

Imagine Learning Implementation Plan

The mission of Harvey SD 152 is to create authentic learning environments of rigor and relevance that will allow all students the opportunity to, among other things:

- Develop a mastery of reading, writing and numerical skills
- Comprehend, evaluate and classify information independently
- Ascertain problems and articulate solutions
- Exhibit good citizenship and community service and engagement.

Curriculum surveys, observations and instructional consults revealed the need of interventions at the K-2 level, which the district currently does not have. The program chosen as the most well rounded and best suited for our student needs was Imagine Learning.

Imagine Learning is an innovative language and literacy software that offers engaging activities, Common Core aligned instruction, including academic vocabulary. The program guarantees real results for English learners, struggling readers, student with disabilities, and early childhood students.

HIGHLIGHTS:

- ✓ Common Core aligned
- ✓ Explicit academic vocabulary instruction
- ✓ Engaging activities
- ✓ Individualized paths
- ✓ Detailed Reports
- ✓ Ongoing assessments – MAKES RtI Easy!

Imagine Learning Implementation Plan

Action/Activity/Strategy/Intervention	Timeline	Person(s) Responsible	Indicator
Identify initial K-8 Tier I,II and III students through district assessments.	September 23, 2013	Principals Teachers Instructional Staff	2013 ISAT Discovery, AIMSweb and Scholastic data
