

BMS Board Report 1/7/2025

BMS had a fast couple of weeks in December, highlighted by all the Christmas cheer provided by the staff and students. BMS also hosted the monthly Board meeting and it was a great experience for all the students involved. This meeting showcased all the great types of students at BMS. After the meeting we spent the remaining time focused on finishing the break with a purpose so that everyone has an opportunity to begin the second half of the school year with a set starting point. A more in depth report will be provided in February as winter benchmark testing will be completed, MAST testing will be conducted, and there will be a full month to report. The adjustments made prior to the 2nd quarter will also be completed with a complete data review to gauge the success of the changes. This data will include classroom grades (gpa) in addition to the testing data. Attendance is also currently being reviewed and an updated system is being focused upon.

BMS by the numbers:

Referrals for month of December:

8 minor

2 severe

1 extreme
