

## Consent Item

**Date:** February 9, 2026

**Division:** Finance

**Subject:** Consider Approval of the Guaranteed Maximum Price for the 2023 Bond Second-Sale Hebron Valley Elementary School 20-Year Life Cycle Maintenance and Repair Project (FB60)

### Background Information:

- The Hebron Valley Elementary School 20-Year Life Cycle Maintenance and Repair (LCMR) Project has been assigned to Glenn Partners as the architect at the January 13, 2025, Board Meeting and Gliden Industries as the Construction Manager at Risk (CMAR) firm by the Board of Trustees at the April 14, 2025, Board Meeting.
- The Guaranteed Maximum Price (GMP) process was presented to the Board in a Discussion Item at the February 5, 2024, Board Work Session.
- The Hebron Valley Elementary School 20-Year LCMR Project has been advertised and competitively bid to sub-contractors by Gliden Industries, the Construction Manager at Risk firm. The sub-contractor bids have been evaluated and scoped for this project. Gliden Industries has presented a Guaranteed Maximum Price (GMP) for this project.
- Gliden Industries has presented a total Guaranteed Maximum Price for the Hebron Valley Elementary School 20-Year LCMR Project of \$16,428,000. This GMP is under the total project budget by approximately \$2.7 Million.
- Gliden Industries is also the CMAR on the Flower Mound Elementary School 20-Year LCMR Project. Glenn Partners is the architect on the Flower Mound project as well. Both projects were bid out at the same time. The Flower Mound project is over budget. However, the Hebron Valley project has enough savings to cover the deficit on the Flower Mound project. So, the two schools come in under the overall combined budget.

### Administrative Consideration:

- Funding for this project is provided from the 2023 Bond Funds.
- The procurement complies with Section 2269 of the Government Code.

### Recommendations:

- That the Guaranteed Maximum Price of \$16,428,000 for the 2023 Bond Second-Sale Hebron Valley Elementary School 20-Year Life Cycle Maintenance and Repair Project by Gliden Industries be approved.
- That funds can be shared between the Flower Mound Elementary School 20-Year Life Cycle Maintenance and Repair Project and the Hebron Valley Elementary School 20-Year Life Cycle Maintenance and Repair Project, which were bid at the same time with the same

Construction Manager at Risk and architect, so that both projects are within the overall combined budget.

- That the Superintendent, Chief Financial Officer, or Director of Procurement be authorized to sign any documents to implement this action.

**Timeline/Report:**

- Upon approval, sub-contracts will be executed, materials will be ordered, and work will begin during the summer of 2026 and will be completed after the summer of 2027.
