eSports

@ RMS

What is eSports?

- “Electronic Sports,” typically played competitively
- Includes casual and competitively players
- Promotes inclusion and builds character

What does eSports look like @ RMS?

- 2 times / week in Media Center
- 4 screens, 4 Switches, 20 controllers
- Mario Kart 8 Deluxe and Super Smash Bro.

eSports Competitive Team

- Partner w/ PlayVS
- Plays Super Smash Bros. competitively
- Currently tied for 1st

PlayVS Middle School - Central Region Super Smash Bros.™ Ultimate Standings

PROJECT LEAD THE WAY

PLTW

Illinois Engineering and Design Standards

1. Ask questions, make observations, and gather information about a situation people want to change to define a simple problem that can be solved through the development of a new or improved object or tool.
2. Develop a simple sketch, drawing, or physical model to illustrate how the structure of an object helps it function as needed to solve a given problem.
3. Analyze data from tests of two objects designed to solve the same problem to compare the strengths and weaknesses of how each performs.

Painting Tool: Criteria

Your painting tool MUST:

- be strong so it doesn't fall apart
- built with the available materials
- help paint: **lines and dots OR flowers OR a rainbow**

HOW

Painting Tool: Criteria

Your painting tool MUST:

TURN AND TALK

What happened when you tested your painting tool?

I agree/disagree
with _____
because...

I believe

because...

So what
you said
was...

What happened when you tested your model?

Rate your model.

TURN AND TALK

How does your painting tool solve the problem?

I agree/disagree
with _____
because...

I believe
_____ because...

So what
you said
was...

How does your model solve the problem?

TURN AND TALK

What did you do well with your **insert** ?
How could you improve your **insert**?

I agree/disagree
with _____
because...

I believe

because...

So what
you said
was...

What did you do well?

What could you do better?

HENRY FORD

Failure is simply the opportunity to begin again, this time more intelligently.

