

August School Board Report

What is happening right now:

- 1) SBE is working on ELA, MATH, SOCIAL STUDIES AND SCIENCE Curriculum planning, unpacking standards and planning for the year. Teachers that transferred were invited and this has helped them get an understanding of the different programs and feel confident about going into a new school year.
- 2) Administration team is getting ready by first getting me up to speed on BHS's success and where we need refinement. Administration has planned evaluations and getting ready for the first weeks of school.
- 3) Administration and Instructional coaches have had a little bit of time to sit down and plan walkthroughs, finalized all schedules. The Instructional Coaches are doing a great job on schedules, planning, and teacher support.
- 4) Custodians are working as hard as they can to get classrooms clean, scrubbed and waxed. The free clinic put them back a little bit so they are working together to ensure the school is ready for the first day of school.
- 5) Cooks are coming in and cleaning the kitchen and getting ready for their first delivery of food in the next week or so.
- 6) Guidance Counselors have an extended contract for 9-12 student schedules. It is a process so I am thankful we were able to allow them this work time. Scheduling is time consuming and hard to do when you have a lot of distractions around you.

Upcoming dates for August:
