Date of Fundraiser:

Description of Fundraiser: (Be Specific):

The Construction pathway would like to design and build sheds for sale to the public. The construction students would be using, refining, and developing the needed skills to prepare them for a career in the construction industry. Using their construction skills, the students would build wooden sheds and sale them for a small profit. With this profit, additional sheds and future projects would be used to help students learn how to build projects and sell their finished projects. All money would be put back into the activity fund to buy more supplies for the future projects. The students would learn how to build a sustainable business in the construction industry.

Anticipated Profit from Fundraiser:

Description of Intended Use of Profits: (List Each Item and Estimated Cost)

The profits would go back into the construction pathway to be used as seed money for additional projects. The costs of materials is high and this money would be a good start to funding many different future projects. Each shed is estimated to cost \$3,000 to build and ship and the anticipated sale price is \$3,500. The anticipated profit is \$500 per shed and the profits will stay in the construction pathway to build future projects on the road to sustainability.
