Staff Meeting & Wellness

We held an all staff meeting on Friday, November at the Admin Building in Browning while both schools were deep cleaned prior to the Thanksgiving break. Agenda topics included; initial planning and preparing for the Christmas program, creating a consistent master schedule for both schools, small group intervention for ELA and mathematics, and began discussing options for the adoption of ELA, mathematics, science, and social studies curricula for the 21-22 SY. School staff also completed the BPS staff wellness survey and talked about our staff wellness needs.

iTutor Small Group Tutoring for ELA & math

Virtual small group tutoring sessions have been scheduled with the iTutor company to provide additional ELA and mathematics instruction to intervene due to COVID learning loss. Small groups are virtual and students access the Google meet using their individually assigned iPad and utilize headphones w/microphones to interact with the instructor. Small group time is scheduled for 30-minutes of ELA and math instruction in addition to the core program instruction in ELA and math provided by the Ms. Light, Ms. Show, and Ms. Christoferson, Monday-Thursday.
