Board Meeting

Board of Trustees,

As part of the Schematic Design (SD) Approval Process, PROCEDEO coordinated with the Campus Survey Team to obtain their selection of two of the three proposed design options. On February 26, 2026, during the first Bond Oversight Committee meeting, a final design option was selected through a formal vote.

<b>EVENT</b>	<b>DATE</b>
Schematic Design Packaged Received from WRA	December 8, 2025 & January 29, 2026
Campus Survey Results Received	February 17, 2026
Bond Oversight Committee Results Received	February 26, 2026

The attached includes the design selection results for the following campuses: West MS, Meadows ES, Amber Terrace ES, Cockrell Hill ES, and Woodridge ES. Please note that no vote was recorded for Woodridge ES, as no design options were presented for that campus.

PROCEDEO recommends that the Board approve the selected schematic designs and authorize the Architect to proceed into the Design Development (DD) phase.

Thank you for your consideration.
