

School Board Meeting:

April 12, 2010

Subject:

Elementary RtI Guidelines

Presenter:

Pam Miller, Jenina Rothstein, and
Amy Krueger

SUGGESTED SCHOOL BOARD ACTION:

Report only.

DESCRIPTION:

The Elementary Response to Intervention (RtI) Committee was formed a few years ago to begin to examine the topic of RtI, the potential benefits it could bring to our district, and how RtI could be implemented in our schools. All elementary sites have implemented RtI practices, and have experienced different levels of success in their implementation. All teams have worked through many challenges in putting a system of interventions into place for our students.

This year, the Elementary RtI Committee set a goal to develop district guidelines that will be put into place beginning in the 2010-11 school year. The purpose of the district guidelines is to communicate district expectations of RtI at the site level, as well as to communicate which components of the RtI model will be left to a site team's discretion.

At Monday's board workshop, Jenina Rothstein and Amy Krueger will present those guidelines, share RtI information with you, and answer any questions you may have about this district initiative.
