Re: Bid Results for Pavement Replacement

We have issued a Request for Proposal for pavement replacement at Hayes, Kennedy and Riley Elementary Schools to be completed this summer. The source of funds for this project is the Sinking Fund.

A formal bid was conducted and the bid packages were opened on April 6, 2016. The Operations Department with Plante Moran Cresa are currently reviewing the bids and completing their due diligence. They expect to have a recommendation available to present at the Building and Site meeting on Monday, April 11, 2016.

We are confident this will not be a complicated recommendation and we should be able to review the documents and have discussion on Monday. If we have any information that we can send to the Board of Education earlier, we will email it to all members.

Please feel free to contact me if you have any questions.
