

## **CONSIDERATION OF AMENDMENT TO THE EXTRA-DUTY STIPEND SCHEDULE**

### **Action Item:**

This agenda item shall allow for an amendment to the stipend schedule. This amendment is related to the responsibilities associated with the handling of dual credit courses. We have increased those opportunities for our students over the past few years, and it takes a lot of work, particularly the organizing/setting up students, paperwork, and serving as a liaison for the district related to the relationships/communication with local colleges, etc. Dr. Fratangelo has been handling most of this (without extra pay), but I have recently given Lynn extra duties in other areas such as heading up our RTI/PLC meetings/trainings, so her time is more restricted now. Taking care of dual credit classes can be very time consuming, and it's an on-going responsibility throughout each semester. I would like for a stipend of (up to) 2,500 dollars be added to our schedule for this purpose. (I don't know exactly "who" this person might be at this time. Also, this amount could be less, depending on whether or not we are able to accommodate some time during the day, within the master schedule, for some of these duties to be attended to by a teacher.....(such as an extra planning period or two).

### **Recommendation:**

I recommend the stipend schedule be amended, as presented.
