# DIRECTOR'S REMARKS

Contemplating our motto, "Our today is their tomorrow," helps us to keep our focus on the students. Our work, here at South Central Service Cooperative, is about serving – serving teachers, administrators, classified employees like paraprofessionals, bus drivers, etc. By serving and by keeping our focus on the children, we deliver the types of services that are driven by our co-op's mission and more importantly by our stakeholders' needs.

The mission of South Central Service Cooperative is to empower our schools and communities to meet their educational goals by striving toward strong academics, innovative strategies, and knowledge of skills necessary to impact effective citizenship and economic productivity. The central focus of SCSC's mission is students. It is our intent to keep students at the forefront of every service that we provide to our stakeholders.

To inform our public, the staff at SCSC researched and composed this annual report of services delivered to regional schools during 2024-25. This report will document services and products delivered by each department; it will also provide extensive financial information. The purpose of this report is to inform the Arkansas State Board of Education, participating school personnel, local district board members, area legislators, Department of Elementary and Secondary personnel, the Governor and her staff, and other interested parties about the services of the SCSC. We trust that by providing this information, we will make people aware of services that they may not use because of a lack of awareness of their availability. We also hope that those who utilize these services on a regular basis will be made aware of the depth of offerings, so they can utilize all that is available and also give us feedback on strengths and areas of concern.

The SCSC area includes 11 school districts, 36 schools in four counties; this equates to approximately 1,099 public school teachers and administrators and 14,000 students. Some services are provided to several private schools, home schools, etc. in the area in keeping with federal rules and regulations concerning federal funds also generated by those students.

The law that established the fifteen cooperatives in 1985 and that sustains them in 2025 requires that each cooperative include at least one post-secondary institution.

Arkansas Code Annotated (A.C.A.) § 6-13-1015 (a) and (b) guides use on the type of relationships that we must foster with the postsecondary institutions in our service areas.

Currently, we have an active partnership with Southern Arkansas University in Magnolia and Southern Arkansas University Tech in East Camden. We work closely with SAU's Education Renewal Zone; likewise, we also partner with SAU, SAU Tech and SouthArk's Colleges of Education.

Other partnerships include the Arkansas STEM Coalition, Arkansas State University, area preschool programs and state educational cooperatives.

The staff members of SCSC have carefully prepared this report in compliance with A.C.A. § 6-13-1020 which requires, “In an annual meeting of the board of directors, . . . the education service cooperatives shall report to their constituent school districts on the year’s operation.” This document represents a wide range of services and activities. Included below is a list of services jointly shared by our member districts and by some districts outside the SCSC boundaries; districts outside our co-op purchase their share of the services.

- Arkansas Better Chance Preschools (Total of 10)
- APSCN Student Support via ADE
- APSCN Financial Support via ADE
- CPR and AED Training and Materials Supply Service
- Career and Technical Education Consortium
  - ECH Special Education Consortium
  - ELDT Transportation Consortium
  - Facilities Coordinator and Facilities Planning Services Consortium
- Fingerprinting for school districts, colleges, and ESS agencies
  - Gifted & Talented Coordinator via ADE
- High-Quality Instructional Materials Support
  - Dyslexia Coordinator
- Local Lead for Coordinating Early Childhood Services for Ouachita and Calhoun counties
  - Math Specialist
- Mentoring Specialist
- Professional Learning Communities Support
  - Science Specialist
  - STEM Consortium
  - Professional Development Consortium
  - Medicaid in the Schools
  - School Community Health Nurse via DHS
  - School Vision Equipment Repair Assistance
  - Teacher Center/Print Shop
  - Technology Coordinator & Services
  - Technology Training Center
- Testing Center for Homeschool and Charter Schools
  - WorkForce Education Coordinator & Services

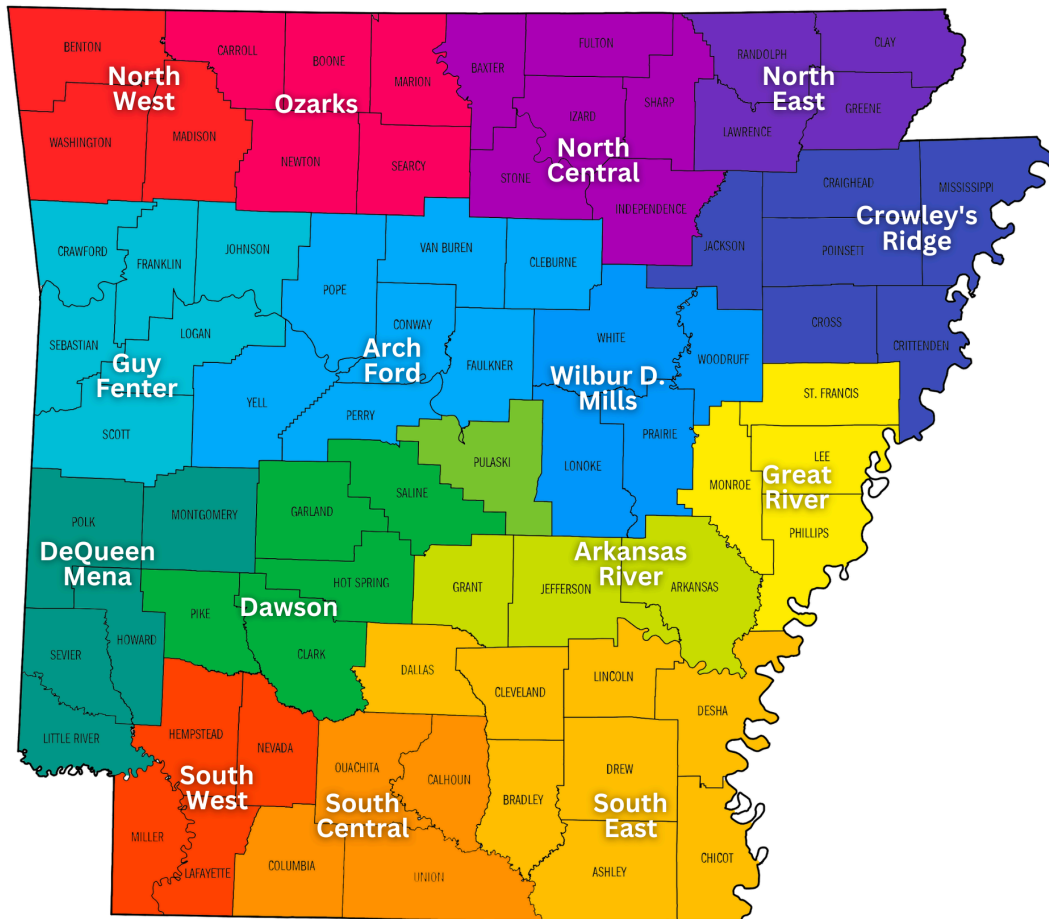

SCSC is investing people, time, and money so our schools and students will be successful in these efforts. As our mission guides us, the staff at SCSC will strive to be service-oriented, student-centered, and proactive. #servicetotheCORE

# MISSION STATEMENT

*"Our today is their tomorrow!"*

The mission of South Central Service Cooperative is to empower our schools and communities to meet their educational goals by striving toward strong academics, innovative strategies, and knowledge of skills necessary to impact effective citizenship and economic productivity.

# **SOUTH CENTRAL SERVICE COOPERATIVE**

## **ANNUAL REPORT**

DATE: June 1, 2025

LEA# 5220000

ESC# 11

ESC NAME: South Central Service Cooperative

ADDRESS: 2235 California Avenue, SW

PHONE NUMBER: 870-836-1600

DIRECTOR: Karen Kay McMahan

TEACHER CENTER COORDINATOR: Anna Warriner

NAMES OF COUNTIES SERVED: 5 -- Calhoun, Columbia, Ouachita, Union, and Lafayette

NUMBER OF DISTRICTS: 11

NUMBER OF STUDENTS: 14,000

NUMBER OF TEACHERS: 1,099

FREE LUNCHES: 7,434

REDUCED LUNCHES: 1,647

PAID LUNCHES: 4,919

### **I. GOVERNANCE**

- A. How is the co-op governed?

Board of Directors or Executive Committee

How many members on the Board? 11 Executive Committee 0

How many times did the Board meet? 11 Executive Committee 0

When is the regular meeting? Second Wednesday of the month.

Date of current year's annual meeting: June 11, 2025

- B. Does the co-op have a Teacher Center Committee? YES NO

If yes, then:

How many are on the Teacher Center Committee? 11

How many members are teachers? 6

How many times did the Teacher Center Committee meet? The South Central Service Cooperative Teacher Center Meeting met for a total of three times during the 2024-2025 school year. When is the regular meeting? No regular meeting.

Committee met 3 times: September 12, 2024; November 7, 2024; March 13, 2025

- C. When was the most recent survey/needs assessment conducted? May/June 2025

- D. Have written policies been filed with the Arkansas Department of Education?  
YES NO

## II. STAFFING

Please list (or attach a list of) all staff members of the co-op (including those housed at the co-op and paid through other sources), their titles and the salary funding sources for the positions. Place an asterisk (\*) beside those who are housed at the co-op only and whose salary does not flow through the co-op's budget. (S=State, F=Federal, H=Head Start, M=Medicaid, P=Private, B=Base Funds, D=District)

### **III. TEACHER CENTER**

Please attach a list of all in-service training/staff development workshops offered through the co-op, including month offered, topic, number of districts participating, number of participants and location of workshops. Place an asterisk (\*) beside those, which provided curriculum assistance. Include a cumulative total of participants. See attached form.

A. Does the co-op provide media services to schools? YES NO

- A. Approximate the number of titles in media center: N/A
- C. Does the co-op provide delivery to the districts? YES NO
- D. How many districts participate in the media program? 11
- E. How many titles (including duplicate counts) were provided to schools during this current year? 0
- F. Do districts contribute dollars to the media services? YES NO
- G. How are media charges per district determined (formal or per ADM)?  
Please describe: N/A
- H. Does the co-op operate a “make-and-take” center for teachers?  
YES NO
- I. How many visitors have come into the center? (Count all visitors who have visited the center, using duplicate counts for any visitors who have visited the center more than once). 876  
  
Number of Teacher Participants: 800

#### **IV. ADMINISTRATIVE SERVICES**

Please check the administrative services offered through the co-op:

- √ ArPEP
- √ ARApp
- √ Cooperative purchasing
- √ HQIM assistance
- √ HQPL assistance
- √ Administrative Learning Walks
- √ escWORKS training and assistance
- √ Planning assistance
- √ Special education services
- √ Gifted and talented assistance
- √ Grant writing assistance
- √ ESS support
- √ Evaluation procedures

- √ Migrant Student Identification
- √ Bookkeeping assistance
- √ Technology training
- √ Library Media Specialist Support
- √ LEAD Teacher Designation Training
- √ Curriculum alignment
- √ Business Management training
- √ Computer technician
- √ Assessment data analysis
- √ Instructional facilitator training
- √ Math/Literacy coaches training
- √ Math/Science/Literacy specialists
- √ Numerous professional development opportunities for teachers
- √ Praxis Support
- √ Foundations of Reading Support
- √ Administrators and local board members
- √ Recruiting & Retention
- √ Novice Teacher Training
- √ Mentor Teacher Training
- √ Vision and Hearing Equipment Maintenance and Repair
- √ Career and Technical Support
- √ K-12 Behavior Support Teacher Training
- √ Community Health Nurse to Support School Nurses
- √ Other (please specify)

Board Member Training

## **V. DIRECT SERVICES TO STUDENTS**

Please check the student services provided through the co-op:

√ Arkansas Better Chance (10 classrooms)

√ Itinerant teachers – please list areas: Early Childhood Special Education

Speech therapist services to 3-5 year-old children

Occupational and physical therapy services to 3-5 year-old children

√ Mentor programs: Novice Teacher Mentoring

Ed Rising events

Praxis Support

Foundations of Reading Support

√ Gifted/talented programs: 11 participating districts

Quiz Bowl

Battle of the Books (Grades 3-4)

√ Zoom instruction

√ ACT Preparation

√ STEM training and competitions

Capture the Flag Competition

Coding Competitions

√ Other (Please specify):

Nursing Services

Stop the Bleed/CPR for Seniors

## **VI. ANECDOTAL REPORTS**

Please attach three or four descriptions of activities, which demonstrate partnerships, agreements or creative ways that the co-op has assisted local districts. The co-op personnel may write the reports, or local schools served by the co-op may write the descriptions. These reports may also include letters sent to the co-op or evaluations of a co-op activity.

### **Name of Project/Program: Communities of Practice (CoP)**

#### **Program Description:**

Building Communities of Practice (CoP) is focused around Identifying Learning Loss and Accelerating Learning using High-Quality Instructional Materials (HQIM). DESE, in partnership with a national partner, will bring together groups of Arkansas system leaders (district and school teams). The Community of Practice will explore the leadership practices necessary to implement math and/or literacy instruction and learning supports that meet the moment, while staying focused on long-term recovery and acceleration goals.

The CoP includes a series of sessions that includes research and evidence-based strategies to address and plan for the acceleration of learning using HQIM.

Grantee will select vendors from those approved by Rivet Education to contract with for professional services to engage in content coaching, with emphasis on HQIM.

South Central Service Cooperative partnered with districts to receive support from vendors that would focus support on administrative support. Districts were able to individually choose vendors that they had worked with to assist in supporting administrators.

For example; Bailey Education Group partnered with several districts to meet with administrators throughout the year to offer support. After each visit, a Bailey Group Specialist provided a detailed report to SCSC and the district regarding support and ongoing steps for administrative staff. This was a collaborative effort between the district, Bailey Group, and SCSC.

### **Name of Project/Program: Foundations of Reading Test /Praxis Study Support**

#### **Program Summary:**

SCSC partnered with Kid's First Education to provide additional support for educators that needed assistance in preparing for the Foundations of Reading Praxis Test. SCSC held a total of two training sessions in the Fall of 2024 and two training sessions in the Spring of 2025. Those teachers that attended both days of training, received a voucher to pay for the Foundations of Reading test. A total of 37 educators attended these sessions.

In addition to Foundations of Reading, we also offered Praxis Support for Elementary Math, Elementary Social Studies, and Middle School ELA in Spring and Summer 2025.. These participants also received a voucher for attending the session. A total of 24 educators participated in these training sessions.

At this time, we are collecting data to determine who has passed their exams after they provided this specific support from Kids's First Education.

Individualized support was also offered and provided for candidates that needed additional test preparation interventions.

### **Name of Project/Program: Stronger Connections Grant**

#### **Program Summary:**

On September 15, 2022, the Arkansas Department of Education (ADE) Division of Elementary and Secondary Education (DESE) was awarded \$9,378,149 in federal K-12 funding from the U.S. Department of Education under the BSCA Stronger Connections grant program Title IV, Part A of the Elementary and Secondary Education Act of 1965 (ESEA) for state educational agencies (SEAs) to provide students with safe and healthy learning environments. ADE is awarding these funds through competitive grants to high-need local educational agencies (LEAs) that ensure transparency and successful implementation of activities allowable under section 4108 of the ESEA to support the ongoing needs of students, educators, families, and communities.

The Stronger Connections grant aims to provide funding for LEAs to develop, implement, and evaluate a comprehensive approach that prioritizes physical and emotional safety for their unique school community (SEC. 4108 [20 U.S.C. 7118]). Funded activities and practices should promote safe and supportive learning environments by prioritizing safety, creating a sense of belonging, and teaching positive behaviors in order to improve academic achievement and the well being of all students. All grant expenditures must supplement, not supplant. Grant funds must be spent by September 2026.

The SCSC Teacher Center Coordinator applied and received The Stronger Connections Grant from DESE for supporting school safety. There was interest from seven of our districts to join together as a consortium to receive these funds. SCSC was awarded \$270, 925 to use with these districts. The focus is on providing equipment and materials to help secure buildings. There is also a specific component to provide to school safety training district-wide for school safety teams and teachers. Grant funds must be spent by September 2026.

## Highlights of the SCSC Stronger Connections Consortium

- iloveyouguys Foundation Standard Response Protocol and Standard Response Method Training was offered to all school district staff from our seven participating districts. Three, six hour days of training were held at SCSC.
- At the SCSC Administrator's Retreat, a two-day Standard Reunification Exercise was held with district school safety teams, including school resource officers. The exercise focused on school organization and communication after a safety incident or natural disaster.
- A CERT (Certified Emergency Response Training) Trainer of Trainer was held at SCSC.
- Other equipment and materials purchased for districts as of May 2025
  - Character Strong Social and Emotional Learning Curriculum
  - Door access and control systems for school entrances
  - Security cameras for school buses
  - Secure radio system upgrades
  - School bus communication systems
  - Security cameras for school campuses

The members of this consortium meet quarterly to determine the needs of each district and the group collectively.

The seven school districts that are a part of this consortium are:

Bearden

Emerson-Taylor-Bradley

Harmony Grove

Hampton

Parkers Chapel

Smackover-Norphlet

Strong-Huttig

## VII. EMPLOYMENT POLICIES AND PRACTICES

*Act 610* of 1999 requires that each educational service cooperative report the following information:

### EMPLOYED

Number of new males employed by the cooperative for the 2024-2025 school year;  
For this number, please provide the number in each of the following racial classifications:

White 0  
African American 0  
Hispanic 0  
Asian 0  
American Indian/Alaskan Native 0

Number of new females employed by the cooperative for the 2024-2025 school year;  
For this number, please provide the number in each of the following racial  
classifications:

White 1  
African American 0  
Hispanic 0  
Asian 0  
American Indian/Alaskan Native 0

### **TERMINATED**

Number of males terminated by the cooperative during the 2024-2025 school year;  
For this number, please provide the number in each of the following racial  
classifications:

White 0  
African American 0  
Hispanic 0  
Asian 0  
American Indian/Alaskan Native 0

Number of females terminated by the cooperative during the 2024-2025 school year;  
For this number, please provide the number in each of the following racial  
classifications:

White 0  
African American 0  
Hispanic 0  
Asian 0  
American Indian/Alaskan Native 0

### **SEEKING EMPLOYMENT**

Number of males seeking employment by the cooperative during the 2024-2025  
school year; For this number, please provide the number in each of the following racial  
classifications:

White 2  
African American 0  
Hispanic 0  
Asian 0  
American Indian/Alaskan Native 0  
Unknown 0

Number of females seeking employment by the cooperative during the 2024-2025 school year; For this number, please provide the number in each of the following racial classifications:

White 30  
African American 13  
Hispanic 1  
Asian 0  
American Indian/Alaskan Native 0  
Unknown 0

Comments:	Salary Step increases are contingent upon sufficient revenue availability from the employee's appropriate funding source. If sufficient revenue is not available to support increases, the employee will remain at the current level. When/if funds subsequently become available, employees will "step up" to level which funding allows. Base funds may not be used to support non-base employee increases without special approval of the Co- op Board.

# SCSC FISCAL REPORT

*Fiscal Year 2023*

## **Cooperative Finance Overview**

Arkansas Educational Cooperatives are funded from three primary sources: state, local, and federal.

