

# FPC Allen Campus Board Report October 2024

- Ochiltree County Sheriff's Office and FPC hosted TCOLE#2024 – Fentanyl Investigation Class on September 18<sup>th</sup>. We had twenty-seven participants take advantage of the training taught by John Beasley, Resident Agent in Charge of the US Drug Enforcement Administration out of Amarillo.
- Our TCOLE Department has a few new faces in roles for the 24-25 year. Rudy Corrales is serving as our Chairman of the Advisory Board (Dalhart Rotation), Jaimee Coburn is FPC's Training Coordinator, and Kendra Araiza is the Borger TCOLE tester.
- Rene Schwalk, Student Resource Center Coordinator, put together treats to celebrate National Coffee Day with the students in Perryton. Our students look forward to and appreciate this day each year!
- The Basic EMT Class traveled to Dalhart for clinicals and skills lab rotation. Ochiltree General Hospital and Perryton EMS have both agreed to be local clinical sites to serve Perryton students.
- We celebrated National Custodian Day on October 2<sup>nd</sup>. Veronica Murillo has been our custodian since the Allen Campus opened in August of 2005, and she continues to be a valued team member and an overall asset to FPC.
- FPC participated in College Day at Perryton High School on October 9<sup>th</sup>. FPC had representatives from cosmetology, welding, workforce, Pathways, CDL, and general advising to help give students information on opportunities at FPC.
- The new Phlebotomy class maxed out in Perryton with eight students this month. Things are going well with the program under instructor Angelica Macias. We have a waitlist for the next class in February/March.
- Nancy Angeles joined the Allen Campus Team as Administrative Assistant on October 14<sup>th</sup>. We are excited to have Nancy as a team member and believe she will be a great addition to FPC!
- The improvements to the CDL facility are underway. We have completed the removal of the awning and islands, parking lot groundwork repairs, electrical repairs and upgrades, and some exterior building work. We are waiting for the siding to be installed, new windows and garage door work, and interior repairs to be completed. All improvements should be completed by the end of this year.
