I would like to consider placing LaVaughn Fields on a Two Year Term Contract as the District Technology Director. He is currently an At-Will Employee of the school district. His current salary is \$38,220.00. LaVaughn Fields has a Associate Degree from TSTC.

I have made a contact with our school attorney and determined that our school district can't place LaVaughn Fields on a Texas Education Code Chapter 21 Term Contract because he does not currently hold a Official Certification from the State Board of Education (SBEC) even though he does possess an Associate Degree from Texas State Technical College.
