

**Dunlap Community Unit School District 323
Board of Education Meeting**

**Date
August 20, 2025**

INFORMATION ITEM

TO: Members of the Board of Education
Dr. Scott Dearman, Superintendent

FROM: Dr. Scott Adreon, Director of Operations & Services

SUBJECT: Pool Filtration System Replacement
Request for Proposals Not to Exceed \$200,000

INFORMATION:

Many of you know that our pool filtration system has exceeded its expected service life by 12 years. The board seriously considered replacing the system in 2019 but decided at the time to keep the unit in service. Despite its age, the unit has performed well. That said, our service representative from Speer, who has serviced our pool equipment for 10+ years believes that the unit could stop functioning all together at any time. For that reason, and the fact that the permitting approval process for the state can exceed 9 months for a filtration system, I am requesting that we solicit requests for proposals not to exceed \$200,000. This will allow us time to gather proposals, approve a proposal, submit the plans and application to the state of Illinois, and start the approval process.

I have attached a preliminary quote for the work from Speer Corporation and several pictures of our existing filtration system.
