Background Information

The purpose of these showcases is to celebrate and highlight the happenings in our schools and district. Each week a member of the Leadership Team will highlight an activity, group or individual from our district.

The highlight of today’s meeting is members of staff and students that attended the Co-Design Workshop June 4-6, 2024.

From June 4th to 6th, 33 students and staff from Red Wing High School joined a 3-day Co-Design Workshop facilitated by The Loop Consulting, Marshall Laidlaw, Rachel Dopkins, and Allegra Smisek. This workshop followed up on training provided to RWHS staff in January 2024. Co-design involves collaborating with the intention of building power and creating space for growing relationships, sharing feedback and exploring multiple perspectives.

During the workshop, students and staff participated in learning activities and established meaningful connections. They co-wrote ways of being, a purpose statement, and created a theory of action for positive change at Red Wing High School. They have condensed their findings and requests to present them to the Red Wing Board of Education, hoping to collaborate on implementing these changes in the upcoming school year.

The successful execution of the workshop was made possible through generous funding, careful planning, and selective invitations extended to staff and students by the RiseUp Red Wing Youth Council.
