Staff Development (September 1, 2011 to September 30, 2011)

Principal's General Narrative:

Students have continued with their learning in classes. Teachers have been diligently preparing and presenting materials to students to enhance their learning of knowledge, skills, problem solving, and critical thinking in the classes. Junior High teachers have also been working with students to complete missing work by having students come in before and after school to get the work done.

The Pitsco Lab has set up two more modules to broaden the learning experiences of Jr. High students in Science. The modules are Body Systems and Garbology.

UIL Academic practice for various events has begun in preparation for the Academic Contests later this semester.

Athletic programs for the girls and boys have been working on strength, speed, agility, knowledge of the sport, and the development of various skills needed by the students to be successful in their competition.

The cheerleaders and their sponsor have been doing a great job of building school spirit and supporting the Bracket Cubs and Cubettes.

7th and 8th grade band students have also been developing their knowledge and skills base to be successful in the band program. The 7th grade band will be playing along with the Bracket Tiger Band for the D'Hanis Pep Rally on Friday. The Tiger Band is improving each week in preparation for Band Contests that will take place later this semester.

Junior High students needing immunizations is almost taken care of. The parents of three or four students who do not have their immunizations, as required by law, have been notified the students will not be able to attend school on Monday, October 3 without proof being given to the school nurse that the immunizations have been taken.

Your endeavors to make our school a better place for students, teachers, and all staff are greatly appreciated.

Respectfully submitted,

George T. "Stoney" Burks
