Title: Athletic Director

Subject: **MOU Agreement with Behavior Health-BTBH-Browning Athletics**

Description: At our sporting events, we have taken several proactive steps to integrate mental health awareness and engage the community.

1. Pre-Event Announcements: Prior to each game, we dedicate a moment to highlight the importance of mental well-being, offering resources and contact information for local behavior health services. This has been well received by both players and attendees.
2. On-Site Resources: We have partnered with mental health professionals to provide informational booths during events, where community members can learn about available support, ask questions, and seek guidance in a welcoming environment.
3. Athlete Support Programs: Recognizing the stress and pressure that athletes face, we are offering workshops and seminars on managing mental health, which are open to both student- athletes and their families. These sessions are designed in collaboration with local mental health professionals to ensure culturally relevant events.
4. Community Engagement: We regularly involve community leaders and local mental health advocates in our planning and execution of events, ensuring that the broader Blackfeet community is part of the conversation around mental health
