

Athletic Department Update *December 15, 2025*

BASKETBALL

Girls basketball is having a much-improved season under third-year head coach Bruce Harris. Their talent level has increased dramatically over the past three years, and he now has them on the verge of competing for a playoff spot.

Boys basketball features a young team that is focused on improving in the upcoming weeks as they prepare for a tough district schedule. Both teams are still early in their seasons and are currently playing tournament and preseason games.

SOCCER

The boys and girls soccer teams are just beginning their seasons and have started practicing after school. They will scrimmage throughout December and begin official games in January.

UPGRADES TO FACILITIES

Our facilities are also seeing major upgrades. The tennis courts are receiving new LED lights, the baseball and softball fields are nearing completion, and the track is scheduled for resurfacing in January and February. Thank you to the ISD for taking such great care of our teams.
