Nanotechnology Day- Our 5th grade students attended a Nanotechnology Day on October 9th in our Commons Area. Nanotechnology is not a specific field of science; it encompasses all areas. Nano deals with a size - a small size - the size of molecules. Technology involves the application of that size to better materials and processes.

Our students rotated through about 12 activity stations. Each station was manned by a member of the Winona State University Chemistry Club. The stations were designed to deal with one or more of these specific goals: In addition to those goals our students were able to interact with goal oriented college students, gain insight to science related careers, and practice scientific thinking. Every station falls under one of the MN Science Standards.

National Fire Prevention Week – October 7-13

Thank you to our local Fire Fighters for coming to school to talk with our elementary students about fire prevention. Students were given the opportunity to make a poster promoting this year's theme- "Look. Listen. Learn. Be aware. Fire can be anywhere."

Good Shepherd Nursing Home – Our 4th grade students visit Good Shepherd every Thursday to do projects, read or play games with the residents. What a wonderful opportunity for all!
