

SUPERINTENDENT'S REPORT JANUARY 2006

1. Rose House: Art Baker should have the house moved from across the street by the end of this week. The movers will start their work on January 16th. The house will have to come out the front, so three trees along the street had to be removed.

2. Building projects: John Graves is finalizing the project specs and getting everything ready for bids. We need to schedule a Long Range Building and Planning Committee meeting.

3. Refined ADA: Average Daily Attendance through Dec 22, 2005, was 593. This is great! We built the budget on a projection of 585. Marla is doing a great job of managing the finances and keeping us within the budget. She reports that tax collections are coming along very well at this point.
