2025-10-10 October 31, 2025

Resource: Dr. Abe Johnson Senior VP Campus Operations

**AGENDA ITEM:** Consideration of Approval of a New Associate of Applied

Science Degree Program in Interventional Radiology

Technology - Cardiovascular

**DISCUSSION:** The 2023-2030 Collin College Master Plan identifies a

priority to expand college programs and facilities to accommodate growth and employment needs throughout the service area, and the 2023-2030 Strategic Plan has identified a goal to create and implement comprehensive pathways to enrich the student experience and support student completions. Labor market analysis has indicated a demand for Interventional Radiology Cardiovascular Technologists to meet the needs of healthcare industry in the north Texas region. This new degree program has been researched and developed in accordance with the criteria required by the Texas Higher Education Coordinating Board (THECB) and the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). These criteria include job market analysis, employment projections, enrollment projections, integration of the general education core with career and technical skills, faculty recruitment planning, and industry advisory committee input. Collin College's Curriculum Advisory Board and Academic Leadership also reviewed the degree plan and recommended approval. Assuming all necessary approvals are received from the THECB and SACSCOC, the coursework in this program will be offered at the Health Science Center on the Frisco Campus.

The proposed AAS degree program in Interventional Radiology Technology - Cardiovascular will offer an AAS degree that will include 16-semester credit hours of general education requirements and 44-semester credit hours of workforce education coursework. As required by Texas law, the AAS degree requires students to complete a total of 60-semester credit hours.

DISTRICT PRESIDENT'S RECOMMENDATION:

The District President recommends approval of the new Associate of Applied Science degree program in Interventional Radiology Technology – Cardiovascular

SUGGESTED MOTION:

"Mr. Chairman, I make a motion that the Board of Trustees of Collin County Community College District approves the new Associate of Applied Science degree program in Interventional Radiology Technology - Cardiovascular."
