Subject: Update on Digital Resources to Support Online Learning

I would like to request to be placed on the agenda for the Committee of the Whole Meeting on August 17, 2020, to share some of the digital resources we would like to purchase to support remote learning for the 2020-21 school year. The amount for each resource does not meet the threshold of requiring Board approval, but I would like to update the Board regarding how we are supporting our students for the 2020-21 school year.