State funds are awarded to Educational Service Cooperatives through targeted grants. The grant budgets and goals originate from the Arkansas Department of Elementary and Secondary Education. Grant funds are reimbursed by DESE after program appropriate expenditures occur. The grants include targeted funds for reading specialists/coaches, math specialists, dyslexia specialists, science specialists, technology specialists, special education, curriculum training, and other grants as determined by DESE. The funds are carried over only by special permission from the Department of Education. DESE also provides \$408,000 annually to each cooperative for general operations. State funds represented 34.54% of all cooperative revenues in FY24 or \$59,312,684.

Local revenue is money that comes to a cooperative from local school districts by agreement. The services associated with these agreements include staff shared between districts, professional development services, special education testing, interest income, cooperative operations, repair services, and other special projects as determined by participating districts and the cooperative. Local funds accounted for 37.05% of cooperative revenue or \$63,636,084 in FY24.

Federal funds are governed by federal & state laws and rules for each program. They are reimbursed by DESE after program appropriate expenditures are made. Balances are regulated by federal rules. Federal Programs operated through cooperatives include the Migrant program, Arkansas Better Chance, the Perkins Program, and Special Education ages 3-5. Currently cooperatives have ARP ESSER funds that are associated with ABC, Early Childhood Special Education, and the Homeless program. For the fiscal year 2024, the cooperative Federal revenue total was \$48,136,507 or 28.03% of all FY24 revenue.

Total revenue for 23-24 was \$171,741,194. This includes the broad categories above, plus revenue of \$655,920. Additional revenue occurred in select cooperatives and included insurance claims, food service programs for students, and other revenue streams not common to the group.

## Goal

The goal of the South Central Service Cooperative's ABC preschool program is to identify qualifying three to five year-old students and to provide safe, healthy, nurturing, age-appropriate experiences for preschool children in a developmentally appropriate setting.

## Program Summary

The South Central Service Cooperative provided ABC preschool services to 220 students in five school districts in the cooperative area. The curriculum is aligned with the Arkansas Early Childhood Framework to promote student readiness upon entry into Kindergarten. Students are presented with hands-on activities using manipulatives and technology that, when coupled with teacher guidance, encourage social, adaptive, cognitive, language, and motor development. In order to be accepted into an ABC Preschool Program, the child must qualify under one or more of the following areas:

1. Income level as listed on the application form
2. Teenage parent
3. Low birth weight (under 5.5 pounds)
4. Parent without high school diploma or GED
5. History of abuse/neglect or drug/alcohol abuse
6. Disability under IDEA
7. Failed developmental screening
8. English as a second language

## Major Highlights of the Year

The Arkansas Better Chance grant for the 2024-2025 school year was successfully submitted and approved 220 student slots located on five sites in the Co-op service area. None of our five sites received an ECERS review during the school year. ECERS, the Early Childhood Environmental Rating Scale, is the evaluation instrument used by the Division to monitor state ABC programs.

Teachers have continued to create instructional videos to encourage parent involvement and collaboration among the staff. Teachers created videos and uploaded them to the [SCSC Preschool Facebook page](#). Projects included cooking activities, science experiments, story

time, and even a long term experience of observing the life cycle of butterflies. Teachers also scheduled virtual class meetings with their families. Teachers used Zoom as their choice of a virtual platform. We have also used the social media page as efforts for recruiting and have gone out to community firehouses and community events to promote attendance and our program. Our preschool application has been updated and changed to a virtual format using Google Forms. Families can access and complete the application online as the application is posted on Facebook and the Cooperative website. Collaboration among staff continued and staff could be found participating in multiple virtual trainings as well as participating in local school district efforts to serve families as needed.

The application for participation in the Child and Adult Care Food Program was successfully completed. It was approved, and our ABC staff was trained in proper submission of required data.

The South Central Service Co-op's Arkansas Better Chance program has collaborated with regional and local ABC programs to provide quality professional development in the areas of social development, literacy, math, and science. The Arkansas Better Chance program has also partnered with local agencies such as HIPPI, Head Start, and our Local Lead, Zephonia Avant, to provide activities for families in celebration of Arkansas Children's Week.

SCSC's ABC teachers will continue their use of classroom Bee Bots, Codapillar, Osmos, and Rigamajig instructional projects. SCSC's ABC teachers have incorporated STEAM and Tinkering activities within their classrooms.

SCSC's certified Pre-K teachers have completed LETRS training and continue to facilitate the use of Launchpad within their classrooms. Our classified Pre-K teachers are following the certified teachers' lead and are completing LETRS training and facilitating the use of Launchpad within their classrooms as well.

SCSC will host another Pre-K Day at the co-op this year. Some of the activities students and parents may participate in are: Go Noodle, Rig-ama-jig, planting garden seeds, robot fun, bouncy house fun, pelt exhibit from the Arkansas Game and Fish, cow milking simulation animal, tattoo art, and a petting zoo. We also serve lunch to all the students, family, and co-op staff.

SCSC ABC has been collaborating with other Pre-K programs and our Local Lead to help promote the importance of preschool in the communities that we serve, and we have been working with our SCSC SpEd department on child find.

SCSC ABC Teachers have been using Launchpad to assess, monitor, and guide their early literacy skills. See below for the current data FY 24-25.

## Novice Teacher Mentoring

Funding Source: **Department of Elementary and Secondary Education**  
 Competitive Grant: **No**

Camden Fairview	Junction City	Strong-Huttig
Emerson-Taylor-Bradley	Magnolia	
Hampton	Parkers Chapel	

### Personnel

Name	Position	Degree
Brigitte Haney	Mentoring Program Specialist	M. Ed.

### Program Summary

For the 2024-2025 school year, South Central Service Cooperative was awarded a one-year grant from the Division of Elementary and Secondary Education to provide a state-supported mentoring program for school districts in our region. This was our seventh

ABC PreK (Launchpad Data)	Component	Beginning of Year	Middle of Year	End of Year
	Instructional Vocabulary	<b>8.23</b>	<b>9.70</b>	<b>11.2</b>
	Phonemic/Phonological Awareness	<b>6.50</b>	<b>10.09</b>	<b>14.70</b>
	Concepts of Print	<b>3.23</b>	<b>3.83</b>	<b>4.50</b>
	Uppercase Letter ID	<b>9.30</b>	<b>14.95</b>	<b>19.25</b>
	Lowercase Letter ID	<b>8.25</b>	<b>12.16</b>	<b>17.16</b>
	Letter Sound Identification	<b>3.49</b>	<b>9.54</b>	<b>16.47</b>

year to be awarded the mentoring grant. The Mentoring Program Specialist, Brigitte Haney, was hired to coordinate the program per the state's guidelines and goals. She worked collaboratively with the office of Educator Effectiveness and Licensure, building principals, district points of contact, mentors, and novice teachers to provide a three-year program of support to meet the needs of teachers and their mentors across our districts.

Our program participant number in August 2024 was 192 student-facing teachers. Of those, 64 were beginning year one, 55 were beginning year two, and 73 were beginning year three. We ended the year with 71 year 1 novices, 54 year 2 novices, and 72 year 3 novices.

## Licensure

Our ultimate goal for licensure is to have 100% of novices holding an Arkansas teaching license by the end of their third and final year of the mentoring program. We help educators work towards this goal in many different ways.

The following data was obtained through an end of the year survey given to SCSC Novices:

- August 2023 found approximately 47% of SCSC novice teachers (Year 1, 2, and 3) fully certified. By April 2024, that number had increased to 62%.

Which best describes your licensure situation at the beginning of the 23-24 school year?

Which best describes your licensure situation now, at the end of the 23-24 school year?

- The percentage of teachers (Year 1, 2, and 3) who, at the beginning of the 23-24 school year had yet to begin a certification pathway was 12.2%. That number had decreased to only 1.4% in April 2024.

Which best describes your licensure situation at the beginning of the 23-24 school year?

Which best describes your licensure situation now, at the end of the 23-24 school year?

- At the end of the school year, 72% of Year 3 Novices completing the survey were fully certified. The remaining 28% had chosen a pathway and were actively working towards certification.

## Study Support Materials

One manner in which we provide support to teachers needing to earn their certification is to offer assistance with PRAXIS exams. SCSC's Mentoring Program was able to cover the subscription costs to [240tutoring.com](https://www.240tutoring.com). Additionally, study guide books and flash cards were also purchased for teachers to use while preparing for the exams.

Teachers were also offered financial assistance through the form of reimbursements. As in previous years, SCSC continued to offer a reimbursement of registration/exam fees once teachers received a passing score on their PRAXIS and/or Foundations of Reading test(s). This year we have reimbursed educators over \$4,900.

When novices were asked about the support services they utilized when studying for their exams:

- 62.2% of novices reported using 240 Tutoring
- 8.1% of novices chose to check out paper study books
- 4.1% utilized virtual study sessions offered by DESE

It should be noted that some novices utilized more than one form of support during their preparation process. Other novices who completed the survey marked that they didn't utilize any support services. Those selecting this category were a combination of novice teachers who studied independently and those who were already certified at the beginning of the 24-25 school year, thus requiring no additional assistance this year.

Which, if any, forms of assistance have you received to help pass your PRAXIS exam(s), including Foundations of Reading? Check all that apply.

## ArPEP

During 2024-2025 SCSC offered its novices the choice of ArPEP (Arkansas Professional Educator Pathway) as a certification route. This program allowed an alternative licensure pathway for those teachers who have obtained a Bachelor's degree in a field other than education to go ahead and begin their career as an educator while receiving job-embedded training over a two-year period. In addition to one-on-one PRAXIS coaching, candidates received training in both synchronous and asynchronous formats. Candidates also benefited from face-to-face coaching visits from the Mentoring Program Specialist as well as moderators from TNTTP.

Our first cohort group which began in September of 2023 consisted of three year 1 candidates (two of which finished the course) and one year 2 candidate who submitted her portfolio and earned a passing score. We saw a large increase in enrollment during our second year of ArPEP - thirteen year 1 candidates (twelve of which finished the course) and two year 2 candidates, both of whom submitted portfolios and earned passing scores. This has South Central with a 100% passing rate for our edTPA candidates! Our anticipated numbers for the 2025-2026 cohort are at an all time high of 27 candidates.

## Master/Lead Teacher Designation

In another effort to provide support to novice teachers, South Central is working to certify

veteran teachers with their Master or Lead Teacher designation. Teachers earning this micro-credential will then be able to serve as a mentor for new teachers, as a host teacher for student interns, or serve as a journeyman for apprentice teachers. This round of training was offered through NIET. The first cycle, which began in October, saw 21 teachers from 15 different campuses across 8 different districts take advantage of this opportunity. In August, 2024. SCSC will partner with TNTP to offer an additional round of certification training. As of April, the number of candidates for this cohort is anticipated to be 25.

## Program Effectiveness

Our goal for program effectiveness as written in our grant was to have 90% of novices and district points of contact rate the SCSC Mentoring Program at three or higher on a scale of one to five. The final novice rating was 98.6% at three or above, almost ten percentage points above our goal. Of the novices who responded to our end-of-year survey,

- 55.4% rated the program with at a 5, the highest level of satisfaction
- 25.7% rated the program with a 4
- 17.6% rated the program with a 3
- 1.4% rated the program with a 2
- 0% rated the program with a 1

When the district points of contact were asked to rate their district's level of satisfaction with the mentoring program, 100% rated it with four or five

- 50% rated the program with 5 out of 5
- 50% rated the program with 4 out of 5
- 0% rated the program 3 or below

## Retention

In the fourth quarter of the school year, we asked novices to share their plans for the upcoming 2024-25 school year. Novices were asked the likelihood of their returning to teaching in Arkansas on a scale of one to five with one being "definitely not" and five being "definitely returning". Of our novices reporting, 93% reported that their intentions were to

return for the 24-25 school year. The breakdown is as follows:

- 70.3% reported a 5, that they would definitely be returning
- 23% reported a 4, very likely that they would be returning
- 5.4% reported a 3, neutral as to whether or not they would be returning
- 1.4% reported a 2, unlikely that they would be returning
- 0% reported a 1, definitely not returning

How likely are you to return to the teaching profession for the 2024-2025 school year (whether in your current district or another district)?

Regular communication with novice teachers has helped us support our districts in retaining novices. Of the MPS's main forms of communication:

- 64.9% of novices reported emails to be their preferred means of communication
- 25.7% reported face-to-face visits was their preference
- 8.1% reported newsletters as their preferred means of communication

Because we understand that teacher retention is a group effort, everyone at South Central is encouraged to support our novice teachers. The support that our content specialists provide to novices during the school year has been very beneficial to the mentoring program. In addition to support provided by the MPS, the number of novices who reported communicating with our staff are as follows:

- Science Specialist, Renee' Bearden: 1<sup>st</sup> semester 17, 2<sup>nd</sup> semester 16
- Math Specialist, Tiffany Graven: 1<sup>st</sup> semester 4, 2<sup>nd</sup> semester 4

- Math Specialist, Heather Rain: 1<sup>st</sup> semester 5, 2<sup>nd</sup> semester 4
- Literacy Specialist, Autumn Dunn: 1<sup>st</sup> semester 16, 2<sup>nd</sup> semester N/A
- Literacy Specialist, Andrea Martin: 1<sup>st</sup> semester 8, 2<sup>nd</sup> semester 7
- Literacy Specialist, Jennifer Murphy: 1<sup>st</sup> semester 16, 2<sup>nd</sup> semester 17
- CTE Coordinator, Katie Robertson: 1<sup>st</sup> semester 7, 2<sup>nd</sup> semester 7
- Technology Specialist, JoAnn Womack: 1<sup>st</sup> semester 6, 2<sup>nd</sup> semester 3
- SPED/Behavior Support Specialist, Sonya Hartsfield: 1<sup>st</sup> semester 7, 2<sup>nd</sup> semester 7
- Print Shop Manager, Lauren Elmore: 1<sup>st</sup> semester 11, 2<sup>nd</sup> semester 13
- Teacher Center Coordination, Anna Warriner: 1<sup>st</sup> semester 13, 2<sup>nd</sup> semester 13
- Director, Karen McMahan: 1<sup>st</sup> semester 9, 2<sup>nd</sup> semester 7

---

### **Program Summary**

The Arkansas Behavior Support Specialists (BSS) affiliated with the Arkansas Department of Elementary and Secondary education (DESE) - Office of Special Education lead the state-wide initiative, the BX3 (Behavior eXtreme 3 - Training, Coaching, Empowering) Project. This BX3 project is designed to build capacity by providing coaching to building-level behavior teams that are working to develop tiered systems of positive behavior supports for all students. BX3 assists building level teams in developing and monitoring at least one SMART goal based on their assessment on the Tiered Fidelity Inventory (TFI). Additionally, the BX3 teams create and update an action plan focused on meeting their individualized SMART goal(s). The BSS offer 4- 6 coaching sessions for each BX3 team throughout the school year. Professional learning opportunities are offered as needed based on the SMART goal(s) and action plan.

### **MAJOR HIGHLIGHTS OF 2024-25:**

- Cohort 3 continued with 11 building-level teams across the state
- Cohort 4 continued with 34 building-level teams across the state
- Accepted Cohort 5 with 21 building-level teams across the state
- 99% of participants in Cohort 3, 4 and 5 agreed to strongly agreed that the coaching session on the topic covered was beneficial.
- 99% of participants in Cohort 3, 4 and 5 agreed to strongly agreed that the BX3 Coaches helped their team plan action steps toward meeting their SMART goal(s).
- 99% of participants in Cohort 3, 4 and 5 agreed to strongly agreed that the interactions with and methods used by BX3 coaches were positive and acceptable.
- 98% of participants in Cohort 3, 4 and 5 agreed to strongly agreed that they feel confident in carrying out the steps in their action plan.

## **CIRCUIT**

### **GOAL:**

- To provide technical assistance and support to local school district administrators and school personnel in the development and implementation of evidence-based behavior supports for students receiving special education services
- To provide professional development to local school district administrators and personnel on evidence-based behavior supports

### **PROGRAM SUMMARY:**

The Behavior Support Specialists (BSS) provide technical assistance in the area of behavior to all school districts within the state. The BSS receive requests for technical assistance through the CIRCUIT on-line referral system. Once a request for services is received, the BSS works in conjunction with the Special Education Supervisor of the referring school district to identify and provide needed support for students with disabilities. Services include:

- On-site coaching and consultation, student observation, record review and written recommendations with follow up and training as needed
- Coaching student teams on Functional Behavior Assessment (FBA) and Behavior Intervention Plan (BIP) development
- Provide professional learning opportunities on evidence-based interventions

### **MAJOR HIGHLIGHTS OF 2024-2025:**

- Provided on-site coaching and consultation, student observation, records review, assistance with functional behavior assessment, safety and behavior intervention planning for student teams for 155 CIRCUIT referrals across all Education Service Cooperatives

## **Professional Learning Opportunities**

### **GOAL:**

- To provide professional development to local school district administrators and personnel on evidence-based behavior supports

### **PROGRAM SUMMARY:**

The Behavior Support Specialist (BSS) position provides professional learning opportunities on evidence-based behavior practices via in-person, virtual, and online learning modules available to all school districts in all Education Service Cooperatives.

#### **MAJOR HIGHLIGHTS OF 2024-2025:**

- Offered 19 sessions of the 5 Essential Components of School-Wide Behavior Supports professional developments to building-level teams
- Added 10 Behavior Breaks which are short instructional videos to equip educators and parents with strategies that can be implemented quickly to improve student engagement and success. <https://arbss.org/behavior-breaks/>
- Offered over 140 professional learning opportunities in person or virtually to school districts in all Education Service Cooperatives with over 2655 participants

#### **ADDITIONAL BSS HIGHLIGHTS OF 2024-2025:**

- Planning for the first annual Arkansas School Behavior Conference
- Partnered with DESE to support THRIVE Leadership Academy Cohorts 5, 6, and 7 and THRIVE Leadership Academy at DeQueen-Mena ESC, Dawson ESC, Southeast ESC, and Arch Ford ESC to improve the implementation of positive behavior supports in school buildings. Provided 21 professional learning opportunities to THRIVE participants
- Served on the DESE Leadership Team for Arkansas THRIVE
- Served on the Arkansas Early Childhood Behavior Support Cadre'
- Served on the BehaviorHelp Kindergarten Transition Support Planning group
- Served on committee DESE staff and AETN to develop modules on Crisis Management and MTSS-B for AR IDEAS
- Facilitated BCBAs working in the school through ArPSBAN meetings (meet once a month either in person or virtual), connecting BCBAs across the state through a community of practice
- Newsletter is reaching nationally and internationally (8 countries)
- Several states are accessing our online modules including California, Colorado, Nevada and North Carolina
- Presented Multi-Tiered Behavior Support Resources at SEAS Conference
- Presented Mic Drop Sessions - Review of BSS Website at AAEA Conference
- Presented Increasing Student Behavior Supports at the Tier 2 Level: Student Intervention Matching (SIM) Form at the Transition Summit
- Presented Charting the Path to Tier 2 Behavior Interventions: Intro. to the Student Intervention Matching Form at LEA Academy

### **Program Summary**

The South Central Service Cooperative's ("SCSC") Career & Technical Education ("CTE") Department provides Perkins Consortium supporting resources to 11 public schools and allows for non-Perkins funded support to two public schools and two secondary career centers in our cooperative area. The main focus is to initiate and maintain high quality CTE programs in accordance with the Arkansas Department of Career and Technical Education's Strategic Plan, Goals, and Objectives. School districts in the SCSC Carl Perkins Consortium are allotted funds through the Carl D. Perkins Career & Technical Education Act, usually referred to as Perkins V. The amounts of these funds are determined by a state distribution formula. Once funds are assigned to a consortium, the funds lose their identity. The SCSC Perkins Consortium consists of nine school districts. The CTE office encourages the development, implementation, and improvement of CTE programs for "all" districts in the cooperative service delivery area by providing data collection and reporting, evaluation of CTE programs in schools, technical assistance in the form of professional development, new teacher assistance, policies and procedure interpretation, resource distribution, support services for special populations, and start-up grant support. The CTE coordinator provides support for programs of study, curriculum frameworks, career planning systems, state-approved industry-recognized certification process, and academic attainment of CTE students. The coordinator also is responsible for preparing and administering the Carl D. Perkins Consortium application which includes the preparation and submission of the application, budget management, implementation of Perkins activities, proposal accountability, technical equipment purchasing, distribution and inventory, and preparation and submission of Completer and placement reports for member schools. The CTE

coordinator also represents the education cooperative at local, state, and national events and activities.

