Re: Approve Transportation Contract

Recommendation:

It is the recommendation of the Superintendent to approve a 3 year agreement with Sunrise Transportation with annual 4% increases in service costs.

Background Information:

Sunrise transportation provides busing to our special needs students that receive educational services either on or off campus. This contract is negotiated by SASSED and this provider provides transportation for numerous students throughout the special education cooperative. We have used this services for many years and the service has done well.
