

FIS School Board Report April 20th, 2025

MCA Testing

The MCAs are here! FIS is in full swing of the MCA testing season. Our teachers have been working extremely hard to have students be prepared for the MCAs. Each grade level in FIS has Reading and Math. Additionally, 5th and 8th grades also have the MCA science. Thank you to our teachers for their dedication to our students!

Concerts

Our spring concerts are right around the corner. Next week on the 21st, we have our 7th and 8th-grade band concerts. Further, on the 23rd, we have our 5th and 6th-grade band concerts. It is wonderful to see our students excelling in multiple areas of school, including the arts. A huge thank you to all of our students, families, and directors for making this a positive experience for all.

Spring Activities

Spring activities are starting up. Our Intermediate students not only show their skills academically, but also in extra curricular activities. Being in a spring sport is tough with the weather but our fantastic coaches, players, and families make the best of the unpredictability in our spring. A pre-thank you to all of our coaches for their commitment to all of our spring activities

Electives and Building Schedule

FIS is working through alignment of our building wide schedule. This is an area of growth for our building to have common timeframes. We are also working on our elective sign up for students and will be having communication going out to families in the next few weeks.
