

## **Community Relations**

### **Citizens' Ad Hoc Committees**

The Board of Education supports the concept of ad hoc committees, both for the Board of Education directly and for the staff.

When the Board of Education establishes a committee, the Board shall provide guidelines for membership and delineate its responsibilities and authority.

The involvement of the members of the public in assisting the Board of Education and the staff in reaching for the best possible decisions is a well-established principle in public school education except in those situations where insufficient time will prevent the committee from functioning properly.
