

Executive Director Board Report

October 25, 2022

- October continues to be a busy month with student learning! Our students continue to take the opportunity to grow and learn. They are truly amazing!
- Staffing for our open EA positions continues to be challenging. We have some additional staff that we have been able to hire.
- On October 3, we had an unexpected early dismissal due to a mechanical failure that resulted in smoke in SUN and ALEX. Students responded patiently and the assistance provided by Faribault Police Department and Faribault Fire Department was very much appreciated.
- Congratulations to Superintendent Hillmann who was named Superintendent of the Year! We appreciate all of our member district Superintendents and the support provided to CVSEC.
- Our 2021-2022 Fiscal Audit is underway this week. Thank you to Kim Washa for all the additional work necessary to make this happen smoothly.
- Staff Development continues in many areas, including our teachers' ability to write and deliver effective IEPs (Individualized Education Programs). This school year, all staff who complete IEP paperwork are completing the AXIS 3 CVSEC Academy which is a month-by-month approach to diving into specific pieces of the IEP process. We are regrouping the "why and how" we do things as well as supporting new teaching staff.
