Re: North Creek Board Report
Date: February 10th, 2025

Dear Members of the Chelsea Board of Education,

The month of January has been a continuation of growing community and engagement in learning at North Creek Elementary. Staff have been working through the Social-Emotional Learning (SEL) BESS screener, mid-year assessments for reading and math, and continuing with our daily lessons. These assessments, along with other key indicators, guide our teachers and staff in supporting the learning and development of all students.

Meanwhile, seven pilot teachers continue their work in the curriculum review process, helping to move the ELA curriculum review process forward. Additionally, many teachers have been actively engaged in professional development through staff-led sessions, the LETRS program, Orton-Gillingham training, and other PD opportunities. Our February 10th professional development day incorporated elements of these trainings while also providing additional learning opportunities for staff.

We are proud of the continued dedication of our staff, the enthusiasm of our students, and the strong partnership with our families and community. Thank you for your ongoing support of North Creek Elementary!

We are excited about the month ahead and all the opportunities it brings. Thank you to our Board of Education for your continued support of North Creek.

Sincerely,
Casey Wescott
Principal, North Creek Elementary
