Subject: CLASS – Middle School and Elementary School Science Program

The first episode of this year's CLASS program is ready to present to our Board of Education. Each CLASS program is developed jointly between the Academic Services Department and Ken McMullen in the Communications Department. This episode will showcase our district's middle school and elementary school science program which was developed by the Battle Creek Area Math and Science Center.

Please consider adding this item to the Instruction portion of the January 21, Board of Education Meeting. Thank you for considering this request.
