**2021-2023 BEA Agreement >**

**Pages 16-17 >**

**ARTICLE X >**

**HOURS OF SERVICE >**

**Section 3 Preparation Time and Regular Student Contact Assignment: >**

**Subd. 5. Overload Pay:** A teacher overload assignment is defined as a teacher assigned to teach an additional class during their preparation period. Teachers with an overload assignment will be provided with additional compensation. The compensation will be 1/8 of the teacher's daily rate, multiplied by the number of scheduled student contact days.

\$60,608 is the current salary schedule placement for Dan Carpenter at Year Step 15 and Ed Lane BA+30

\$336.72 Daily Rate = \$60,608 divided by 180 contract duty days

\$42.09 per overload period each day = \$336.72 Daily Rate divided by 8 periods per school day

Overload Period Quarter 4 Only:

\$1,725.69 = \$42.09 per overload period X 41 Student Days  
(with no additional make-up days)

\$1,767.78 = \$42.09 per overload period X 42 Student Days  
(if 1 make-up day added on Monday, April 18)

\$1,809.87 = \$42.09 per overload period X 43 Student Days  
(if 2 make-up days added on Monday, April 18 and Friday, May 27)

What would be the expense to the School District if a day-to-day short-call sub had to used?

\$5,125 = \$125 per full day X 41 Student Days (+ multipliers)

\$5,250 = \$125 per full day X 42 Student Days (+ multipliers)

\$5,375 = \$125 per full day X 43 Student Days (+ multipliers)