Certification and Merit

**Be Pro Be Proud Draft Day:** A Workforce Initiative to introduce Juniors and seniors to workforce opportunities in our Area. The Golden Triangle hosted a Be Pro Be Proud Draft Day in El Dorado. Juniors attended an expo and seniors were given the opportunity to interview with prospective employers. SCSC had 9 consortia schools to attend (Emerson, El Dorado, Bearden, Camden Fairview, Parkers Chapel, Smackover, Hampton, Harmony Grove, Junction City) and 1 non Perkins consortia school (Strong). There were over 70 interviews conducted and over a hundred in attendance for the Expo portion. The outcome of the 2025 Draft Day by the Numbers: Events Hosted in the State: 9, Students Engaged: 5805, Organization Participation: 244, Schools Represented: 176, and out of 2255 students interviewed, 82% advanced to the next step.

**Girl Power:** South Central, in collaboration with local industries and organizations, as well as nine other Educational Cooperatives (Arch Ford, Arkansas River, Crowley's Ridge, Dawson, DeQueen Mena, Guy Fenter, Southwest, Southeast, and Wilbur D. Mills), proudly hosted the fourth annual *Girl Power* event. This initiative was created to promote female participation in non-traditional occupational fields. Female students in grades 9–12, attending public schools within the respective Cooperative Regions, were invited to compete. Participants engaged in hands-on competitions focused on CNC Cutting and CNC Lasering technology projects, utilizing advanced equipment in the areas of Welding and Power Structural Systems. The event aimed to develop and refine student skills in high-need, high-wage, and high-demand nontraditional occupations, while also encouraging creativity and innovation. Each cooperative hosted a local qualifying event, with top performers in categories such as CNC Cutting, CNC Lasering, CNC Wood, and Multitool advancing to the state competition. The state-level competition was held at the Saline County Career and Technical Center in Benton, Arkansas. Student projects were evaluated based on creativity, design, technical proficiency, and interview performance. To support this initiative, the Arkansas Division of Career and Technical Education awarded \$520,000 in Innovation Grant funding to fiscal agent DeQueen Mena. These funds enabled the 10 participating Educational Cooperatives \$50,000 to budget for equipment to districts according to need and to organize regional events while enhancing their respective Career and Technical Education (CTE) programs. Additional contributions from regional industry partners further supported student prizes and essential supplies. The innovation funds were utilized to procure CNC plasma cutting systems, CNC laser engraving technology, and other materials essential for advancing public school CTE programs. A key takeaway from these events, as noted by coordinators, is the strengthened connection between educational institutions and industry. Collaborations with regional businesses and cooperation among Educational Cooperatives statewide have significantly expanded the scope and impact of the competition with more than 600 girls able to participate while fostering valuable real-world experiences for students and helping to bridge the skills gap in the workforce.

**Be A Model:** Collaborated with SAU Magnolia to host a Non Traditional Event for 10-12 grade students to expose them to career opportunities not in their field of study. Young men were

exposed to medical services and education and young ladies were exposed to construction, automotive, welding, plumbing, and electrical. This was a non traditional grant secured from the Department of Career And Technical Education and shared with my regional partnering cooperatives of Southwest Educational Cooperative and DeQueen Mena. SWAEC and DMESC each hosted their own respective events at their area educational partners of UAHT Hope, UAHT Texarkana, UA Cossatot, UA RichMountain. The outreach of participation was great with an average attendance of over 300 students.

#### Other Mentions:

- **ACTE :** As current ACTE President, attended the National ACTE Conference and Regional Conference, as well as helped manage and host the summer ACTE Conference. Attended ACTE National Policy to help advocate for CTE.
- **ACT 242:** Was selected and attended multiple face to face meetings on the ACT 242 to study standard alignment between current CTE offerings and determine if those courses could allow core academic credit.
- **Lithium Learns:** Attended a Lithium Learns meeting at SAU and was selected to be a member of a committee. Lithium Learns is progressing to help pilot a program eligible to high school students to receive education and earn a Certificate of Proficiency as well as TC to area career centers through SAU. Also had the opportunity to tour the Standard Lithium facility along with SADA, SAU, Superintendents and other administration.
- **SADA:** Member of the SADA (South Arkansas Development Alliance). Attend monthly meetings as well as collaborate to help host an annual event for area schools to participate in an 8th grade career exploration event, "Explore Success."
- **SWAWDB Youth Committee:** Member of the SWAWDB Youth Committee. These meeting help connect stakeholders with identified youth to benefits, grants, and education initiatives.
- **Judge CTSO-** Helped to judge FFA Subarea, hosted area schools at the Cooperative to proctor knowledge exams, judge FCCLA State, FBLA State, and State TSA.
- **Professional Development:** Hosted and facilitated professional development in Survey of Business, Boss Laser Specialized training, CPR, STEM training, and CTE Updates.

**MISSION:** Our mission is to equip, engage, and empower Arkansas schools, students, and teachers by providing equitable access to superior online education.

**VISION:** Leveraging local, national, and global partnerships to advance student and educator success through innovative technologies and services.

**CORE VALUES:** Teamwork, Relationships, Integrity, Quality, Innovation

## GOALS:

Virtual Arkansas exists to provide affordable and equitable educational access and opportunities for Arkansas students, teachers, and schools. According to *Act 2325 of 2005*, distance learning opportunities were employed:

- To help alleviate the teacher shortage
- To provide additional course-scheduling opportunities for students
- To provide an opportunity to access an enriched curriculum
- To develop and make available online professional development

Virtual Arkansas has specific goals that drive its operations. These goals are outlined in the chart below, along with the most recent results:

Goals	2024-2025 Results
Help Address the Arkansas Teacher Shortage	<ul style="list-style-type: none"><li>- VA made courses available in all critical academic licensure shortage areas</li><li>- VA provided access to 101 full-time Arkansas-certified teachers for local schools</li></ul>
Provide a Wide Range of Courses for Arkansas Students	<ul style="list-style-type: none"><li>- VA provided access to 220 total courses; 160 courses with a VA teacher</li><li>- These courses provided opportunities to 29,121 Content + Teacher enrollments and 6,482 Content Partnership enrollments</li></ul>
Ensure Educational Options for Economically Disadvantaged Students	<ul style="list-style-type: none"><li>- VA courses were made available to all high-poverty districts and were utilized by 88% of all Arkansas school districts with a 70% or higher FRL population</li><li>- VA offered preferred automatic concurrent credit registration for high-poverty districts. 100% of high-poverty schools that submitted the necessary paperwork for enrollment during the early registration period were granted seats in the classes for which they registered</li></ul>
Ensure Educational Options for Rural Students	<ul style="list-style-type: none"><li>- 60% of all Virtual Arkansas Content + Teacher Enrollments were from districts designated as rural</li><li>- VA provided educational options and opportunities to all rural districts and was utilized by 97% of all districts designated as rural</li><li>- 80% of all Concurrent Credit enrollments were from districts designated as rural</li></ul>
Provide Educational Options for Students with Scheduling	<ul style="list-style-type: none"><li>- All VA courses can be taken at any time during the day, which provides flexibility in scheduling local course options to avoid scheduling conflicts</li></ul>

Conflicts	- This is particularly important for smaller districts, as they have many courses only available during certain periods of the day
Maintain Positive Customer Support Ratings	- Virtual Arkansas had a 100% positive rating in customer support/service measures on the 2024-2025 perception survey to administrators and counselors.

### **PROGRAM SUMMARY:**

Virtual Arkansas is a supplemental State Virtual School (SVS) that partners with local Arkansas schools, the Arkansas Department of Education, and the local Education Service Cooperatives to provide 7th-12th grade online courses, resources, and services to Arkansas schools, teachers, and students who might not otherwise have access to these resources and opportunities. This initiative is guided by Act 2325 of 2005: An Act to Provide Distance Learning.

[www.virtualarkansas.org](http://www.virtualarkansas.org)

We are not an online high school or a diploma-granting institution, but a resource for supplementing education for students through their local school.

Virtual Arkansas is comprised of five campuses:

- Core Campus High School: Arch Ford Educational Service Cooperative
- Core Campus Middle School: Arch Ford Educational Service Cooperative
- CTE Campus: Dawson Educational Service Cooperative
- Concurrent Credit Campus: Southeast Educational Service Cooperative
- DYS Campus: Arch Ford Educational Service Cooperative

### **Major Highlights of the 2024-2025 School Year - Virtual Arkansas**

- Provided parent orientation webinars and informational webinars throughout the school year.
- Recognized as a national leader, including the second highest number of Quality Matters externally reviewed and quality assurance certified courses in the nation.
- Partnered with the Department of Youth Services (DYS) to provide high-quality online courses and opportunities to adjudicated youth.
- After designing, developing, and launching the pre-educator Arkansas Teacher Residency Certified Teaching Assistant Concurrent Credit pathway and partnership to provide concurrent credit pre-educator options to students throughout the state, saw a 65% growth in student enrollments within the concurrent credit program.

- Spearheaded and implemented the state effort to include a new Arkansas Military Service and Security Pathway for students interested in a military future.
- Implemented a large-scale assessment improvement initiative that aligned course curriculum and assessments with the ATLAS assessment.
- Executive Director continues to serve the role of President for the Virtual Learning Leadership Alliance (VLLA), a partnership of 20 state virtual programs dedicated to advancing quality online learning.
- Multiple Virtual Arkansas directors serve as national online learning workgroup chairs, demonstrating our commitment innovation and online learning leadership at the national level.
- Partnered with Arkansas Tech University to offer summer college courses
- Designed, developed, or enhanced 44 courses
- Designed and implemented 10 new Credit Recovery courses

#### **Virtual Arkansas Data (Based on 2024-2025 School Year)**

- Have saved Arkansas school districts over \$72,500,000 in enrollment fees over the last eleven years
- Have served over 311,000 enrollments over the last 11 years
- Virtual Arkansas Students had an 92% Pass Rate
- 12,726 Unique Arkansas Students Engaged in 29,121 Content + Teacher Enrollments
- 26,730 Credits Earned
- 78% of Virtual Arkansas teachers have a Master's degree or above
- 165 Content+Teacher courses available to students throughout Arkansas
- Concurrent Credit students Earned 9,284 College Concurrent Credit Hours
- 80% of Concurrent Credit enrollments from rural districts
- Career and Technical Education: 5,884 enrollments over two semesters
- 1,952 Computer Science enrollments
- 2,007 Advanced Placement Enrollments
- 97% of all Arkansas Rural Districts Served by Virtual Arkansas
- 60% of all Virtual Arkansas Content + Teacher Enrollments From Districts Classified as Rural
- 94% of all Arkansas public school districts served

Cathy Flowers	ECH SPED Speech Language Pathology Assistant	BS
Taylor McLelland	Medicaid Clerk through March 2025	BS
Lauren Elmore	Medicaid Clerk beginning March 2025	AA

### Goal

It is the goal of the SCSC Early Childhood Special Education (EC SPED) Program to address the needs of children with disabilities through speech therapy, occupational therapy, physical therapy, and teacher-facilitated, direct instruction for the purpose of assisting students by addressing developmental delays and preparing them for kindergarten.

### Program Summary

The SCSC Early Childhood SPED Program serves children with disabilities ages three through five. The program includes the following delivery options: preschool classroom, daycare, itinerant, and homebound. The EC SPED program works to ensure that students are placed in the least restrictive environment and collaboration is ongoing with general

education staff and families. Students receive educational and related services designed to meet their unique needs. Services provided include: screening, diagnostic services, specialized instruction, behavior support, speech-language therapy, physical therapy, and occupational therapy. The number of students served was 243 based on child count, December 1, 2024.

## Major Highlights of the Year

The EC SPED staff has participated in many Child Find activities including developmental, speech, vision, and hearing screenings for area preschools and the distribution of program information in communities. The staff has performed or contracted developmental, speech, occupational therapy, and physical therapy assessments to determine eligibility for special education for three to five-year-old students in the Co-op service area. The 243 students found to be eligible were provided individualized special education services in accordance with IDEA guidelines. The SCSC's ECH SPED department has collaborated with regional and state early childhood programs to provide quality professional development for early childhood professionals. Trainings were offered in the areas IEP basics, inclusive practices and functional goals. Several staff attended STAR Autism Training and two teachers have recently completed PECS, Picture Exchange Communication System. The special education staff attended the ASEP Conference in Conway. This conference covered information presented by Cari Ebert, pediatric speech language pathologist. Mrs. Ebert specializes in working with and expanding communication of children with Autism.

Our early childhood special education teacher continued participation in cohort 1 of the Early Childhood Pyramid Model Project. This program from National Center for Pyramid Model Innovations, NCPMI, focuses on promoting social-emotional competence in infants and young children. She has partnered with Smackover-Norphlet Preschool for the 24-25 school year. This partnership allows for classroom observation and coaching of behavior methods by Pyramid participants for the preschool staff. South Central Service Cooperative employs two ABC teachers who received their special education certification in 2024 through the Early Childhood Pre-K Special Education Teacher Academy and provided inclusive special education services for qualifying students for the 24-25 school year.

Information released from the special education department of Data and Research showed the following data for the 2023-2024 school year. A total of 208 new referrals were processed throughout the year with 128 of the referred students qualifying and placed in early childhood special education. Of the 153 students exiting the program, 27 were reevaluated and found to be functioning at age level in all developmental areas; therefore, dismissed from special education. One hundred eleven were kindergarten eligible and transitioned to the K-12 program. The remainder of student exits were due to students moving out of district. Data compiled on the 2023-2024 Annual Performance Report for early childhood exit outcomes indicated improvement for all students in the three outcome areas of social, knowledge and skills, and appropriate behaviors. South Central students met the state target in four of the six areas. These percentages are listed below.

	STATE TARGET	LEA RATE
Social Emotional-percentage	90.60%	92.11%

showing substantial growth		
Social Emotional-Percentage functioning within age limits	67.76%	65.89%
Knowledge and Skills-percentage showing substantial growth	91.42%	95.65%
Knowledge and Skills-Percentage functioning within age limits	58.17%	48.84%
Appropriate Behaviors-percentage showing substantial growth	91.17%	92.54%
Appropriate Behaviors-Percentage functioning within age limits	75.46%	82.95%

**Personnel**

<b>Name</b>	<b>Position</b>	<b>Degree</b>
*Deborah Curry (Deborah left this position in March 2025)	K-12 Dyslexia Specialist	M.Ed. C.A.L.T.

**Goal:**

The goal of the dyslexia program is to provide guidance to SCSC school districts in accordance with the Arkansas Dyslexia Resource Guide (2017) and Arkansas law (Ark. Code Ann. § 6-41-602).

**Program Summary:**

The SCSC Regional Dyslexia group consists of district leaders, facilitators, and interventionists involved in the selection and implementation of approved dyslexia intervention programs and identification of students with characteristics of dyslexia. The purpose of group meetings is to promote networking among districts and provide an opportunity for conversation around topics of interest. Office hours for 2024-2025 were hosted via zoom. The focus of office hours included specific topics, questions, or an opportunity for individual support for schools and teachers.

**Act 1082 Support:**

The SCSC Dyslexia Specialist supported districts that were classified as need support under Act 1082. The specialist attended virtual meetings to assist in all conversations surrounding Dyslexia and Characteristics of Dyslexia. The SCSC Dyslexia Specialist attended meetings for those schools specifically classified as Levels 3-5.

Act 1082 is designed to provide specific levels of support to public school districts based on reading scores.

The goals of this support include helping schools deploy more powerful strategies, use resources more productively, and analyze the curriculum that is used. To that end, both Level 3 and Level 4 schools meet periodically with the Public School Program Advisor from the DESE and the co-op team either virtually or in-person. Level 3 schools are required to meet once every nine weeks and Level 4 schools meet monthly. During these meetings a spreadsheet is reviewed that includes the topics: Literacy Curriculum, Assessments, Science of Reading, Dyslexia, and Writing Revolution. This spreadsheet is a living document that all stakeholders can update as actions are taken in support of any of the given areas.

**Major Highlights of the Year:**

- Scheduled and offered two Dyslexia Level II assessment training for 2024-2025 with Stacy Mahurin.
- Hosted informational meetings with area Dyslexia Contacts and Lead Teachers.
- Worked with schools on identifying needs based on updated law and supporting based on technical assistance plans.
- Consistent weekly office hours were held which included specific topics for discussions, collaboration opportunities, and a platform for questions.
- Assisted districts with Level II Dyslexia Screenings.

- Assisted districts with establishing effective RTI programs and schedules to best support the needs of students with Dyslexia.
- The SCSC Dyslexia Specialist Provided over 80 hours of on site support to SCSC Area Districts.
- Attended statewide Dyslexia meetings.

- **Individual District Support:**

Count of School District

## **Personnel**

<b>Name</b>	<b>Position</b>	<b>Degree</b>
Heather Rain	K-12 Mathematics Specialist	Master of Education in Building Administration

## **Goal**

The South Central Service Cooperative Mathematics Instructional Specialist Program is committed to advancing high-quality, coherent mathematics instruction across all participating educational institutions. The program focuses on building educator capacity through targeted coaching cycles, aligning curriculum and assessments with state standards, promoting equitable access to rigorous math learning, and fostering data-driven instructional improvement.

Through coordinated, system-wide efforts, the ESC Mathematics Specialist provides strategic leadership, professional development, and instructional support to educators and administrators. By leveraging data, research-based practices, and cross-district collaboration, the program drives measurable improvements in instructional quality and student math outcomes.

## **Program Summary**

The South Central Service Cooperative Mathematics Instructional Specialist Program aims to support the effective implementation of High-Quality Instructional Materials (HQIM) across the region. Through a structured process of data collection, curriculum analysis, and collaboration with Curriculum-Based Professional Learning (CBPL) vendors, the program identifies districts in need of support and facilitates targeted assistance to ensure successful HQIM adoption.

