

TRANSPORTATION BOARD REPORT FOR MAY 2024

SUBMITTED BY: FRANCIS W BULL CALF

Hi all this is my May 2024 board report,

So, for the mechanic shop they did 47 work orders this month. They will be getting the summer food bus ready for summer lunches and the vehicle that will be pulling the lunch trailer. They are getting ready for their summer walk arounds of all buses and vehicles. We will be scheduling in July for bus inspections because they are due 30 days before the 1st day of school. I am hoping I have the staff to get my buses ready by inspection.

As for the office, they are getting the 2nd semester reimbursement done, which is due this month. We are preparing for our June meeting with the Glacier County Superintendent for all buses and routes.

So, for the trip personnel department, they had 61 trips in total, they were sports trips, college visits, lots of field trips. This month's trips were very difficult because of the weather, then the rescheduling of trips, at times I almost didn't have enough drivers to do my afternoon Bus routes.

As for the disciplinary department, they had 7 write ups and 1 removal.

This is my may report thanks for reading it God bless.
