Non-Profit/Community Service Learning Site Application

If submitting an application for a place of worship, the service activities must provide a service that extends beyond serving members (e.g., setting up for a service). The activity must serve the community at large and not just the members of the place of worship.

We can be reached at any time

Staffing/Number of Employees *

3

Number of Volunteers *

20

Identify the non-profit/community organization personnel who will supervise student volunteers. *

Nikki Reid

Does your organization maintain liability insurance for volunteers? *

Yes

Do staff members or volunteers who would be working directly with students undergo background checks? *

Yes

If no, provide details of your procedures and policies to ensure the safety of student volunteers. *

Untitled Section

Does your organization have sites at other locations? *

Yes

If yes, where? *

We are an international organization. Our state website is <https://www.ariorg.org/> and the international site is <https://gorainbow.org/>

What is the mission of your organization? *

The International Order of the Rainbow for Girls prepares girls for responsible and purposeful adulthood through character and leadership development, encouraging unselfish service and higher ideals in life, and promoting teamwork and effective interpersonal communications.

What service(s) does your non-profit/community organization provide? *

We provide service for various organizations/projects. The girls hold different offices within the organization and once a girl becomes president (the office is called Worthy Advisor), she will choose the service projects the girls will perform during her term in office.

Describe the volunteer activities students would participate in with your organization. Be specific. For example, write, "stock and organize cans in food pantry for community members" instead of "help in food pantry." *

One service project the girls will perform this term is making and sending Christmas Cards and goodie bags to nursing home residents. They have also collected and provided dog/cat food and toys for animal shelters. There will also be other volunteer opportunities that will come up through the year.

Curriculum Connections

The activities that students complete may connect to what they're learning in school. Select the curriculum connections that your organization may reinforce. Select all that apply. (Adapted from the Maryland Student Service Alliance)

Math

- Appreciation
- Express and interpret mathematical ideas
- Measuring
- Problem-solving
