Discussion of potential term limits, decided to make this decision when all members are present.

Student/Parent/Budget Committee Members

Discussion of including a middle school student. Committee in agreement to include middle school students in the committee.

Discussion of including more parents, someone has expressed interest in joining the group or attending a meeting at least.

Discussion of including a budget committee member in the group. The goals this committee is aiming to meet will most likely need to be funded – therefore adding a budget committee member would be in our favor.

Budget committee members approve the budget, potentially not necessary for us to have a budget committee member specifically on the committee – will look for school board member. Discussed some potential ideas for board members who might be interested.

Want to open up the invitation of joining the Inclusion Committee to all board members

Reach out to high school student for committee through Kelly Thayer.
