

## Movie Permission slip! For next week! (Actual permission form, sorry). :-)

Steve Roby • 19 days ago • Thursday, Jan 12 at 4:15 PM • **Astronomy - P8-Roby**

To reward my Astronomy class I'd like to show one of the following films. Please read all the options before clicking. The movie that gets the most permissions will likely be the one we watch.

Here's the list:

October Sky (PG, positive role models and messages)

Apollo 13 (PG, great story of bravery and problem solving)

The Martian (PG13, some cussing and he uses feces to fertilize soil)

Interstellar (PG13, more mature concepts, some intense action and brief language, mind bending)

Gravity (PG13, same as above, some intense images).

All of these movies contain interesting and wonderful facts and realities of space travel and astronomy.

By clicking on one of the PG 13 movies, you are giving permission for any of the three (partly because I don't know how to change the survey to allow for multiple answers.)

DUE Tuesday of next week!
