

Sunray Elementary Board Report

Stacie Jones

8/4/2015

The elementary campus will have a few changes this year. Dee Ann Woodward is moving from 1st grade to 4th grade Math. Kyndall Jones will be moving from that 4th grade Math position, into our 3rd grade Science and Social Studies position. Marlin Ham will be teaching 4th grade Science and Social Studies. Both Mr. Ham and Mrs. Jones will be incorporating writing into their Science and Social Studies classes to help our ELAR teachers. We have also made some changes in classroom assignments and created a 3rd and 4th grade wing at the end of the hall that we share with the middle school, so that those students and teachers wouldn't be quite so spread out. Our teachers have been busy getting set up in their new classrooms and we are excited about these changes. We are eager to see our returning students and meet our new students as well!