The ESC Mathematics Specialist provides ongoing coaching, professional development, and leadership to educators in schools launching or implementing HQIM. This includes the use of the Math Leadership Walkthrough Tool for data collection, targeted training, and calibration in partnership with DESE. The program also contributes to the success of the statewide DESE ELEVATE Math Initiative by providing targeted professional development, including the Elevate Math Fluency Kick-Off Session for regional math educators. In addition, the ESC Mathematics Specialist ensures alignment with state priorities through consistent communication, participation in DESE Math Unit Meetings, and coordination of local efforts with statewide goals. These initiatives help ensure that educators are equipped with the tools, training, and support necessary to enhance instructional quality and improve student achievement in mathematics.

## **Key Accomplishments (2024-2025)**

## **1. Professional Learning and Support**

- Over 15 days of professional development were delivered to more than 100 educators across the South Central Service Cooperative region. (See Figure 1)
- Throughout the 2024-25 school year, the program provided targeted professional learning opportunities for teachers, instructional coaches, and administrators, with a strong emphasis on improving instructional practices and student achievement.
- Ongoing, through-year support was offered via cognitive coaching and structured coaching cycles, ensuring sustained development and application of effective teaching strategies.
- Launched Math Curriculum Bootcamp during a 3-day training during the summer with continued job embedded support throughout the school year. The focus was on standards-based math instruction and assessment with HQIM. (See Figures 2 & 3)

## **2. Instructional Leadership**

- Provided the professional development Targeting Foundational Math Skills: Key Levers for Instructional Leaders to building leaders in the SCSC region. (See figures 4 & 5)
- Assisted administrators with implementation of the Math Learning Walk Tools and using the data to highlight insights into the progress teachers make with students and help to identify opportunities to coach and improve instruction. (See figure 6)
- Delivered the Building Pathways to HQIM professional development to district and school leaders, supporting schools throughout the adoption and implementation process in districts identified as needing to adopt High-Quality Instructional Materials (HQIM). (See figure 7)

## **3. Curriculum and Assessment Alignment**

- Facilitated the creation of grade-level pacing guides and common assessments with level 3 or 4 questions (according to the ALDs) aligned with state standards, incorporating the use of the ATLAS Classroom Tool to support instructional planning and consistency. (See Figure 8 & Figure 9)
- Facilitated with aligning curriculum with state standards. (See Figure 10)
- Developed data protocols to monitor student progress and inform instruction. (See Figure 11)
- Supported teachers with the HQIM implementation process.

## **4. Data-Driven Improvement**

- Conducted instructional walkthrough and data reviews, identifying targeted areas for support. (See figure 6)
- Provided customized coaching cycles focused on improving curriculum/standards alignment, improving conceptual understanding and student engagement in math.

## **5. Community Support**

- Participated in the Girls Learning About Math and Science Conference (GLAMS). This program introduces female students in the region to professional women working in math, science, and technology-related fields and to provide students with real-life examples of achievement in such

careers. The conference included more than 28 session speakers ranging from Helicopter Flight Nurse to Large Animal Veterinarian to Consumer Packaged Goods.

- Participated in the Be Pro Be Proud initiative for students in the SCSC region. This program is designed to introduce high school juniors and seniors to local workforce opportunities. It included an expo and provided seniors with the chance to interview for jobs and potentially enter the workforce immediately.

## **Artifacts**

### **Figure 1**

<b>Professional Development Opportunities Offered Summer 2024</b>	
<b>Number Assessments and Interventions</b>	Are you looking for ideas, resources, and tools to help your struggling students be more successful in math that are also free or low-cost? Are you searching for effective math intervention strategies and tools to help close the achievement gap? In this session, we will explore several free, open-resource tools as well as some low cost options available to schools to address student foundational numeracy gaps. Participants will get some hands-on experience utilizing various assessments and tools and walk away with materials ready to use in their school. This session is designed for classroom teachers, interventionists, special education teachers, math specialists, instructional coaches, and administrators serving Kindergarten-12th grade students.
<b>Elevate Math Fluency K-12</b>	Embark on a six-hour professional learning journey to uncover the importance of math fluency and dispel common fluency fallacies. Participants will gain insight into related truths and acquire practical strategies, tasks, games, and routines for improving math fluency skills in their classrooms while learning how to support Arkansas fluency standards. Secure your spot to unlock the keys to good beginnings for fluency!
<b>Early Number Sense Screener &amp; Interventions</b>	Number sense is a key indicator of future math success. Let's explore a quick and reliable way to screen early numerical competencies in Grades K-2 and identify students at risk for later math struggles. The NSS screens children on six key competencies related to number sense: counting skills, number recognition, number comparisons, nonverbal calculations, story problems, and number combinations. The NSS can help educators gain the information they need such as: catch at-risk students early, predict later achievement, start planning effective interventions, monitor progress, and meet national and state standards.
<b>Math Curriculum Bootcamp (3 days)</b>	Sharpen your instructional strategies and elevate your math teaching game with our intensive Math Curriculum Bootcamp. This professional development opportunity is designed for educators seeking to deepen their understanding of standards-based math instruction, enhance curriculum alignment, and implement best practices for student engagement, achievement, and growth. Whether you're new to math instruction or looking to refresh your approach, this hands-on bootcamp will provide the tools, resources, and support you need to build a strong foundation for the upcoming school year.
<b>Math Standards Analysis, Essentials, &amp; Assessment</b>	AR Math Standards: What are the changes? What essential learning do my students need to have when they come to my class? What essential learning do my students need to have when they leave my classroom? We will also explore writing proficiency scales for essentials and creating high quality assessments using the ATLAS Classroom Tool.
<b>Building Powerful Numeracy for Middle</b>	As secondary teachers, we are often frustrated by the lack of number sense in our students. Students seem to either reach for a calculator or

<p><b>School and High School</b></p>	<p>just shrug and say, ‘I don’t know,’ when asked simple arithmetic questions,” (Pamela Weber Harris, Building Powerful Numeracy Middle and High School Students). What exactly is number sense and how do we develop it in our secondary students? During this session we will analyze progressions of number sense to help us define this seemingly difficult goal. We will also consider what experiences and routines students need in order to develop number sense. These routines will help provide teachers with ways to foster student participation while building math language, content, and fluency. Using these practices and routines creates an environment for ALL students to learn mathematics at the secondary level.</p>

Continue workshops like this one

I appreciate the opportunity to reflect and plan work for teachers and students.

This was a great training to attend and helped me better understand the standards I will be teaching as well as help me prepare my first 15 days of lessons.

This was exactly what I needed! I feel more competent after attending this training! Anna and Heather were incredible!! Thank you for all you do!

To the extent that everyone was using differing hqc and alot of singleton this workshop greatly met me where I have been having the most difficulty. Highly highly recommend regardless of curriculum being used!

Total Number of Participants Attended: 18

Figure 3

\*This data comes from an SCSC elementary school where teachers, administrators, and instructional facilitators all took part in the Curriculum Bootcamp.

Math Success

3rd grade: 85% of students grew by 1,840 total points

4th Grade 80% of students grew by 1,560 total points

5th grade 69% of students grew by 870 total points

Figure 4

\*Information provided is from the Math Grant Report #2 that was due on January 31, 2025 to DESE

### Math Goal 3: Arkansas Initiative for Instructional Materials: Systems Design & Leader Support

The ESC Specialist will support the implementation of High-Quality Instructional Materials (HQIM) by offering training and utilizing the Math Leadership Walkthrough and collecting data using the Walkthrough Tool. This includes providing training to districts, breaking down the walkthrough tool for teachers, and ensuring consistency through calibration efforts by DESE and ESC team members. These steps help ensure the effective use of HQIM, improving teaching practices and student learning outcomes.

Measure	Target	Notes
The ESC Math Specialist will provide training on the Math Leadership Walkthrough Tool to building and district level leaders.	<p>20% of administrators will receive training on the Math Leadership Walkthrough Tool by January.</p> <p>40% of administrators will receive training on the Math Leadership Walkthrough Tool by June.</p>	<p>DESE will provide the following:</p> <ul style="list-style-type: none"> <li>• Math Leadership Walkthrough Tool Slide Deck</li> <li>• Training/Support Survey</li> </ul>

**Data:** Complete table

Administrators include building level & district level:

- Principals & Assistant Principals
- Superintendents, Assistant Superintendents, & Curriculum Directors
- Not Instructional Facilitators

1. Number of Schools in region:	36
2. Number of Schools with an Administrator receiving training on the Math Leadership Walkthrough Tool to date:	20
3. Percentage of Administrators receiving training to date (#2/#1):	55.5%

**Summary:** Provide training details and participant feedback summary based on Likert scale from the training/support survey.

I contacted every administrator in my region via email to introduce the Math Leadership Walkthrough Tool and its training. In my message, I outlined its purpose and requested a meeting to discuss it further. As administrators responded, we scheduled in-person training sessions.

During the training, we explored the Math Leadership Walkthrough Tool and reviewed DESE-provided videos. We also examined the key “Look Fors” across different grade bands. For instance, principals overseeing K-6 schools received training on the K-2, 3-5, and 6-8 Walkthrough Tools.

After completing the training, participants completed a DESE survey to evaluate the session's effectiveness, and the results were positive. Administrators left with a clearer understanding of what defines an effective math classroom. Many expressed interest in scheduling walkthroughs to apply their learning, analyze collected data, and identify targeted professional development opportunities

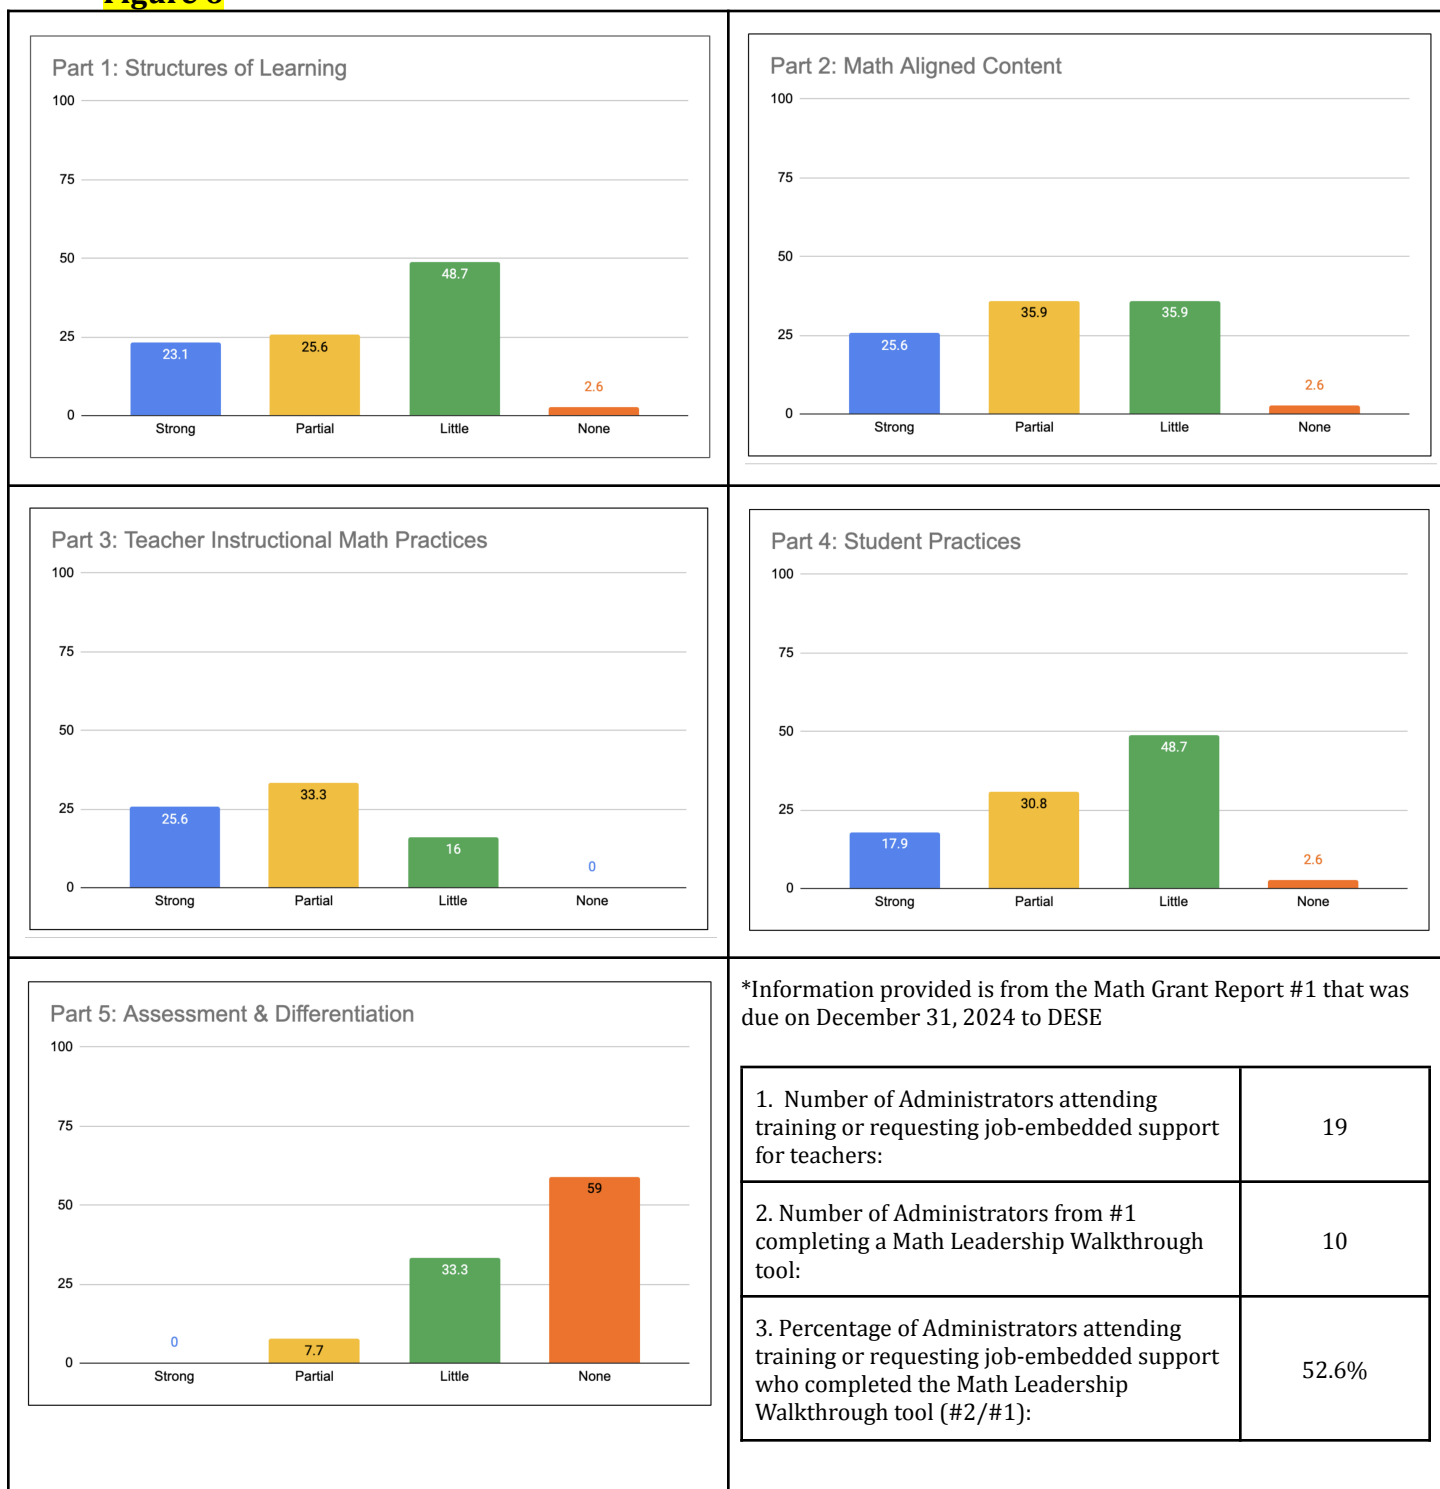

for their teachers.

\*Information provided is from the Math Grant Report #2 that was due on January 31, 2025 to DESE

## Math Goal 1: Arkansas Initiative for Instructional Materials: Adoption Phase

The process outlined supports High-Quality Instructional Materials (HQIM) by collecting, analyzing, and updating curriculum selections and recognizing the curriculum-based professional learning vendors (CBPL) to update the regional data. This data helps identify districts/schools lacking HQIM selections, allowing for targeted support. Follow-up assistance is then provided to these districts to facilitate the adoption process. Overall, this approach ensures educators have access to quality materials and support, streamlining the adoption of HQIM and recognizing the CBPL vendors across the region.

Measure	Target	Notes
The ESC Math Specialist will promote the adoption of the HQIM Curriculum with through-year support for district/ school leaders.	80% of identified districts that have not identified an HQIM for K-8, Algebra I, and Geometry will receive professional learning about Building Pathways to HQIM through face-to-face or virtual settings. The participants will share feedback based on the Likert scale.	DESE will provide the following: <ul style="list-style-type: none"> <li>Building Pathways to HQIM Slide Deck</li> <li>Training/Support Survey</li> </ul>

**Data:** Complete table

1. Number of districts identified without HQIM:	2
2. Number of districts identified without HQIM receiving Building Pathways to HQIM training to date:	2
3. Percentage of identified districts receiving training to date (#2/#1):	100

**Summary:** Provide training details and participant feedback summary based on Likert scale from the training/support survey.

After gathering HQIM data for each school in my region, I reached out to the administrators of schools without HQIM via email to introduce the Building Pathways to HQIM training. In my message, I explained the purpose of the training and requested a meeting to discuss it in more detail. As administrators responded, we scheduled in-person training sessions.

Each session prompted additional meetings to explore the adoption of HQIM further. Furthermore, the survey results were all positive, with participants emphasizing the value of the resources provided, the descriptions and modeling of the material, and the clear communication of the resources.

Measure	Target	Notes
The ESC Math Specialist will follow up with ongoing technical support for district/school leaders'	100% of identified districts will receive technical assistance for the adoption of HQIM. A report outlining the ongoing technical	DESE will provide the following: <ul style="list-style-type: none"> <li>report template.</li> </ul> HQIM Technical Assistance

adoption of the HQIM Curriculum.	assistance offered to the district is submitted to DESE.	includes connecting schools with vendors, connecting schools with other schools, setting up a vendor fair, facilitating strategic planning, etc.
----------------------------------	--	--

**Data:** Complete table

1. Number of districts identified without HQIM:	<b>2</b>
2. Number of districts identified without HQIM receiving technical assistance to date:	<b>2</b>
3. Percentage of identified districts receiving technical assistance to date (#2/#1):	<b>100</b>

**Summary:** Describe the technical assistance provided.

To support the districts in adoption and implementation of HQIM, I followed up with the administrators and teachers on multiple occasions.

