Proposed Change to District Calendar:

PHS requests that the 2023-24 district calendar be amended so that the end of the first semester/grading day falls on January 19th. As the calendar currently stands the senior class has one 19 week semester and one 17 week semester. It would also place semester finals during the same week as Homecoming, as the athletics schedule requires Saturday travel on earlier weeks and makes Homecoming festivities on Friday evening problematic.

The proposed change would provide two semesters of equal length for the senior class and allow some logistical flexibility regarding homecoming festivities and semester finals.
