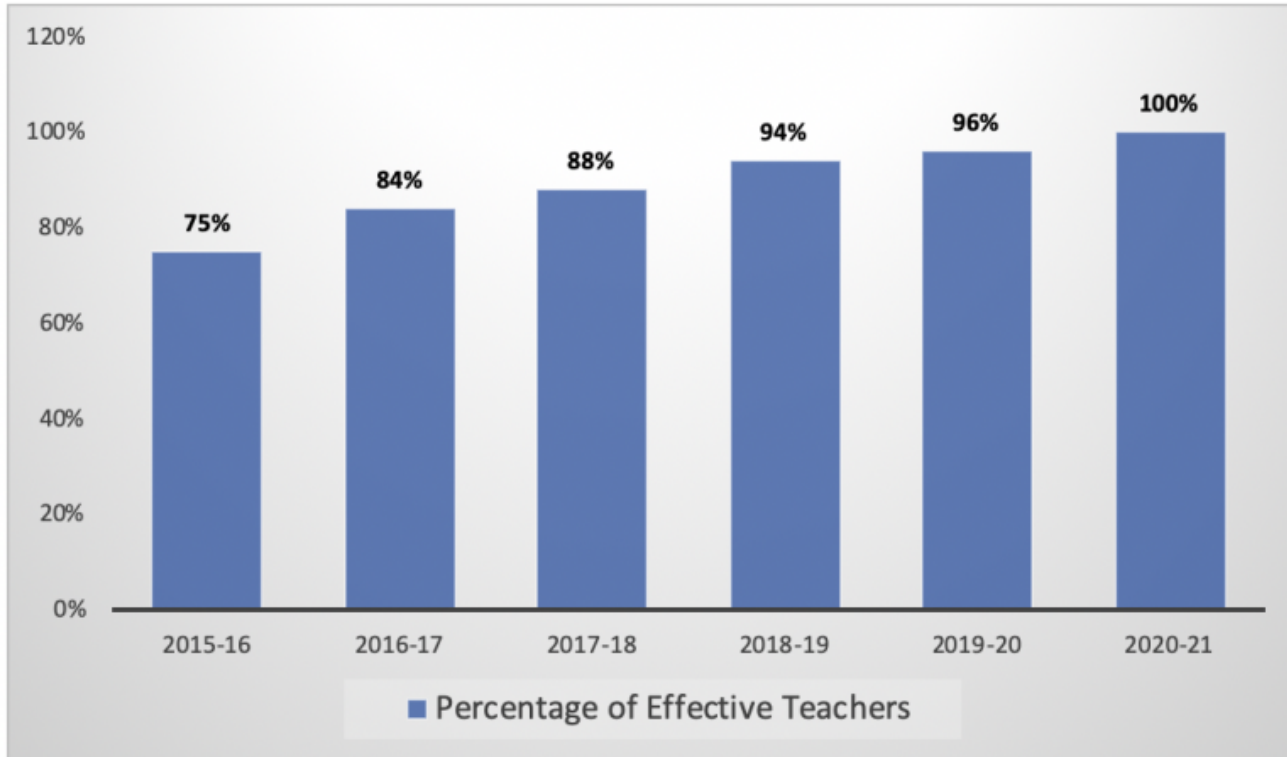

In the concrete phase, we focus on using hands-on manipulatives. Students should be able to move and manipulate 3D objects to represent their thinking. An example of this might be base ten blocks to represent an addition expression.
