

## Board Report 7/14/2021

We are getting an estimate for repairs for the elementary lunchroom roof and chain link fence after the wind damage.

Middle School Damage:

We have two bathrooms done at the elementary. The other six bathrooms and the kitchen are in the process of having the floors refinished the next couple weeks.

The High School kitchen floor will be done also in this time period.

We will be replacing some windows at the Middle School and High School this summer.

Rain gutters are scheduled to be replaced at the Middle School this summer also.

We have been watering, mowing, and fertilizing daily.

The river pump is getting low on water; keeping our fingers crossed we don't lose water.