Technical assistance provided to each school included:

- Reviewing Arkansas Ed Reports
- Connecting and facilitating communication between schools that already successfully implemented a particular HQIM with the school looking to adopt.
- Provided samples of HQIM for schools to review.
- Connected schools with sales representatives for HQIM

## Math Goal 2: Arkansas Initiative for Instructional Materials: Launch and On-Going High Quality Professional Learning

The Math goals support HQIM implementation through coaching and professional development. Schools launching or implementing HQIM will receive targeted support, which includes coaching. The targeted support and reflection of coaching help identify areas for improvement for educators and students.

Measure	Target	Notes
The ESC Math Specialist will conduct coaching and job-embedded support based on the school's needs for the launch or implementation of HQIM.	The ESC Math Specialist will provide coaching for classroom educators and/or grade-level teams based on the district requests.	Fall: August - December 31, 2024 First, priority is given to D/F schools. Second, schools where 60% of their students need support on state assessments.
The ESC Math Specialist will reflect on coaching used to support the launch or implementation of HQIM.	The ESC Math Specialist will submit a reflective coaching summary report with student evidence.	DESE will provide the template for the coaching summary report and evidence.

**Data:** Include the name of school(s) coached in the launch or implementation of HQIM, the data used to determine priority, and the number of teachers supported in each building. Add additional lines if needed.

Name of School District & Name of School Building	Priority Data (report actual data) <ul style="list-style-type: none"> <li>D or F school</li> <li>60% of students need support on state assessments</li> </ul>	Number of Teachers Supported
Smackover-Norphlet School District; Norphlet Middle School	D or F School	4
Parkers Chapel High School	60% of students need support on state assessments	1

**Summary:** For each classroom educator or team of educators provide a summary including:

- The coachee's identified need(s).
- Your observed need(s).
- Goal that was set with the coachee based on their identified need(s) and your observation.
- Description of the action plan developed to meet the goal. Include any evidence-based resources provided.
- Reflect on the progress made by the coachee towards the goal.
- Upload and link student evidence collected which supports growth towards meeting the goal.  
Use the Coop FY25 google folder shared with you by your DESE regional team leader.

Do not provide educator names, just school name. Add additional educator/team lines as needed.

### Summary Report

**Norphlet Middle school**

**Teacher 1, Teacher 2, Teacher 3, and Instructional Facilitator**

## Teacher Folder Links with included evidence/samples

Teacher 1 Folder

Teacher 2 Folder

Teacher 3 Folder

Instructional Facilitator

### **Identified/Observed Needs**

In early September, the instructional facilitator at Norphlet Middle School reached out to me about the math teachers facing challenges with the newly adopted Illustrative Math curriculum. I began meeting with the teachers nearly every morning during their prep periods, offering a blend of group and individualized coaching tailored to each teacher's specific needs.

All of the teachers expressed a need for support with implementing the curriculum, citing that it was too challenging to teach and too difficult for students to grasp. After meeting with the teachers, reviewing their lesson plans, and observing their classrooms, I identified their immediate needs in lesson planning, preparation, and aligning the curriculum with the 2023 Arkansas Math Standards.

When I asked each teacher for their lesson plans, they literally gave me a blank look and directed me to the teacher pages for each lesson in the curriculum. None of the teachers were actually planning or preparing to teach a lesson. They initially felt this was already done for them through the curriculum.

When I asked the teachers which standards they were using, a veteran teacher mentioned they were working on an "EE" standard. I immediately pointed out that this couldn't be correct, as our standards do not include "EE." It became clear that the teachers were not following the new Arkansas standards. In fact, they weren't even referencing the standards while teaching. Instead, they assumed the curriculum would naturally cover all required standards, so they saw no need to review them.

### **Goal #1 for Norphlet Middle School Teachers & Instructional Facilitator**

**Specific:** Ensure all teachers intentionally align their lesson plans with the Arkansas state standards by incorporating them into daily instruction.

**Measurable:** By the end of the semester, 100% of teachers will explicitly reference state standards in their lesson plans, with at least 90% alignment verified through lesson plan reviews and classroom observations.

**Achievable:** Provide coaching sessions and resources on effectively integrating standards into lesson planning, along with ongoing support from instructional coaches.

**Relevant:** Aligning lesson plans with state standards ensures students receive instruction that meets academic expectations and prepares them for assessments.

**Time-Bound:** Achieve full alignment within one semester, with weekly check-ins to assess progress and provide necessary support.

### **Action Plan**

- Our initial priority was ensuring that instruction was driven by the standards. We started by reviewing Unit 2 of the Illustrative Math curriculum, broadly cross-referencing the standards for the entire unit.

This process allowed us to refine our focus, ensuring that as we moved into daily lesson planning, we targeted the most essential standards.

- For our next task, we conducted a standards analysis for the upcoming unit. To do this, we utilized the 2023 Arkansas Math Standards and resource guide, the Math AR PLDs by Standard, the Illustrative Math Curriculum, the ATLAS Math Blueprints, and the Classroom Tool. Using these resources, we identified the standards covered in Unit 2 and broke them down into specific learning targets as needed. Additionally, we incorporated key information and vocabulary from the standards resource guide and PLDs to further analyze each standard in depth. In the next step of this process, we used the ATLAS Classroom Tool, and the IM curriculum to develop example assessment questions.
- To ensure that teachers were effectively planning and preparing lessons aligned with state standards, we began focusing on daily lesson planning. As a group, we collaborated on this process, starting with Unit 2. Initially, I worked alongside the teachers to plan each lesson. Our first step was to review and solve every problem or example in the lesson. Afterward, we identified and narrowed down the Arkansas standards that aligned with the specific lesson.

Next, we examined the learning goals and student “I can” statements, determining whether they accurately reflected the lesson’s objectives. We then highlighted key information and essential questions from the teacher pages and adjusted the pacing to ensure the lesson could be completed within the allotted class time. Finally, we reviewed instructional routines, ensured a clear understanding of the teaching strategies, and selected the most effective classroom activities for student engagement.

Since the teachers only provided me with copies of the teacher pages, I did not include a copy in their folders. After completing the planning process together, Teacher 1 and Teacher 3 shared examples of their lesson plans with me. However, Teacher 2 was hesitant to provide a copy, so her lesson plan is not included in her folder.

- Once the teachers became comfortable with their daily lesson planning, we collaborated on a lesson internalization plan for an upcoming lesson that all three teachers would be teaching.

## **Goal #2 for Norphlet Middle School Teachers & Instructional Facilitator**

**Specific:** Implement a data collection system that enables teachers to track student progress and use the data to inform instructional decisions.

**Measurable:** By the end of the semester, 100% of teachers will regularly input student performance data into the system, and at least 90% will use the data to adjust instruction, as evidenced by lesson plans and instructional adjustments.

**Achievable:** Provide coaching and ongoing support to ensure teachers understand how to effectively collect, analyze, and apply student data to improve instruction.

**Relevant:** Using data-driven instruction ensures that teaching strategies are tailored to meet students' needs, leading to improved academic outcomes.

**Time-Bound:** Fully implement the data collection system within one semester, with bi-weekly progress monitoring and coaching sessions to support teachers in using the data effectively.

## **Action Plan**

- To assess the effectiveness of lesson planning and standards alignment for Teacher 1 and Teacher 3, we decided to implement a data collection system and use the Classroom Tool for student assessments. The teachers began using spreadsheets to monitor student progress and inform their instructional decisions. In their folders, I have included examples of the spreadsheets they are using to track student progress, along with before-and-after samples of student work.
- Teacher 2 chose to focus on math interventions and small group instruction. We began by screening her students using the Georgia Numeracy Project (GNP). The results were then used to group students for small group instruction, following the lessons recommended by the GNP. A spreadsheet documenting this process is included in her folder.
- We also focused on becoming familiar with the Classroom Tools platform to effectively use the data it provides. Training was conducted for all teachers, and I worked individually with each teacher to create tests. Additionally, the instructional facilitator and I developed common formative assessments for 7th grade, aligned by standard, which each teacher will administer to their students. The data from these assessments will be analyzed to assess student performance by standard and inform instruction both in the classroom and during RTI. This process officially began in December, with the goal of full implementation in January. In the teacher folders, I have included training documents, but there is no student data available yet.

## **Reflection on Progress of Coachees**

**Teacher 1:** Reflecting on this teacher's progress, I am extremely pleased. As a veteran educator nearing retirement, she initially expressed strong resistance to using the Illustrative Mathematics curriculum and was generally skeptical about much of the work we were doing. However, after reviewing her data from the 2024 ATLAS Summative Assessment, something clicked for her. She became fully committed to ensuring standards alignment and using the data collected to guide her instructional decisions. She now creates and administers classroom assessments based on learning targets derived from the standards analysis. Additionally, she uses data from student cool-downs to plan for her RTI/small group sessions. Her lesson plans are consistently aligned with the standards, and she is thoroughly prepared for each class.

**Teacher 2:** Coaching this teacher has been more challenging. She has frequently been absent due to medical reasons, both for herself and to care for her husband, who also has health issues. In addition to her absences, she has shown reluctance to fully engage with the coaching process and tends to take a different approach from the other two teachers. Overall, I have observed limited progress with her so far.

**Teacher 3:** I am truly impressed by this teacher. After the original teacher left in mid-September, she stepped in. As a retired elementary teacher, she initially felt insecure about working with middle school students. However, she has been highly engaged in learning the curriculum and standards. She has made remarkable progress in using data to guide her instruction and intervention time.

**Instructional Facilitator:** This educator has been crucial to the entire process. She actively participates in every meeting and is developing the skills to continue this work with the teachers even when I am not present. She has effectively utilized the Classroom Tool Assessment and diligently tracks data.

**Figure 8**

Year-Long Pacing Illustrative Mathematics 7th Grade Math			
Weeks	Unit & Title	Approximate Number of Days	Number of Lessons
1-3	Unit 1: Scale Drawing	15	13 Lessons
4-7	Unit 2: Introducing Proportional Relationships	20	15 Lessons
8-10	Unit 3: Measuring Circles	15	11 Lessons
11-14	Unit 4: Proportional Relationships and Percentages	20	16 Lessons
15-18	Unit 5: Rational Number Arithmetic	20	17 Lessons
19-23	Unit 6: Expressions, Equations, and Inequalities	25	22 Lessons
24-27	Unit 7: Angles, Triangles, and Prisms	20	17 Lessons
28-32	Unit 8: Probability and Sampling	25	22 Lessons
33-35	Unit 9: Putting it All Together	15	13 Lessons

**Figure 9****ALD Level 3 Assessment Question**

**Standard:** 7.PR.5: Compare two different proportional relationships represented in different forms. The table below shows the relationship between the number of hours worked and the amount of money earned at Job A. Job B pays according to the equation:  $E = 12h$ , where  $E$  is the amount earned in dollars and  $h$  is the number of hours worked.

Hours Worked ( $h$ )	Earnings at Job A (\$)
3	35.25
4	47
5	58.75
9	105.75

1. Which job pays more per hour?
2. Explain how you used the table and equation to make your comparison.

**Answer Key:**

1. Job A pays \$11.75 per hour (calculated by dividing earnings by hour, example:  $\frac{47}{4} = 11.75$ )

Job B pays \$12 per hour (as shown in the equation  $E = 12h$ )

Job B pays more per hour

2. Explanation should reference identifying the unit rate in the table and interpreting the coefficient of  $h$  in the equation.

**Rubric (4-point scale):**

Score	Criteria
4	Accurately identifies both hourly rates, correctly determines which job pays more, and provides explanation using both the table and the equation.
3	Identifies both hourly rates and the higher-paying job correctly, with a mostly clear explanation. Errors or omissions may be present.
2	Correctly identifies only one rate or misinterprets which job pays more, with a partial or unclear explanation.
1	No response or response shows no understanding of proportional relationships.

### Goal

Our goal at the SCSC Print Shop is to provide a service to our districts and teachers. This includes providing materials to purchase, designing elements for classrooms or personal use, and other avenues as needed.

### **Program Summary**

The SCSC Print Shop offers a wide range of printing services to meet the needs of our area teachers. We specialize in printing high-quality posters, banners, mouse pads, mugs, t-shirts, notepads, labels, logo designs, sublimation, vinyl, brochures, letterheads, and canvas prints, among other things. We use state-of-the-art equipment and techniques to ensure that every print job meets our high standards of quality and accuracy. We help bring our area teachers' vision to life to add a personal touch to their classroom. Our teachers are able to email or call in their orders and have their projects delivered to their school districts. We also provide fingerprinting services to our area teachers and substitutes using LiveScan technology. This year we fingerprinted over 490 teachers, classified employees, substitutes and SCSC employees. Over 1,366 people visited the SCSC Print Shop this year.

### **Major Highlights of the Year**

At the SCSC Print Shop, we work closely with our clients to understand their vision and bring it to life through our design expertise. We offer a variety of purchasing options, including square, to make the buying process easy and convenient for our customers. In addition, we offer gift certificates for those who want to give the gift of custom design. Our canvas printing services allow our clients to display their custom designs in a beautiful and professional manner.

## **STEM Consortium**

Funding Source: **LEAs in the Consortium**

Competitive Grant: **No**

Restricted                      Non-Restricted

### **Participating Districts**

El Dorado	Junction City
Emerson-Taylor-Bradley	Magnolia
Harmony Grove	Parkers Chapel

### **Personnel**

<b>Name</b>	<b>Position</b>	<b>Degree</b>
Anna Warriner	Teacher Center Coordinator	M.Ed.+ 36

JoAnn Womack	Technology Coordinator	BSE
--------------	------------------------	-----

## Goal

The goal of the SCSC STEM Consortium is to deliver targeted training in K-12 curriculum and instruction, promoting an integrated approach to STEM education while addressing the unique needs of each member district. Within the South Central Service Cooperative region, the consortium helps strengthen connections to state standards and encourages the adoption of innovative teaching practices. Additionally, the consortium provides funding to support both in-service training and the retraining of K-12 teachers, with a strong emphasis on enhancing STEM instruction.

## Major Highlights of the Year

With this consortium, the co-op has provided various types of training for teachers and administrators. Lesson modeling and feedback to teachers in PreK-12 classrooms, summer workshops, intensive, continuous progress training, such as the SCSC STEM training project are some of the ways that these funds have been utilized. The training is long-term and is designed toward continuous improvement.

The STEM Cadre is made up of 20 dedicated teachers representing 6 of our 11 districts. This group serves as a driving force for STEM advocacy, helping to cultivate a school culture that encourages innovative thinking and a global perspective. Throughout the year, the SCSC Technology Coordinator continued to strengthen the STEM Consortium by actively promoting STEM education across member schools and supporting opportunities for hands-on, forward-thinking professional growth.

A standout moment this year was the cadre's participation in the NASA Space Exploration Educators Conference (SEEC) at the Johnson Space Center in Houston, Texas. During the conference, teachers engaged in hands-on breakout sessions focused on NASA's initiatives and STEM integration, returning to their classrooms energized and equipped with fresh ideas to enrich their students' learning experiences.

The educators have been asked with sharing their experiences and how teachers can make connections with their standards in workshops this summer with teachers and administrators.

## Training Topics

This year's ITI training sessions featured a dynamic lineup of topics designed to enhance both instructional practice and technical expertise:

### Three Days of In-Depth Professional Development

- Focused on Circuit Playground, Coding, and aligning instruction with the Arkansas Computer Science Standards. The participants received a Circuit Playground kit along with all necessary supplies to implement a ready-to-use STEM activity.
- STEM Night 101 - A practical guide for planning and hosting a successful STEM Night or enhancing the STEM engagement at your school.

- AI and ATLAS Tool for Formative Assessment - Hands-on training in using Artificial Intelligence and the ATLAS Tool to design more effective and insightful formative assessments.
- Space Exploration Educators Conference — NASA, Houston - An inspiring professional development experience at the NASA Space Exploration Educators Conference (SEEC), offering innovative strategies to bring space and STEM exploration into the classroom.

## Technology Equipment Checkout

The SCSC STEM Consortium allows for upkeep for technology currently housed at our cooperative and also allows for purchase of additional equipment to be checked out by schools.

Emerson-Taylor-Bradley	Junction City	

### Personnel

Name	Position	Degree	Certification
Kaci Burton (Resigned November, 2024)	Community Health Nurse Specialist (CHNS)	RN	Certifications and Instructor: AHA BLS CPR/AED First Aid, Stop the Bleed Instructor, Vision, Hearing, BMI, Scoliosis Instructor, CERT Instructor

### Goal

The goal of the Community Health Nurse Specialist (CHNS) is to provide schools and communities with assistance and resources that will improve the health of students as well as the community as a whole in Arkansas. The CHNS' primary focus is on the school nurse. We strive to provide technical assistance to school staff as well to the community as a whole.

## Program Summary

Unfortunately, SCSC has not had a CHNS since November 2024. However, we have had assistance from other CHNS housed at other cooperatives and Rhonda McDonald, BSN, RN CHNS/CHPS Supervisor Central, SER, and SWR, who is housed at our Ouachita County affiliate of the Arkansas Department of Health. Rhonda has helped coordinate services to our schools and provide support in the absence of our local CHN. SCSC looks forward to working with our next CHNS in the near future.

The Community Health Nurse Specialists (CHNS) are employees of the Arkansas Department of Health (ADH) and partner with the education cooperatives. The CHNS are under the direction of ADH and adhere to policies and procedures of ADH. The CHNS are under the supervision of the CHNS/CHPS Supervisor for the Central, SW, and SE Region with ADH. The Education Cooperatives, as partners with ADH, provide administrative support, office space, and other office supplies. ADH and SCSC have a contract and have been partners since 2003. There are 15 CHNS, 6 CHPS (Community Health Promotion Specialist), and 2 CHNS/CHPS supervisors in the state.

The CHNS work with schools, wellness committees, daycares, community coalitions, health care providers, and local health unit administrators in the counties the South Central Service Cooperative serves to improve the health of the community.

Activities of the CHNS related to the school setting include advocating for the implementation of tobacco-free policies, best practices for tobacco prevention education, and best practices for promoting and implementing policies and programs for nutrition, physical activity, and emerging public health issues in the school-age child. The CHNS provide education, technical assistance, and staff development for school staff and Nursing Continuing Professional Education for school nurses and wellness committees on the health issues such as the consequences of tobacco, injury prevention (intentional and unintentional), oral health, infant mortality, physical activity, and nutrition. Currently, the CHNS is a CPR instructor, and trains school staff, nurses, and community members in the American Heart Association's CPR/AED and First Aid training programs.

The CHNS assist schools in the implementation of laws that affect the health and wellness in the school setting, and offer assistance to schools on developing and maintaining wellness committees as required by Act 1220. The CHNS offer assistance with new tobacco laws, new or changing rules and regulations (kindergarten physical, immunizations, etc.), and train school nurses on all mandatory screenings (Hearing, Vision, BMI, & Scoliosis).

Under the ADH, CHNS are able to offer free NCPD (Nursing Continuing Professional Development) on certain workshops to school nurses to maintain their professional licenses. CHNSs survey school nurses and school staff to offer training and workshops that meet the needs of school health.