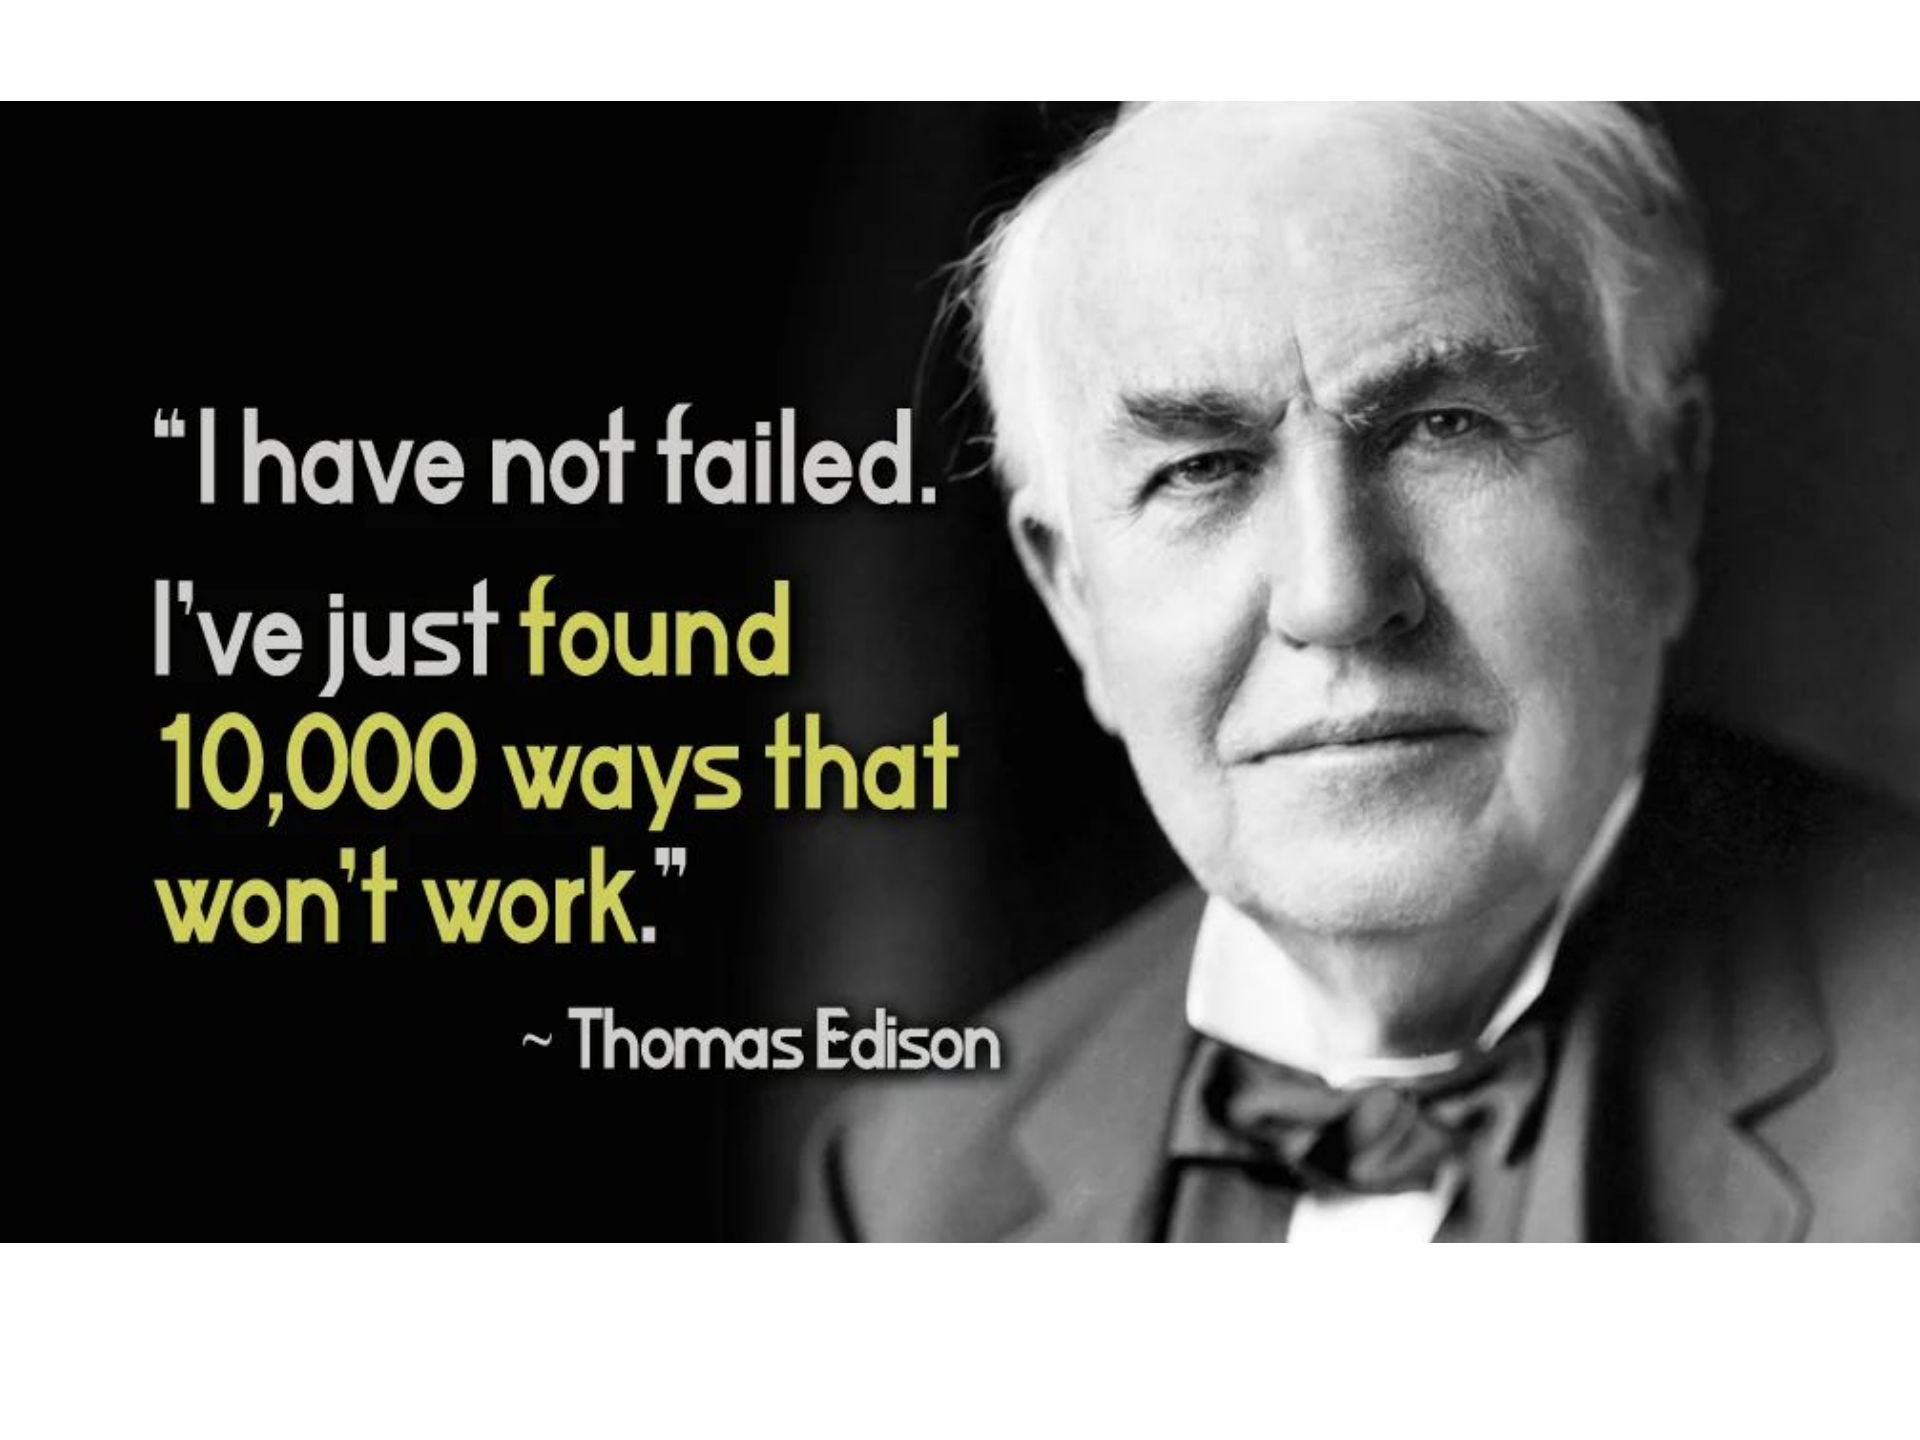

It's about the
PROCESS, not
the success or
failure of
solutions.

A black and white portrait of Thomas Edison, an elderly man with white hair, wearing a suit and bow tie, looking directly at the camera with a serious expression. The background is dark.

**"I have not failed.
I've just found
10,000 ways that
won't work."**

~ Thomas Edison

FOIA Requests

Ten Requests:

Each request was for a different set of fiscal years, and each request asked for a list of vendors to whom the District paid more than \$500 in any one year.

The request was partially filled (some requests were for years in which there weren't electronic records such as prior to 2000).

This was a FOIA request received by most school districts throughout the state of Illinois.

Social Media Post of the Month

During my final year of middle school, I had the choice to pick between a STEM class or a Spanish 1 class. I wish that I could go back and give myself a pat on the back because I would not be where I am today without that Spanish 1 course. Once I arrived in high school, I already had a Spanish foundation that many kids my age did not have. Many neighboring middle schools did not offer Spanish so I was already a year ahead. Additionally, the curriculum used at Roselle Middle School to teach Spanish had used certain skills that helped me not only through Spanish 2, but all the way through AP level Spanish. After sophomore year, I had skipped an entire level of Spanish (Spanish 4) to move into the advanced placement classes. Looking back, I really do not think I could have made the jump if it wasn't for the skills learned in my eighth grade class. Now, as a senior, I am taking my second college-level AP Spanish Literature class and I am forever grateful that District #12 had the opportunity for me to begin my language journey early."

Social Media Post of the Month

"The classes that I excelled in were foreign language (Spanish), English, and Biology. My first opportunity to learn Spanish was in eighth grade at Roselle Middle School. I ended up loving the language and decided to continue taking it in high school. No one in my family is a native Spanish speaker, but I am able to practice it by speaking it in class and to Spanish speaking friends. I am currently in AP Spanish and I am trying to earn the Seal of Biliteracy."
