## **STUDENT CAMERA USE IN SCHOOL**

**517**

The use of cameras in school by students is generally prohibited because of the disruption that can occur. However, in some very restricted instances, camera use by students is permitted.

1. Cameras cannot be used in locker rooms and bathrooms.
2. Failure to follow this directive may result in the loss of all camera privileges at school and may result in other disciplinary actions including suspension and/or expulsion.
3. These rules are intended to outline minimal expectations regarding camera use in school. Principals can enforce rules that are more strict.