CHNS offer programs and presentations to the students on school campuses in an assembly or classroom setting and are available as presenters and can assist in finding presenters to meet the schools' needs. The SCSC CHNS has planned and will facilitate, and /or will present at several workshops this summer for school staff, wellness committees, and nurses both at SCSC and at other co-ops in the SW Region.

Southwest CHNS (Dawson, DeQueen/Mena, South Central, and Southwest Co-op CHNS) work closely together to meet the needs of Southwest Arkansas. CHNSs and CHPSs provide regional training to provide a level of consistency throughout the SW Region and cross borders to assist in other school districts to meet the needs of the school.

Activities of the CHNS related to the community setting include health fairs to promote health and wellness to the communities. Health fairs may also be on the school campus, in the community, or at a local job site. Health presentations are offered to community clubs (Lions Club, Rotary Club, minority clubs, etc.), worksites, and anyone else who requests these presentations. Here is a list of a few examples of presentations the SCSC CHNS and CHPS can present in the community: CPR, First Aid, Stroke, Cardiovascular Health, Flu, Sun Safety, Child Maltreatment, STD, Suicide, Wellness 101, Stop the Bleed, etc. CHNS attend several statewide meetings and trainings to stay abreast of school health topics and issues and collaborate at the state, regional, and local levels to provide continuity between the Arkansas Department of Education and the Arkansas Department of Health for the health of our students. CHNSs also work closely with Arkansas Children's Hospital, local hospitals, Arkansas Center for Health Improvement (ACHI), State Injury Prevention, Arkansas Cancer Association, Arkansas Prevention Resource, and State and local police. The SCSC CHNS is a member of five county health coalitions. She attended the State Injury Prevention meetings, state CHNS/CHPS meetings, and other regional and local meetings. By partnering with local health unit administrators, she strives to meet the health needs of the community.

### **Major Highlights of the Year**

A major highlight continues to be the Weebly website created and maintained by the SCSC CHNS. This website was created to be a resource for school nurses across Arkansas. This website has been a resource for school staff and community members as well. The website can be found on the South Central Service Co-op website, DESE website, and Arkansas Children's Hospital website as well. [www.chs-support.weebly.com](http://www.chs-support.weebly.com)

## Goal

The Teacher Center Coordinator's (TCC) office has the responsibility of looking at the "Big Picture" of K-12 professional development that supports and enhances school improvement for all 11 school districts within our cooperative region. The 2024-25 school year began with our focus on working with schools that were deemed in need of support. The instructional specialists working with the teacher center coordinator begin to compile data and to disaggregate the data of the 11 school districts and all the schools within the districts. A spreadsheet was created to easily disaggregate the data and to focus on those schools with D's or F's. We have continued our work using My School Info and LEA Insights to collect additional data. With our SCSC Dyslexia, Math, and Science Specialists new grant goals, we were able to look at specific data associated with specific districts they were to provide targeted support.

In addition, we have continued to track our virtual and face-to-face support at our districts to ensure that we are supporting our schools with the greatest needs according to state data. Our co-op tracks the support of all co-op staff members that directly impact our schools and offer support. This includes content specialists, our CTE Coordinator, Technology Coordinator, Mentoring Support Specialist, Teacher Center Coordinator, and Director. This allows us to collect quantitative and qualitative data for us to use in our Performance Reports, Grants, and other special projects. By using this data, our co-op team has a better picture to support our schools. SCSC staff compiled lists of each school and the number of support sessions provided. Specialists that supported specific buildings tracked their data for DESE. In addition, the staff spent 2024-25 continuing to learn and support DESE initiatives such as HQIM, Dyslexia, Success Ready Pathways, Course Code Updates, LEARNS, AR APP, COP (Communities of Practice), ATLAS Interim and Summative Assessments, K-2 ATLAS Screeners and Testlets, Cybersecurity Awareness, School Safety, and any new legislative acts that directly pertained to schools and education. A list of workshops provided by SCSC Staff, Specialists, DESE, and guest presenters during the 2024-2025 year is included at the end of this annual report.

## **Program Summary**

Professional development opportunities target the focus areas as outlined by DESE and PD sessions are offered to meet the requirements of law regarding the rotational professional development, data collected from the needs assessment, educator's Professional Growth Plans, informal surveys from SCSC Content Specialists, and on advisement from the SCSC Board of Directors, Teacher Center Committee, and the Professional Development Committee. A Google Site was constructed to help all participants find professional development that meets their personal needs by topic. Professional development is designed to meet the needs of schools based upon needs assessment survey results and insights and reports data from the 11 districts served. The TCC has the primary responsibility for reviewing, along with the SCSC Teacher Center Committee, SCSC Professional Development Committee, Special Education cabinet, Instructional Facilitator cabinet, superintendent groups, and principal groups, the data sets from the districts in planning PD to meet the major needs of the districts. Additionally, we shift and modify our PD offerings based on the requirements of the Arkansas Department of Education throughout the year.

## **Major Highlights of the Year**

Again, we tried to focus on visiting our districts on site to share information about professional development, new standards, LEARNS, and the new ATLAS assessment. The SCSC Instructional team provided support with Classroom Walkthrough Tools for Administrators focusing on Math and Science HQIM. Information was informally shared as the TCC and instructional specialists were assisting with job embedded professional development throughout the year. During our visits, we had staff take our SCSC User Satisfaction Survey, showed them updates to our SCSC Website, explained how to find professional development by topic when using our Google Site, clarified and explained ESC Works FAQs, showcased trainings and workshops, and also took suggestions from the schools about future professional development we could offer. Making that extra connection with our schools proved to be beneficial for all organizations. We had a total of 448 school employees from our 11 districts complete our SCSC User Satisfaction Survey this year. We can take this information from our educators and use it to better serve our districts and meet their needs. Our goal is to continue to grow our survey results, so that we may better serve our districts.

Our main focus area for 2024-25 was to continue to support schools in interpreting and implementing the LEARNS act, and assist them with preparation and data disaggregation with the ATLAS assessment. Furthermore, there was a specific intention to assist our schools in using data to drive instruction, understanding their Arkansas State Standards, and how our High Quality Instructional Materials (HQIM) are used to support those standards with integrity. Also, since our content specialists had specific duties assigned to them by the Department of Education, we supported them in those practices. The SCSC Teacher Center and Director also supported our schools, teachers, and administrators by providing job-imbedded curriculum, classroom management, instructional time management audits, and High Quality Instructional Materials (HQIM) implementation, AR App support, and assisting school districts with writing Stronger Connections School Safety Grants.

Moreover, we are encouraging our educators to attend trainings in Inclusive Practices, High Quality Instructional Materials, School Safety Trainings, Mental Health Awareness, Tier 1 Instructional Practices, Classroom Management and Procedures, and supporting novice teachers. In addition, we also created and presented trainings based on the requests and suggestions of our local districts to support implementation with on-site support and job-embedded training. Our specialists were tasked with logging any local support with our districts by using a Google Form. We would then use this data to target support and reflect on our practices. We also were tasked with looking at the big picture at the end of collecting this data: Were we targeting the schools that were deemed in need of support based upon ACT 1082 schools, D and F letter grades, and ATLAS scores.

From August 2024-May 2025, our instructional team logged an average of 913 hours in our 11 districts (see Table A, Table B, and Table C below). Considering that SCSC lost our three literacy specialist grant positions, one math specialist grant position, and our GT specialist grant position, the efforts of our staff show that technical support given exceeded expectations.

Each year our SCSC Administrator's Conference is held at DeGray Lodge in Bismarck. Superintendents, principals, and assistant principals are invited to submit ideas for the agenda. Topics for our conference this past year included: Two-Day Standard Response Protocol and Standard Response Method Reunification Exercise training held by the iloveyouguys Foundation.

The staff members of the professional development team at SCSC will continue to support school improvement efforts throughout the year with training in the standards for math, literacy, science, and computer science. In addition, trainings such as data interpretation and disaggregation, grade-level Arkansas standards and alignments, classroom management, high yield instruction strategies, STEM/STEAM, action based learning, mental health, anti-bullying, teen suicide, school safety, instructional technology, TESS/LEADS support, Monthly Leadership Meetings, Federal Programs Meetings, Dyslexia contacts, and ESOL Meetings are provided at South Central. We also share and extend learning opportunities by sharing what is offered by our partner organizations, such as SAU ERZ, SAU Tech, and South Arkansas Community College.

The Communities of Practice Grant (CoP) allowed SCSC to focus on supporting our district administrators and supporting their efforts in understanding and implementing HQIM. SCSC partnered with The New Teacher Project and Bailey Education Group to provide professional development that was specific to the needs of each district. Superintendents met with representatives from these organizations to set up systems of support for their building leaders. Both TNTP and the Bailey Group shared information and insights with the school districts and SCSC. From these walks, it was determined what each administrator needed to do to gain knowledge and support their staff with High Quality Professional Learning. I has established strong systems, structures, and conditions for the use of HQIM:

The SCSC Teacher Center Coordinator applied and received The Stronger Connections Grant from DESE for supporting school safety in 2023. As of today, we are continuing to use these funds until the grant expires in 2026. There was interest from seven of our districts to join together as a consortium to receive these funds (if awarded). SCSC was awarded \$270, 925 to use with these districts. The focus is on providing equipment and materials to help

secure buildings. There is also a specific component to provide to school safety training district-wide for school safety teams and teachers. We are providing five trainings this summer through the iloveyouguys foundation. More specifics for this grant are listed in the Anecdotal Reports Section of the SCSC Annual Report.

In order to help support our novice and veteran teachers throughout the year, we established a plan to provide classroom management and behavior throughout the year at our cooperative. Our Behavior Support Specialist, Sonia Hartsfield, provided trainings on Extensive Classroom Behavior Concepts, Antecedent Based Interventions, School Wide Positive Behavior Supports, and Classroom Management Tools in repeated sessions. In addition Anna Warriner and Karen Kay McMahan offered 2-day training sessions on Behavior Tools (Intensive Classroom Management). The trainings had representatives from all of our districts. Veteran teachers, novice teachers, and paraprofessionals all attended. We plan to continue this type of support in the summer and during the school year as requested by our districts.

SCSC continued to host ACT Prep courses for high school students throughout the year with the assistance of funding through the Department of Education. Any student was welcome to attend. We provided a pizza lunch, so that they could receive the maximum amount of support, and a certificate was shared with their districts. Unfortunately, due to Federal Funding Cuts, the last trainings were cancelled for the Spring of 2025.

CW PREP: November 15, 2024-55 students participated

CW PREP: October 24, 2025- 70 students participated

This training was differentiated into two sessions. One was for beginning test takers, and the other was for advanced test takers looking to raise their scores.

Chad Cargill Three Hour Training: March 4, 2024- 37 students participated

**TOTAL STUDENTS SERVED: 157**

In order to support the state's mental health initiative, we continue to offer Youth Mental Health First Aid (trained by our Teacher Center Coordinator and CHN) throughout the school year. This training is offered to our educators and to community organizations throughout our cooperative area. The Teacher Center Coordinator and an SCSC Preschool Teacher were trained as Regulated Classroom trainers. This specific training allows teachers and students to learn skills to help them with coping strategies. We also shared resources from the Arkansas Behavior Support Specialists, Arkansas A.W.A.R.E, and Arkansas TRIS to assist teachers and students.

### Goal

The goal of the South Central Service Cooperative (SCSC) Science Instructional Specialist Program is to assist all participating education institutions in meeting the goals and state standards established by the Department of Elementary and Secondary Education (DESE) a division of the Arkansas Department of Education (ADE) by promoting and supporting effective, research-based science and engineering practices for all students by providing opportunities and technical assistance to teachers, instructional facilitators, curriculum specialists, administration, instructional interventionists, and parents in the areas of curriculum, instruction, and assessment. The goal of this program is to improve the quality of student education by supporting individual educators in their efforts to continually grow and to learn. The final outcome should be to improve student achievement that supports college and career readiness goals and success in their community.

As Arkansas educators implement the K–12 Science Standards and navigate the expectations of the Teacher Excellence and Support System (TESS), they are making significant shifts in instructional pedagogy. The SCSC science program is committed to fostering growth and positive change not only in students but in teachers as well. Its mission is to inspire educators to actively engage students in science and engineering practices (SEPs), helping them deepen their understanding of disciplinary core ideas (DCIs) through the lens of crosscutting concepts (CCCs). This integrated approach empowers students to make sense of real-world phenomena and develop critical problem-solving skills for both the present and the future.

The Science Instructional Specialist, in partnership with fellow specialists across the state, serves as a key liaison between the ADE, DESE division, and local school districts, supporting the successful implementation of the Arkansas K–12 Science Standards.

## **Program Summary**

The ADE Science Program for grades K-12 was established by Act 1392 of 1999 for the improvement of science instruction throughout Arkansas. Assistance is provided to schools through professional learning opportunities, modeling of lessons, lesson internalization support, unit development, teacher observation using the Science Leadership Walkthrough Tool (SLWT), support the shift to adopting and implementation of science high quality instructional materials (HQIM), novice teachers content support, and technical assistance to improve the teaching and learning of science and engineering practices through increased content understanding and improved instructional practices across the curriculum to move towards a more student-centered classroom.

### **General Support:**

#### **Curriculum Alignment**

This initiative focused on aligning local curricula with the Arkansas K–12 Science Standards by developing comprehensive curriculum scope and sequencing with unit/lesson plans that incorporate classroom assessments aligned to the state framework and Arkansas Teaching and Learning Assessment System (ATLAS). The Science Instructional Specialist collaborated closely with K–12 teachers to design and deliver lessons that met the expectations of the state standards, while also supporting effective classroom instruction.

A key component of this process was maintaining instructional flexibility to identify and address student misconceptions and learning gaps in real time. Emphasis was placed on meaningful curriculum implementation, alignment, and vertical and horizontal articulation. Small groups of educators from multiple districts—along with intra-district teams—engaged in this work with a concentrated focus on science education.

#### **Data-Disaggregation & Analysis**

This initiative supported the development of a comprehensive understanding of assessment data among educators. Teachers along with school leaders engaged in a thorough review of school-level, classroom, and individual student data to inform instruction and drive improvement. The focus was on modeling and reinforcing data-driven decision-making at all levels of instruction.

Educators analyzed assessment outcomes from the ATLAS to identify trends, plan next steps, and determine appropriate student interventions. Adjustments to instructional strategies and lesson design were continuously informed by these analyses. To further support this process, the South Central Service Cooperative (SCSC) implemented an instructional analysis tool designed to help districts distinguish whether low assessment scores stemmed from curricular gaps or instructional challenges.

The SCSC Instructional Specialists, Career Technical Education (CTE) Coordinator, Teacher Center Coordinator (TCC), in collaboration with the SCSC Director, provided targeted support to districts. This support included interpreting formative ( using the Classroom

Tool in ATLAS), interim, and summative assessment data. The overarching goal was to identify and address instructional and curricular gaps, ensuring all students receive high-quality instruction. Online platforms such as the Arkansas Department of Education's [My School Info](#) and [LEA Insights](#) partnered with professional learning provided by DESE were instrumental in facilitating meaningful data analysis at the district and school levels.

## **Professional Development (PD) Options for 2024-2025 Included:**

### **Micro to Macro: Physical Science and Chemistry**

The Arkansas K-12 Science Standards for Chemistry and Physical Science are integrated. Meaning Physical Science (PS) and Chemistry courses are integrated with Earth and Space Science (ESS), and Life Science (LS). PS and Chemistry have performance expectations that are labeled “partially addressed”, which raises questions from teachers. These questions were answered by allowing the teachers to experience a Physical Science/Chemistry investigation lesson that supports the Arkansas Science Standards that incorporates relevant, engaging, student-focused learning. Teachers had time to reflect on how to apply instruction within their course and explore possible pacing guides for Chemistry and Physical Science to address this challenge.

TESS: 1C, 1E, 4A

### **Integrating Science into the K-5 Literacy Block**

Science teachers are struggling to find time in the school day to teach science. This professional development was strategically incorporated to combine literacy with science, technology, engineering, and mathematics (STEM). Science naturally enhances literacy and is a natural combination that advances reading comprehension, constructing explanations, and making claims supported by evidence. Teachers engaged in STEM Lessons designed to be taught during the literacy block. They also experienced how science can provide the “need to read” for their students.

TESS: 1E, 2B, and 4E

### **3D (3 Dimensional) Mastery: Science Instruction for Impactful Learning**

This PD enhances all K-12 teachers and instructional leaders who want to become familiar with science instruction and assessment aligned to the Arkansas K-12 Science Standards that incorporate 3D science instruction and 3D assessment. They discover the magic behind each of the three dimensionals of the standards SEPs, DCIs and CCCs, unlocking the secrets to making science an absolute blast for your students.

TESS: 2B,4A, 4E

### **Assessment Alchemy: Using Assessment to Drive Science Instruction**

This PD engaged teachers in rethinking assessments as a system designed to support student learning and teacher instructional practices. Using data from the classroom level formative assessment to the statewide interim and summative assessment ATLAS. To

rethink how teachers should utilize data. Teachers learn to elevate current assessments with examples of strong 3D assessment items giving them time to revise their own classroom tests to mirror the ATLAS. TESS: 1E, 4A, 4E

### **Phenomenal Teaching: Unleashing Wonder in the Science Classroom**

This electrifying workshop catapults K-12 teachers into the world of scientific wonders. Say goodbye to disengaged students and hello to the power of phenomena. They unravel the secrets of sparking student curiosity and unleashing a tornado of student-driven questions! In this PD, we did not just talk about science – we took a deep dive into the SEPs, CCCs and DCIs, connecting the dots between fundamental content and student engagement. TESS: 1E, 4A, 4E

### **Science Curriculum Bootcamp**

This was not your average planning session – it was a journey into the realm of phenomena-based learning that was buzzing with excitement. During this hands-on workshop, the teachers were the architect of their own science universe. They dived headfirst into the development of grade/course-specific science units of study that are so engaging, they'll have their students on the edge of their seats. They crafted a year's scope and sequence, bundled performance expectations into mind-blowing units of study, hand-picked essential learning targets, and concocted assessment plans that are as genius as your favorite science experiment.

But here's the best part – they didn't do this solo! They teamed up with other teachers in their grade level and/or course for a collaborative brainstorming extravaganza. It's a planning party where individual teachers and grade-level teams unite to create the blueprint for the most epic school year ever. TESS: 4A, 4E

### **Engaging Students in Science Investigations in Grades 6-8**

This PD was a high-octane journey into the heart of phenomena-driven investigations. Turning 6-8 classrooms into the coolest science spectacle in town! Based on a storyline learning model that will have your students on the edge of their seats, eagerly awaiting the next twist in the scientific saga. Participants dove into the world of assessment tasks of development and adaptation, where every test is a quest for knowledge. TESS: 4A, 4E

### **OpenSciEd (HQIM) K-5 Launch**

OpenSciEd is an Arkansas-approved, high-quality instructional resource that offers free access to comprehensive science learning materials. This curriculum launch was designed to prepare science educators for the successful implementation of their first OpenSciEd unit by introducing them to the program's instructional materials, pedagogical approach, and overall framework.

