Proposed 2016-2017 Budget Overview of the Woodbridge Board of Education

The 2016/17 proposed budget was developed with our two longstanding guiding principles uppermost in mind:

1. Improve the quality of education that supports the educational mission, vision and goals of the Woodbridge School District.
2. Develop a budget that respects the taxpayer.

The proposed budget is built around the need to implement an educational plan that will prepare our students for a successful future – academically, emotionally, socially and physically.

A Summary Look inside the Proposed 2016/17 Budget

- **Student Enrollment:** Enrollment for the 2015/16 school year, as of December 1, 2015, is approximately 20 students lower than the June 2, 2015 enrollment. In the 2016/17 school year, we anticipate an increase of seven to ten students. With this slight increase and the anticipated breakout of students on each grade level, the number of requested classes has not changed. However, contrary to trends elsewhere and based on a recent demographic update, we project an increase in enrollment over the next 5 years of 80+ students.
- **Budget Development:** The budget was developed using as close to a *zero-based* approach as possible that is aligned with and supports Board of Education goals and the district's educational mission.
- **Respect for Taxpayer:** The 2016/17 budget was developed with sensitivity to the economic challenges that exist today. Many accounts were reduced. Recent negotiations with the Woodbridge Education Association (WEA) resulted in substantial insurance savings that helped offset salary increases, as well as significant increases in costs for mandated special education services. Additionally, a carefully managed staffing grid, that guides hiring practices, has resulted in substantial costs savings over the years, extending into the 2016/17 school year.
- **Staffing:** When compared to current year actual staffing levels, we have added .5 art teacher position and a part time maintenance worker. The arts have been a major part of the educational program and culture at Beecher Road School. Currently, there are 1.5 art teachers for nearly 800 students. That represents one art teacher per 500+ students. The recent facilities upgrade has brought great energy efficiency to BRS. The building has 173,000 sq.ft. of space that must be maintained. A part-time maintenance worker will allow for that, while at the same time, reducing the outside maintenance contracts.
- **Facilities Support:** The budget supports the custodial and material needs necessary to maintain cleanliness and maintenance objectives of the facilities. In addition, it includes the new costs as well as savings from the building upgrade.
- **Special Education Costs:** In the 2016/17 budget, mandated special education costs have increased substantially. Tuition for outplaced students must be increased by 64% and special education transportation has to be increased by 60%.
- **Mandates Included:** The proposed budget supports federal and state requirements that include:
 1. multiple elements of an *accountability plan*
 2. teacher and administrator evaluation plans
 3. *Common Core State Standards*
 4. *Technology Adaptive State Standardized Testing Program (SBAC)*
- All mandated *Special Education* services.
- **Class Size:** Class configurations in this budget support compliance with the *Class Size Task Force Guidelines* approved by the Board of Education.
- **Transportation:** The budget meets mandatory *transportation requirements* and all related transportation contract obligations.
- **Contracts:** All current *collective bargaining agreements* and employee contract wage adjustments have been included in this budget.
- **Interns:** The budget continues to support the use of interns as the major source of substitutes to provide greater continuity in instruction as well as cost savings.
- **Insurance:** This budget *assumes* a 12% premium increase for health insurance.

Most Importantly –

The Proposed Budget Supports Teaching and Learning That Includes:

- A school-wide focus on challenging every student, including advanced learners, through differentiated instruction and improved student performance.
- District priorities:
 1. continue a school-wide mathematics initiative
 2. develop and implement updated curricula
 3. enhance the balanced literacy model
 4. enhance art education
 5. implement new science standards
 6. support for STEM instruction in the areas of science, technology, engineering and mathematics
 7. continue a comprehensive embedded professional development program
 8. support core curriculum areas:
 - language arts
 - other core academic subjects
 - the arts
 - physical education
 - world language
 - emotional and social development of students
 - integrated technology
- Membership and participation in the *Tri-State Consortium* of high-performing districts in the metropolitan area.

The 2016/17 proposed budget calls for an increase of 2.48% in comparison with the 2015/16 budget.
