

The ASC has gone to the Hyder Community Association board about the window issue and other issues with the school building. We are working to solve the problems along with the town of Hyder.

Some of the problems with the school wont be in motion until the spring due to snow and ice on the roof of the building which is a safety hazard. Parents in the community of Hyder don't want to make these changes to the school if there wont be a school next year, because the building wouldn't be in use.

We were excited to to learn that 80% of the high schoolers made honor roll for the first semester. The elementary received a new Aero Garden thanks to a \$650 grant the district helped us secure; thank you so much for this. The elementary students are also studying Black History Month, and the presidents for social studies class.

I love going to school in Hyder and so do the other students. We have built friendships within this school district that are stronger than any bond I've seen anywhere else. This school district means a lot to us students. We love going to school.