The launch provides a strong foundation for integrating OpenSciEd into classroom instruction, equipping teachers with the tools and understanding necessary to engage students in meaningful, phenomenon-based science learning. While the session centered around a specific elementary unit, the consistent structure and pedagogical strategies of the OpenSciEd curriculum ensure that educators across all K–5 grade levels can effectively apply what they learned to any elementary unit. This consistency allows for broad implementation and supports instructional coherence throughout any of the OpenSciEd elementary science experience. TESS 1D, 1C, 1E

### **OpenSciEd (HQIM) MS/HS Launch**

OpenSciEd is an Arkansas-approved, high-quality instructional resource that offers free access to comprehensive science learning materials. This curriculum launch was designed to prepare science educators for the successful implementation of their first OpenSciEd unit by introducing them to the program’s instructional materials, pedagogical approach, and overall framework.

The launch provides a strong foundation for integrating OpenSciEd into classroom instruction, equipping teachers with the tools and understanding necessary to engage students in meaningful, phenomenon-based science learning. While the session centered around a specific middle school unit, the consistent structure and pedagogical strategies of the OpenSciEd curriculum ensure that educators across middle school and high school grade levels and/or courses can effectively apply what they learned to any middle/high school unit. This consistency allows for broad implementation and supports instructional coherence throughout any of the OpenSciEd middle school and high school science experience.

TESS 1D, 1C, 1E

### **General School-Site Support:**

The goal of this program is to support classroom teachers in their efforts to meet the changing requirements of the classroom with model lessons through direct modeling, observations of lessons, and/or co-teaching lessons. This practice is reflective in nature, which requires meeting for planning purposes in advance of the lesson, as well as, meeting after the lesson to discuss and reflect for the purposes of growth and positive change in instruction for the benefit of students. The format of Gradual Release of Responsibility: was used to empower the educator, that was followed up by a reflection period with feedback from teacher and specialist. According to SCSC school tracking data, the SCSC science

specialist demonstrated a high level of school-based engagement.

### SCSC Staff

460 responses

100% of SCSC districts have utilized this feature of our program. It is not irregular for the school-site lessons to be multiple lessons during the course of the day. These lessons may be in cooperation with a single teacher and/or multiple teachers. Lessons have been delivered in both elementary and secondary classrooms. During this school year, the science specialist participated in approximately 206+ hours of SLWT practice, classroom lessons, observations, and coaching (CC and TNTP) support. The science specialist collaborated with approximately 65+ different science teachers, science instructional facilitators, science coaches, assistant principals and principals during this school year.

This year, the SCSC science specialist's grant objectives included collaborating with principals and school leaders to deliver professional development aligned with the DESE SLWT initiative and to emphasize the importance of adopting high-quality instructional materials (HQIM) in science. In addition to facilitating SLWT training, the SCSC science specialist enhanced the professional development by providing opportunities for real-time practice. This included observing teachers primarily in grades 3–8 and Biology classes, which correspond to the ATLAS testing grades. Following the classroom observations, the observation team convened to calibrate and review the evidence collected, ensuring consistency and accuracy in the use of the SLWT framework.

Participation across SCSC districts was strong, with 100% of districts completing the SLWT training and 73% participating in extended SLWT practice sessions facilitated by the SCSC science specialist.

To assess the effectiveness of the professional development, DESE administered a [survey](#) to principals, asking: "After attending this session, I feel more confident in my knowledge of the expectations of science teachers in my school and/or district."

Results indicated a high level of satisfaction and impact, with 94.4% of respondents (51 out of 54) rating the SCSC science specialist a 4 or 5 on a 5-point Likert scale, demonstrating strong confidence in the training and its relevance to district instructional leadership goals

Currently, 54.5% (6 out of 11) of SCSC districts are not utilizing science HQIM in grades 3–8 or Biology. Among these districts, 83.3% (5 out of 6) participated in the DESE initiative HQIM professional development provided by the SCSC science specialist. Overall, 63.6% (7 out of 11) of SCSC districts have engaged in this HQIM training, significantly exceeding the participation targets established in the science grant objectives.

To evaluate the effectiveness of the HQIM professional development, DESE administered a [survey](#) to participating principals, asking: "After attending this session, I feel more confident supporting science HQIM adoption in my school or district."

Survey results showed that 81% of respondents (21 out of 26) rated the SCSC science specialist a 4 or 5 on a 5-point Likert scale, reflecting a strong endorsement of the specialist's impact on supporting HQIM adoption efforts.

Moreover, the SCSC science specialist's service is to provide on-site training for school districts. This training could take the form of conducting/participating in meetings of various types such as PLC, STEM/STEAM Family Nights, School Staff Conferences, Campus Staff Simulations such as dyslexia or poverty and providing PD. During this school term, the science specialist participated in approximately 9 school wide STEM/STEAM related events and a plethora of PLCs. Many of these events require the science specialist to work after hours.

## **Major Highlights of the Year:**

### **OpenSciEd Curriculum Launch**

With HQIM adoption for science high on the radar for our schools at this time. The SCSC science specialist has brought OpenSciEd Launch PD to our area. The SCSC science specialist collaborated with the presenter Ben Carrigan, an AR K-12 Science Specialist at Wilbur D. Mills Educational Cooperative (WDMESC) in Arkansas and an OpenSciEd presenter. This launch was divided into two sessions. One session was a K-5 launch lasting one day while the other was middle school and high school combined launch lasting two days. The OpenSciEd K-5 Launch was to capacity by April so the SCSC science specialist added an additional day to accommodate more participation for our schools. OpenSciEd is an Arkansas-approved, high-quality instructional resource that offers free access to comprehensive science learning materials. This curriculum launch was designed to prepare science educators for the successful implementation of their first OpenSciEd unit by introducing them to the program's instructional materials, pedagogical approach, and overall framework.

### **SCSC Participation in SEEC Conference Enhances STEM Education**

Jo Ann Wommack, SCSC Technology Coordinator; Renee' Bearden, SCSC Science Specialist; and Anna Warriner, SCSC TCC, collaborated to lead a group of 15 STEM teachers and Instructional Facilitators to the Science Exploration Educators Conference (SEEC) in Houston, Texas.

This immersive professional development experience provided participants with a valuable opportunity to enhance their understanding of Earth and Space Science (ESS), specifically aligned with the Arkansas K–12 Science Standards Disciplinary Core Idea: Earth's Place in the Universe (ESS1). The program covered a broad spectrum of topics, from fundamental geological concepts to cutting-edge exploratory missions to Mars.

To maximize learning, the group strategically divided to attend a wide array of sessions, ensuring broad coverage of the conference offerings. Upon returning, participants reconvened to debrief, share insights, and distribute valuable resources acquired during their sessions.

Additionally, many of the SEEC sessions remain accessible online for continued learning. Participants will have the opportunity to present their experiences and key takeaways at the upcoming SCSC Administrators' Retreat this summer, offering administrators a glimpse into the high-quality STEM professional development their educators received.

### **TNTP Training**

Furthermore, the science specialist has been involved in professional development, role play and practice for implementing content coaching cycles to her repertoire.

The ADE and TNTP (The New Teacher Project) has initiated content coaching support for the specialists in Arkansas. June Hawkins-Jones and Sarabecca Mgalle, from TNTP have been leaders in supporting the science specialists in developing a science instructional walkthrough tool/coaching tool to help them to implement this new initiative.

This coaching tool will accurately collect data on classroom culture, science content, instructional practices, and students ownership, use evidence to identify key strengths and opportunities for growth for teachers that could impact student experience, craft coaching conversations that support teachers in setting goals and identify concrete next steps to improve their instructional practices. This TNTP is adaptable to use with novice teachers as well as seasoned teachers as a result students across the SCSC area schools will be positively impacted.

### **Science Professional Development**

The SCSC Science Specialist was one of the committee members to develop and implement the DESE Physical Science/Chemistry Integrated Professional Development (PD); along with the implementation of the DESE Science Summer PD offering requirement.

FUSE; Three-Dimensional Mastery: Science Instruction for Impactful Learning; Phenomenal Teaching: Unleashing Wonder in the Science Classroom; Assessment Alchemy: Using Assessment to Drive Science Instruction with ATLAS updates; and Science Curriculum Cohorts (Science Curriculum Bootcamp)

### **Science Website Lessons**

Additionally, the science specialist has had several Three Dimensional (3D), Five “E” Engage, Explore, Explain, Elaborate, and Evaluate (5E), Grading, Reasoning, Communicate (GRC) lessons published on Brett Moulding’s (Author/National Presenter) website [#going3Dw/GRC](#). This site is a place that science teachers can visit to find phenomenon based lessons aligned to AR Science Standards. This site is free for teachers. At a crucial time for shifts in science instruction and implementation of 3D teaching and learning, which the science standards require; the science specialist played a pivotal role.

### **Novice Teacher Support**

The SCSC Science Specialist was available to support the year 1,2, and 3 novice teachers in content through the mentoring grant. Full participation from ten of our eleven districts in the SCSC consortium were enrolled in the New Teacher Institute (NTI).

### **Teacher Excellence and Support System (TESS)**

The SCSC specialist had the opportunity to participate in TESS, which is an opportunity for teams to build capacity as a collaborative workgroup by developing professional learning plans, and by aligning personalized resources and supports to ensure professional growth. Schools and districts participate in TESS as well. Having the specialists participate allows them to be a support to the schools to meet their TESS domain requirements. The SCSC science specialist final summative rating is highly effective based on her PGP(professional growth plan) Goals.

### **SCSC Science Teachers Facebook Page**

The SCSC Science Specialist has developed and administered a Facebook page for the science teachers in our cooperative area. “[SCSC Science Teachers](#)” Facebook page has 125 science teachers as members with membership increasing daily. This is a venue for science teachers to get information/resources quickly that are relevant to their profession in addition to networking and sharing ideas with fellow science teachers.

### **Community Support**

The SCSC Science Specialist had the opportunity to participate in several community support opportunities.

- **Summer Reading Program** at Strong Library at Strong AR. SCSC science specialists provided a STEM lesson for the students and parents.
- The SCSC Science Specialist and the Tech coordinator also lead STEM/STEAM activities at family nights at Parkers Chapel, Magnolia, Bearden, Junction City, Emerson, Strong and El Dorado school districts’ **STEM/STEAM Nights**.

- The SCSC Science Specialist supported Parkers Chapel High School at their **STEM meeting** with Jason Bailey, Arkansas STEM director with ADE. This event also included a student showcase of STEM integration in classrooms.
- The SCSC Science Specialist supported **GLAMS**. Area sixth-grade students participate in the GLAMS (Girls Learning About Math and Science) conference each spring at South Arkansas College. GLAMS is a hands-on workshop and breakout sessions in science, technology, engineering, and math are designed to provide participants with fun ways to learn practical information about STEM job opportunities.
- The SCSC Science Specialist supported **Katie Robertson**, SCSC CTE Coordinator, with Draft Day at El Dorado Convention Center. **Draft Day 2025–Support:** This statewide event, organized as part of the "Be Pro Be Proud" initiative, focused on connecting high school seniors with opportunities in employment, internships, apprenticeships, and technical training programs.  
In addition to assisting with event operations, the SCSC Science Specialist supported activities that included: **In-person interviews** for high school seniors with local employers. A **career expo** for underclassmen to explore career pathways and engage with industry representatives. Promoting awareness of **skilled trades** and helping facilitate connections between students and potential employers in these essential fields. This participation contributed to the overall success of this impactful event, which supports workforce development and career readiness for Arkansas students.
- The SCSC Science Specialist supported **Trunk or Treat** at El Dorado Neal Park. Dressing up as a ‘Weird Science Teacher’ providing students and parents a hands-on experience with “Mr. Guts” a human anatomy manikin. A human anatomy manikin, also known as a human anatomy model, is a three-dimensional representation of the human body, used primarily for education and medical training. These models can be used to visualize anatomical structures and understand relationships between different body parts and systems. In lieu of giving out candy, she gave out a variety of fruits to foster healthy choices.
- The SCSC Science Specialist has been a member of the **South Arkansas Arts Center (SAAC)** for many years. *“The South Arkansas Arts Center believes that the arts should be basic to lifelong education – not just for children and teachers. Our goal is to stimulate awareness and appreciation of the arts through changing exhibitions, live performances, studio classes and workshops that can strengthen interpretive ability and interactive creativity for both children and adults. SAAC is here for the community!”*

---

## Technology Training Center

Funding Source: **Department of Elementary and Secondary Education**  
 Competitive Grant: **No**

Restricted                      Non-Restricted

**Participating Districts**

Bearden

## Personnel

Name	Position	Degree
JoAnn Womack	Technology Coordinator	BSE

## Goal

The SCSC Technology Coordinator holds a dynamic and essential role in today's educational environment. Acting as a bridge between schools and the Department of Education, they ensure that technology is effectively integrated into teaching and learning while aligning initiatives with Arkansas K-12 Standards and DESE (Department of Education) goals.

A key part of their role is strengthening cybersecurity readiness across educational institutions. This includes not only implementing protective measures but also leading training and planning sessions to raise awareness about cyber hygiene, social media safety, data privacy, and response strategies for cyber incidents. As cyber threats continue to rise in the education sector, this responsibility is critical to protecting student information and maintaining secure digital learning spaces.

In addition, the Technology Coordinator drives professional growth by equipping educators and technical staff with the latest knowledge and best practices in cybersecurity. By fostering ongoing learning and collaboration, they help schools build the expertise needed to proactively address cyber risks.

Ultimately, the SCSC Technology Coordinator plays a vital role in promoting the safe, strategic use of technology, enhancing both educational experiences and the protection of digital assets.

## Program Summary

The SCSC Technology Coordinator is responsible for maintaining the local area network (LAN), ensuring reliable and secure connectivity for all SCSC staff, presenters, and participants. In addition to managing network infrastructure, the Technology Coordinator assists employees with selecting and purchasing hardware and software, and offers training and support as needed.

The technology department also oversees the cooperative website, the STEM lab, mobile labs, and presentation equipment in each conference room, while providing hands-on assistance to presenters, participants, and staff to ensure smooth and effective use of technology resources. A key part of the role also includes educating teachers and staff on

the importance of cybersecurity and guiding them on how to respond in the event of a cyber attack.

Beyond internal support, the Technology Coordinator serves member districts by modeling technology-integrated and STEM-based lessons for teachers and students, offering technical guidance on hardware and software, facilitating professional development, and supporting the implementation of Arkansas K-12 Standards and state assessments.

The Technology Coordinator also works collaboratively with the Department of Elementary and Secondary Education (DESE), the Department of Information Services (DIS), the Arkansas Public School Computer Network (APSCN), and other Arkansas education cooperatives to stay aligned with statewide technology initiatives and strengthen cybersecurity awareness across schools. Additionally, the Technology Coordinator is an active member of the State Cyber Incident Response Team and has earned multiple cybersecurity certifications within the past year.

### **Major Highlights of the Year**

The SCSC Technology Coordinator facilitated 25 in-depth, technology-integrated professional development sessions throughout both the summer and academic year, with a strong focus on blending STEM concepts and classroom technology. These sessions covered a wide range of topics, including Cybersecurity Awareness, Google Applications, STEM fundamentals, Artificial Intelligence, and Online Learning Tools.

In addition to leading local workshops, the Technology Coordinator shared expertise at several major conferences, including the Hot Springs Technology Institute, the DESE Summit, the South Central Administrators Conference, the White River Services Security Summit, and the SecurED National Conference.

The Technology Coordinator at South Central Service Cooperative played a pivotal role in supporting schools with the implementation of Arkansas Act 504 Phase 1 by providing workshops exploring the ADE K12 Cybersecurity Policy. Participants learned about policy requirements as well as practical next steps for districts. Each regional training focused on two of the six policy control groups that will become effective July 1, 2025. The workshop included a collaborative presentation of an optional standards and procedures document that districts can review and edit. Below are the dates we met and the standards covered:

- March 4, 2025 - System and Information Integrity (SI) and Contingency Planning (CP)
- March 6, 2025 - System and Information Integrity (SI) and Contingency Planning (CP)
- March 11, 2025 - Incident Response (IR) and Identification and Authentication (IA)
- April 1, 2025 - Incident Response (IR) and Identification and Authentication (IA)
- April 3, 2025 - Awareness and Training (AT) and Access Control (AC)
- April 10, 2025 - Awareness and Training (AT) and Access Control (AC)

The SCSC Technology Coordinator collaborated with 14 other ESC Technology Coordinators to provide "PD in your PJs", delivering asynchronous professional development opportunities to educators across the state, with 729 participants. The success of the professional development was further highlighted through the comprehensive Summer PD Survey results:

- Overall, how would you rate this workshop? 72.7% (4), 21.5%(3), .051% (2), .005% (1)
- How likely are you to use the information provided? 77.5% (4), 18.6% (3), .02% (2), .008%(1)
- Before the workshop, did you have a good understanding of the digital tools provided? 66.2% no, 33.8% yes
- After the workshop, did you have a good understanding of the digital tools provided? 97.9% Yes, .02% No
- After this workshop, how likely are you to integrate more technology into your curriculum this next school year? 68.1% (4), 29.6% (3), .02% (2), .002% (1)

The Technology Coordinator at South Central Cooperative is dedicated to expanding STEM opportunities across area schools. This commitment is demonstrated through active participation in STEM Nights, facilitating a regional STEM Consortium by organizing workshops, escorting teachers to STEM conferences, and investing in equipment that enriches STEM instruction. In the past year, seven school districts hosted STEM Nights where the Technology Coordinator engaged students and families through hands-on activities. The SCSC Technology Coordinator hosted a Capture the Flag event at South Central on January 23, 2025. Additionally, the Cooperative offered 23 days of STEM and STEAM-focused professional development, empowering educators to bring innovative, high-quality STEM experiences to their classrooms.

### **Arkansas Cyber Incident Response Team**

As a key member of the State Cyber Incident Response Team, the SCSC Technology Coordinator played an instrumental role in strengthening Arkansas's preparedness against cyber threats through advanced training and strategic collaboration. Drawing from this expertise, the Technology Coordinator led impactful professional development sessions for both certified and classified staff, delivering cybersecurity best practices to diverse audiences across the state.

Highlights of this work included presenting on Data Responsibility at the DESE Summit, conducting comprehensive cybersecurity workshops for district staff, and contributing to leading conferences such as ACOT, SecurED, TELAR, and the WRS Security Summit. Additionally, the Technology Coordinator delivered Tech Caregiver presentations for community members at multiple locations and spearheaded efforts to expand the Tech Caregiver Program in Arkansas schools — a forward-looking initiative designed to grow the network of trainers supporting cybersecurity awareness for both schools and local communities.

### **STEM Community Outreach**

The Technology Coordinator actively participated in a variety of STEM nights and competitions in collaboration with the Math and Science Departments. These events, hosted by local schools and colleges, offered valuable opportunities for hands-on learning and meaningful collaboration. Throughout the year, we took part in events held at Bearden School District, Emerson Schools, Magnolia School District, Northwest in El Dorado, Parkers Chapel School District, Strong School District, and SouthARK Community College.

