

Instruction**Comparability of Services**

It is the policy of the Board of Education to insure comparability of services funded by state and local sources in both Title I project schools and non-project schools.

Annual records are maintained in the school district to document comparability.

The Board of Education ensures equivalence among schools and will:

1. Provide services with state and local funds on an equitable basis in schools serving Title I project areas that are at least comparable to services in non-project areas;
2. Use state and local funds to provide equitable staff resources (teachers, administrators, auxiliary personnel) in all schools with the same grade levels;
3. Use state and local funds to provide equitable resources in all schools with the same grade levels in the areas of curriculum and instruction.

Policy Adopted: April 5, 1995