## ACT PREP

Funding Source: **Department of Elementary and Secondary Education**  
Competitive Grant: **Yes**

Restricted                      Non-Restricted

### Participating Districts

Bearden	Harmony Grove	Smackover Norphlet
Camden Fairview	Junction City	Strong-Huttig
Emerson-Taylor-Bradley	Magnolia	
Hampton	Parkers Chapel	

### Personnel

Name	Position	Degree
Anna Warriner	Teacher Center Coordinator	M. Ed.

### Program Summary:

The ACT Prep Grant is designed to provide additional support to students in grades 7-12 in preparing for the ACT. Through this grant, all districts in Arkansas had the opportunity to opt-in for additional support for their students in taking the ACT. Training was provided to each district.

Through this grant, cooperatives hosted ACT Prep sessions for students to participate in prior to their ACT test. Chad Cargill provided 9 sessions for 688 students across the state. Each student spent three hours in a live session with Chad Cargill working on strategies for taking the ACT as well as content review.

Cantrell and Waller Preparatory (CW Prep) provided 24 sessions across the state to almost 2,000 students. In these sessions, students spent six hours studying content from the ACT. CW Prep also shares strategies with students when taking the test. Students leave the training with a one-year log-in to all the resources that were shared so they can use them to continue studying for the ACT.

### South Central Service Cooperative Highlights:

During the 2024-2025 school year, we were able to provide three trainings for students at South Central. South Central provided lunch so that students would receive as much preparatory time as possible.

CW Prep

October 24, 2024: 70 Students Attended two differentiated sessions:

## Novice Test Takers, Advanced Test Takers

CW Prep

November 15, 2024: 55 Students Attended

Chad Cargill

March 4, 2025: 37 Students Attended

### **Total: 162 Students Served**

\*This was an increase from 115 students served last year.

\*We were unable to offer another scheduled session due to federal funding cuts.

We also surveyed students and parents regarding our ACT Prep at the co-op. See below for feedback:

Did your child's/student's score increase after attending one of our ACT PREP sessions:

## **ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)**

Funding Source: **LEA Shared Services**

Competitive Grant: **No**

Restricted                      Restricted

### **Participating Districts**

Bearden  
Camden Fairview  
Emerson-Taylor-Bradley  
Hampton

Harmony Grove  
Junction City  
Magnolia  
Parkers Chapel

Smackover Norphlet  
Strong-Huttig

### **Personnel**

<b>Name</b>	<b>Position</b>	<b>Degree</b>
Abbey Ebarb	Regional EL Specialist, SE AR	M. Ed.
Maria Touchstone	ESOL Program Director	M. Ed.

## **Goal**

The Division of Elementary and Secondary Education (DESE) English Learner (EL) support program is the result of collaboration between the Curriculum and Instruction sections and the Student Assessment Unit of the Division of Learning Services. This program provides many resources and services to assist schools in their efforts to support ELs in the development of the skills needed to communicate effectively in English both in and out of school.

## **Program Summary**

- Provide assistance through the Teacher Center Coordinators for professional development of teachers and administrators in the implementation of effective English for Speakers of Other Languages (ESOL) program design and delivery
- Assist, upon request, with school improvement and ESOL program planning for ELs
- Coordinate ESOL professional development training
- Convene regional meetings of ESOL personnel to discuss strategies and share resources used to instruct ELs under the Arkansas Learning Standards and implement and assess the Arkansas State Board of Education adopted English Language Proficiency Standards
- Provide on-site technical assistance addressing ESOL techniques and strategies

## **Major Highlights of the Year**

- Conducted quarterly meetings designed for ESOL Coordinators to receive information and training to:
  - Understand districts' legal obligations to ELs and their parents/guardians
  - Identify and assess all potential ELs
  - Fully meet the demands of the Arkansas Academic Standards and the Next Generation Science Standards and ensure access to an equitable education for ELs
  - Provide support to ELs so that they learn how to effectively employ a second language in an academic setting while learning through that second language knowledge and skills in multiple disciplines
  - Plan for effective ESOL program design and delivery
  - Provide professional development of teachers and administrators in the implementation of effective ESOL program design and delivery
  - Meet the needs of and understand obligations to ELs who waive services
  - Monitor and exit ELs from districts' ESOL programs and services
  - Evaluate the effectiveness of districts' ESOL programs and services

- Share questions and concerns
  - Network with neighboring districts.
- Conducted various individual virtual trainings for ESOL Coordinators
- Conducted various site visits to assist ESOL Coordinators in proper processes and procedures for their ESOL programs
- Conducted on-site classroom walk throughs and follow up conferences with teachers
- Developed a [ESOL video training hub](#)
- Offered [ESOL Power Hour: Teacher Edition](#) every Wednesday from 3-4 via zoom for teachers of English Learners to ask questions and receive guidance

## **Program Performance Data**

- One-hundred percent of districts served by the Regional EL Specialist for Southeast Arkansas were informed of all professional learning opportunities, and 90% of districts served attended at least one meeting. The average attendance rate of the 13 ESOL Coordinator meetings held was 59%. The average attendance increased 13% from the previous year.
  - Participants rated the PD provided by the Regional EL Specialist for Southeast Arkansas with an overall score of 4 on a scale of 1-4, with 4 being the highest score utilizing the Participant Feedback Survey for ESOL Coordinator Session and Participant Feedback Survey for ESOL PD Session.
  - Eighty-four percent of participants who completed a survey reported increased knowledge and understanding of topics addressed and positively impacted EL student learning as measured by a Participant Feedback Survey for ESOL Coordinator Session and/or a quarterly Feedback/Evaluation of ESOL Programming Support & Technical Assistance.
  - One-hundred percent of districts served by the Regional EL Specialist for Southeast Arkansas who requested technical assistance regarding the provision of ESOL services were provided technical assistance via email/telephone/virtual visits/in-person visits.
  - Ninety-six percent of participants in PD sessions reported an increase in their knowledge and understanding of the topics addressed.
  - The Regional EL Specialist for Southeast Arkansas compiled a spreadsheet of curriculum materials used for ELD instruction by grade span by district for 93% of high-risk districts in the region and 89% of remaining districts.
  - The DESE ESOL Unit collaboratively developed the [ELD Classroom Observation Tool Draft- Field Work](#) that was utilized by each specialist in at least one at-risk district based on the DESE Public School Accountability Unit, Office of Standards of Accreditation monitoring list.
-

## SCSC Leadership Meetings/Zooms

Competitive Grant: Yes No

### Goals & Description

South Central Service Cooperative provided monthly Leadership Zooms/Meetings to support principals, assistant principals, and any district stakeholders. The purpose of these meetings was to provide communication between the Arkansas Department of Education, South Central Service Cooperative, and our local districts.

## AR App District Training and Support

Competitive Grant: Yes No

To better serve our member districts, Education Service Cooperatives, in collaboration with the Department of Elementary and Secondary Education, recognized the need for targeted support in the development and submission of the AR Application (AR App). In response, a structured support initiative was launched to assist districts and improve the overall quality of AR App submissions and create a district strategic plan.

Beginning in January and concluding each May, a series of monthly meetings has been established to guide districts through each component of the AR App. These sessions are designed to provide differentiated support tailored to the specific needs of schools, ensuring a more effective and high-quality application process.

Each month, participating schools receive training and guidance on a different element of the AR App. These components include:

- Conducting a comprehensive needs assessment
- Collecting and analyzing relevant data
- Forming an effective planning team
- Developing SMART goals
- Writing goals that align with both district-level data and the priorities outlined in LEARNS
- Aligning resource allocation with the goals identified in the district's strategic plan.

To ensure consistency and ease of implementation across all cooperatives, training modules and introductory communication materials were developed for shared use. This

collaborative approach not only strengthens district capacity but also promotes alignment and accountability across the state.

This initiative reflects the education cooperative's continued commitment to supporting schools in achieving meaningful improvement through strategic planning and data-driven goal setting.

Lastly, in regard to recent legislation, education service cooperatives provided feedback on each district prior to the district's submission.

### **Collaboration with State Education Service Cooperatives/Tailgate Topics: Just enough to PREP you for the game of Leadership Administrator Support Zoom Meetings**

Competitive Grant: Yes No

In an effort to provide additional support to building administrator's across the state, the Educational Cooperative Teacher Center Coordinators partnered together to offer virtual support on topics that we felt could assist in understanding new laws, DESE requirements, and other topics relevant to education and their positions. These sessions were ongoing, continuous support for aspiring and existing building leaders, assistant principals, and deans of students. Sessions were held on the last Tuesday each month (except November and December). The topics were presenter driven and were selected to help assist leadership. These sessions were intended to build the capacity of school leadership, offer support and continued learning, and establish network opportunities around district and state leaders.

Each session lasted for a maximum time one hour or less, was recorded for flexibility, and offered feedback and questions through Zoom Chat and Mentimeter. Recordings were available by request, so that we could track interest and needs of our districts and

cooperative areas.

From the data collected from participants, requests of recordings, and which co-ops had participation from their educators, we were able to determine which sessions were more beneficial for our leaders. However, we found that administrators from around the state benefitted in some capacity from these sessions.

In addition, in looking at the participant evaluations from each session, we found that we were assisting our leaders in gaining knowledge on topics. For example, after the session on Acceleration, the knowledge of level of implementation grew. See data below.

5. My level of implementation before this workshop was:

6. My planned level of implementation after this workshop will be:

Below are the sessions listed, live attendance, and requests for session recordings.

# TAILGATE TOPICS ADMINISTRATOR SUPPORT FY 25-25

## Goals and Description

## **Collaboration with State Education Service Cooperatives/escWorks**

Competitive Grant: Yes    No

**Goals and Description:** Since 2004, the escWorks platform has been used across the state to house professional development hours required by Arkansas law to renew and retain teaching licenses and certifications. escWorks is an event management software that can schedule and track professional development offerings online. It then produces reports to quickly and clearly communicate services provided or taken over time. The software is made up of multiple online modules designed to schedule events, manage data, and most importantly, keep track of educators professional development hours. Before escWorks was purchased, there was not a consistent and logistical platform to track educator professional development in Arkansas.

By using escWorks, Arkansas school districts and administrators can access professional development history from any educator at any location across the state. This platform allows for school districts to easily verify employment history and trainings when they are interviewing and selecting high-quality educators for open positions.

Whether an educator has taught one year or twenty, they can use the platform to see their history of professional development and courses taken over their career. They can print transcripts and reports to keep in their personnel files or personal folders. Participants also have the ability to print a certificate of completion after a training.

Additionally, after each training session, a professional development evaluation survey is sent to all participants. The surveys are identical in the platform and allow participants to share feedback about trainings that our staff or guest presenters instruct. Our cooperative staff and specialists use the data from these surveys to improve instruction and grow in methodology. We measure the level of implementation of knowledge and skills participants had before and after attending the training. The comment section at the end of the survey is another tool we use to gain personal feedback from the teachers we support. It also allows us to closely inspect our practices and delivery methods.

Each Educational Cooperative assists their local school districts with escWorks in the following ways:

- Hosting trainings for new and veteran teachers on how to use the platform.
- Input trainings, meetings, and other events that participants can select to attend for yearly professional development.
- Indicating required DESE professional development trainings for teacher license renewal in the platform.
- Check attendance records with district administration to make sure professional development requirements were met.
- Mark attendance in escWorks after a training is completed.
- Answer Help Desk questions that come from users of escWorks.

- Assist current and retired educators with obtaining records and reports.

Each of the fifteen Educational Service Cooperatives and the Arkansas Department of Education split the cost of this service each year. Approximately \$6,242.62 was paid by each entity for site maintenance and support FY24.

### **Teacher Fingerprinting**

Competitive Grant: Yes No

### **Goals & Description**

In an effort to help districts with changes in the fingerprinting law, DESE provided each cooperative with a portable fingerprinting machine along with training to cooperative staff. Our school districts may check out the machines in order to expedite the fingerprinting process. South Central Service Cooperative began fingerprinting in the summer of 2014 and continues to provide fingerprinting to all districts, Southern Arkansas University pre-service teachers, and Sub Teach. More than 490 fingerprints were done in FY 24-25 as of May 27, 2025.

### **Girl Power Goes State**

Competitive Grant: Yes No

### **Goals & Description**

South Central, in collaboration with local industries and organizations, as well as nine other Educational Cooperatives (Arch Ford, Arkansas River, Crowley's Ridge, Dawson, DeQueen Mena, Guy Fenter, Southwest, Southeast, and Wilbur D. Mills), proudly hosted the fourth annual *Girl Power* event. This initiative was created to promote female participation in non-traditional occupational fields.

Female students in grades 9–12, attending public schools within the respective Cooperative Regions, were invited to compete. Participants engaged in hands-on competitions focused on CNC Cutting and CNC Lasering technology projects, utilizing advanced equipment in the areas of Welding and Power Structural Systems. The event aimed to develop and refine student skills in high-need, high-wage, and high-demand nontraditional occupations, while also encouraging creativity and innovation.

Each cooperative hosted a local qualifying event, with top performers in categories such as CNC Cutting, CNC Lasering, CNC Wood, and Multitool advancing to the state competition. The state-level competition was held at the Saline County Career and Technical Center in Benton, Arkansas. Student projects were evaluated based on creativity, design, technical proficiency, and interview performance.

To support this initiative, the Arkansas Division of Career and Technical Education awarded \$520,000 in Innovation Grant funding to fiscal agent DeQueen Mena. These funds enabled

the 10 participating Educational Cooperatives \$50,000 to budget for equipment to districts according to need and to organize regional events while enhancing their respective Career and Technical Education (CTE) programs. Additional contributions from regional industry partners further supported student prizes and essential supplies. The innovation funds were utilized to procure CNC plasma cutting systems, CNC laser engraving technology, and other materials essential for advancing public school CTE programs.

A key takeaway from these events, as noted by coordinators, is the strengthened connection between educational institutions and industry. Collaborations with regional businesses and cooperation among Educational Cooperatives statewide have significantly expanded the scope and impact of the competition with more than 600 girls able to participate while fostering valuable real-world experiences for students and helping to bridge the skills gap in the workforce.

### **PreK Day at the Co-op**

Competitive Grant: Yes No

### **Goals & Description**

In early May, we hosted our 11 ABC Preschools for a day of fun, parental involvement, and enrichment at our cooperative. We provided activities for both the students and the parents to participate in. Cooperative staff and specialists volunteered to help organize and provide the activities. Although, inclement weather forced the activities inside, we were still able to provide the following activities:

- Parachute Play
- Hoola Hoops and basketball
- Farm Animals brought by the Camden Fairview FFA
- Cake Walk
- Robotics and Coding for PreK
- Milking Cow Simulator provided by Farm Bureau
- Other games and activities such as a tattoo station, indoor bouncy house, Riga-Ma-Jig
- Machine Station were also included.
- Spinning Wheel of Fortune
- Dance Station
- Side Walk Chalk
- Popsicle Station

Lunch was also provided to all students and parents that attended.

# SOUTH CENTRAL SERVICE ESC IMPACT ON

## STUDENT PERFORMANCE

2024-2025

Program	Impact			
ABC PreK (Launchpad Data)	Component	Beginning of Year	Middle of Year	End of Year
	Instructional Vocabulary	<b>8.23</b>	<b>9.70</b>	<b>11.2</b>
	Phonemic/Phonological Awareness	<b>6.50</b>	<b>10.09</b>	<b>14.70</b>
	Concepts of Print	<b>3.23</b>	<b>3.83</b>	<b>4.50</b>
	Uppercase Letter ID	<b>9.30</b>	<b>14.95</b>	<b>19.25</b>
	Lowercase Letter ID	<b>8.25</b>	<b>12.16</b>	<b>17.16</b>
	Letter Sound Identification	<b>3.49</b>	<b>9.54</b>	<b>16.47</b>
CTE	<p>Consortium participation has stayed steady at 87.56% for the last four years. The 4-year graduation rate of 98.19% exceeds the state rate of 92.23%. SCSC Consortium continues to exceed the state percentages with SCSC Concentrators at 34.49% and Consortium Completers at 13.82% compared to the state at 26.78% and 10.04%.</p> <p>The percentage of graduating concentrators earning a recognized postsecondary credential increased significantly from 2021 of 10.39% to 2023 of 47.49%.</p>			
Virtual Arkansas	<p>Virtual Arkansas Students had an 89% Pass Rate. 30,334 credits were earned. 8,132 college concurrent credit hours were earned. 2,353 students were enrolled in computer science courses. 2,006 students were enrolled in advanced placement courses.</p>			
Early Childhood/Special Education	<p>South Central Early Childhood Special Education Program has made progress in each of the three early childhood outcome areas, including social-emotional, knowledge and skills, and appropriate behaviors, as indicated on the annual performance report. Each state target for the outcome area was exceeded, with the exception of Skills &amp; Knowledge Summary 2 and Social Emotional Summary 2.</p> <p>Indicator 8 Parental Involvement saw an increase to 93.10%.</p> <p>Indicator 6A LRE-IEP STUDENTS AGE 3-5 RECEIVE THE MAJORITY OF SPECIAL EDUCATION AND RELATED SERVICES IN THE REGULAR EARLY CHILDHOOD PROGRAM (A1) saw an increase to 23.46%.</p>			
Math, & Science *SCSC did not have	<p>In the 2023-2024 school year, there were <b>9</b> districts from the SCSC region in coordinated or directed level of support from DESE. In 2024-25, that number was reduced to <b>8</b> districts.</p>			

assigned Literacy Specialists this year	Our specialists logged a total of <b>1,549</b> support schools that were rated as a D or an F. Overall, our specialists logged a total of <b>1, 114</b> hours supporting all SCSC districts. These numbers do not include logged hours from State Literacy Coaches.
Mentoring/Novice	SCSC shows an increase in the retention of novice teachers from 2020-2021 data ( <b>85.6%</b> ) to 2023-2024 data ( <b>93.4%</b> ) This was an all time high retention rate. The current rate for 2024-2025 is <b>83%</b> . <b>78 %</b> of novices cited that the mentoring program impacted their decision to return in the Fall. SCSC had 175 novices in the 2024-2025 school year (these numbers do not include El Dorado School District).
Dyslexia	<p>Total Number of Students Receiving Dyslexia Intervention Services in grades K-12 during the 2022-23 school year: <b>802</b></p> <p>Dyslexia Contact Support Meetings Held FY24-25: <b>4</b></p> <p>SCSC FY 3-24 Take Flight Cohort Participants: <b>37</b></p> <p>SCSC FY23-24 Participants outside of our cooperative area: <b>13</b></p>

# NOTICE OF NON-DISCRIMINATION

South Central Service Cooperative complies with all civil rights provisions of federal statutes and related authorities prohibiting discrimination in programs and activities receiving federal financial assistance. Therefore, SCSC does not discriminate based on race, sex, color, age, national origin, religion, disability, Limited English Proficiency (LEP), or low-income status in the admission, access to, and treatment in SCSC's programs and activities, as well as SCSC's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding SCSC's nondiscrimination policies may be directed to:
